SETUP

Connecting Your Earphones

The boAt Bassheads 122 ANC earphones feature a Type-C jack for universal compatibility. Simply plug the Type-C connector into the Type-C port of your smartphone, tablet, laptop, or any compatible device. Ensure the connection is secure for optimal audio performance.

Type-C Interface

Universal Compatibility

OPERATING INSTRUCTIONS

Active Noise Cancellation (ANC)

The Bassheads 122 ANC features 25 dB Active Noise Cancellation, designed to reduce 40-50% of background noise. To activate ANC, use the dedicated switch on the in-line control module. This feature allows you to immerse yourself in your audio without distractions from your surroundings.

Active Noise Cancellation (25dB) (Cancels 40-50% Background Noise)

Image: A person wearing the earphones, with visual cues indicating sound waves being cancelled around the ear, highlighting the 25dB Active Noise Cancellation feature.

Ambient Mode

Ambient Mode allows you to stay connected to your surroundings while still enjoying your audio. When activated, the earphones will allow some ambient sounds to pass through, ensuring you can hear important announcements or conversations without removing your earphones. Activate Ambient Mode using the in-line control module.

Ambient Mode

Stay Tuned into Your World

Integrated Controls

The in-line control module provides easy access to various functions:

- **Volume Control:** Use the '+' and '-' buttons to adjust the audio volume.
- **Audio Playback:** Control music playback (play/pause, skip tracks) with the multi-functional button.
- **Call Management:** Answer, end, or reject incoming calls.
- **ANC Settings:** Toggle between ANC On, Ambient Mode, and ANC Off.

MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your boAt Bassheads 122 ANC earphones, follow these care instructions:

- **Cleaning:** Gently wipe the earphones and cable with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store your earphones in a clean, dry place, away from extreme temperatures and direct sunlight. Avoid tangling the cable.
- **Handling:** Do not pull the cable forcefully when disconnecting from a device. Always grasp the Type-C connector.
- **Moisture:** Keep the earphones away from water and excessive moisture.

Device Compatibility and Audio Playback

Some mobile devices may not automatically route audio through Type-C wired earphones. If you encounter issues with music playback even when earphones are connected, follow one of the options below:

Option 1: Enable Developer Options ---> Disable the option of 'Disable USB Audio routing' ---> Insert the wired earphone & Enjoy music.

Option 2: Enable Developer Options ---> Enable OTG connection & Insert the wired earphone ---> Enjoy music.

Note: When Option 2 is enabled, if the earphones are not used for more than 10 minutes, OTG (On-The-Go) connection gets disabled automatically. This option needs to be enabled again manually.

Device Compatibility and Troubleshooting:

Some mobile devices don't need any settings to be applied to enjoy music through Type-C wired earphones. If you encounter issues like music playing from phone even when earphones are connected, follow one of the options below-

Option 1: Enable Developer Options ---> Disable the option of 'Disable USB Audio routing' ---> Insert the wired earphone & Enjoy music

Option 2: Enable Developer Options ---> Enable OTG connection & Insert the wired earphone ---> Enjoy music

Note – When Option 2 is enabled, if the earphones are not used for more than 10 minutes, OTG (On-The-Go) connection gets disabled automatically. This option needs to be enabled again manually.
