Lupilu AMBIANO Baby Food Processor Model 1019657 User Manual

Comprehensive instructions for safe and efficient use.

INTRODUCTION

Thank you for choosing the Lupilu AMBIANO Baby Food Processor Model 1019657. This appliance is designed to simplify the preparation of healthy and nutritious meals for your baby. It combines multiple functions including steaming, blending, quick heating, warming, sterilization, and a self-cleaning feature. Please read this manual carefully before first use to ensure proper operation, maintenance, and safety.

IMPORTANT SAFETY INSTRUCTIONS

- Always ensure the appliance is placed on a stable, flat surface away from heat sources.
- Do not immerse the main unit in water or other liquids.
- Keep out of reach of children.
- The appliance features **dry-boil protection** and **overheating protection**. If these safety mechanisms activate, the appliance will shut off automatically. Allow it to cool down before resuming use.
- The **double safety interlock** must be correctly engaged for the appliance to operate. Ensure the lid and mixing bowl are securely in place.
- Exercise caution when handling the **stainless steel double blade** as it is very sharp.
- Unplug the appliance from the power outlet when not in use, before cleaning, and during assembly or disassembly.
- Only use accessories and parts recommended by the manufacturer.

PRODUCT OVERVIEW

The AMBIANO Baby Food Processor is a versatile kitchen appliance designed for ease of use. Familiarize yourself with its components and control panel.

Main Components:

- Main Unit with Control Panel
- 1 Liter Mixing Bowl
- Stainless Steel Double Blade
- Steam Cover
- Lid with Double Safety Interlock

Figure 1: Front view of the AMBIANO Baby Food Processor, showing the main unit with its digital control panel and the transparent 1-liter mixing bowl attached.

Figure 2: All components of the AMBIANO Baby Food Processor laid out, including the main unit, mixing bowl, lid, steam basket, and various accessories.

Control Panel:

The control panel features a digital display showing "SET" (set time/temperature) and "REAL" (actual time/temperature). Buttons allow selection of functions, adjustment of settings, and power control.

SETUP AND FIRST USE

1. **Unpack:** Carefully remove all components from the packaging. Retain packaging for future storage or transport.
2. **Clean:** Before first use, wash the mixing bowl, lid, steam cover, and stainless steel blade in warm soapy water. Rinse thoroughly and dry. The mixing bowl and lid are dishwasher safe.
3. **Assemble Blade:** Carefully place the stainless steel double blade onto the spindle inside the mixing bowl. Ensure it is securely seated.
4. **Attach Bowl:** Place the mixing bowl onto the main unit, aligning it correctly. Turn clockwise until it locks into place.
5. **Secure Lid:** Place the lid onto the mixing bowl and turn it clockwise until the double safety interlock engages. The appliance will not operate if the lid is not properly secured.
6. **Connect Power:** Plug the power cord into a suitable electrical outlet. The display will illuminate.

OPERATING INSTRUCTIONS

The AMBIANO Baby Food Processor offers 6 distinct functions for preparing baby food.

1. Steaming:

- Add the required amount of water to the water reservoir (refer to markings for guidance).
- Place chopped ingredients into the steam basket.
- Insert the steam basket into the mixing bowl.
- Secure the lid.

- Select the steaming function on the control panel and set the desired steaming time.
- Press start. The appliance will automatically shut off when steaming is complete.

2. Blending:

- Ensure the stainless steel double blade is correctly installed.
- Add cooked or soft ingredients to the mixing bowl. Do not overfill the 1-liter capacity.
- Secure the lid.
- Select the blending function. The appliance offers adjustable speed control.
- Press start and blend until the desired consistency is achieved. Use short pulses for better control.

3. Quick Heating & Warming (up to 40 minutes):

- This function is suitable for quickly heating or keeping baby food warm.
- Place the food in a suitable container within the mixing bowl (e.g., a baby bottle or small jar).
- Add water to the reservoir around the container.
- Secure the lid.
- Select the heating/warming function and set the desired temperature or duration (up to 40 minutes).
- Press start. The appliance will maintain the temperature or heat for the set time.

4. Sterilization of Bottles and Accessories:

- Ensure bottles and accessories are clean before sterilization.
- Add the recommended amount of water to the water reservoir.
- Place bottles and accessories upside down in the steam basket or directly into the mixing bowl, ensuring steam can circulate.
- Secure the lid.
- Select the sterilization function. The appliance will generate steam to sterilize the items.
- Allow items to cool before handling.

5. Keep Warm:

- This function maintains the temperature of prepared food.
- Place the food in the mixing bowl or a suitable container within it.
- Add water to the reservoir if using a container.
- Secure the lid.
- Select the "Keep Warm" function. The appliance will maintain a gentle warming temperature.

6. Self-Cleaning Function:

- After use, add water and a small amount of mild detergent to the mixing bowl.
- Secure the lid.
- Select the self-cleaning function. The appliance will run a cycle to help clean the interior.
- After the cycle, empty the bowl, rinse thoroughly, and dry.

CARE AND MAINTENANCE

- **Cleaning:** Always unplug the appliance before cleaning. The mixing bowl and lid are **dishwasher safe**. The

stainless steel blade can be hand-washed carefully. Wipe the main unit with a damp cloth; never immerse it in water.

- **Descaling:** Regular descaling of the water reservoir is recommended, especially in areas with hard water, to maintain optimal performance. Use a food-safe descaling solution according to its instructions.
- **Storage:** Ensure all parts are clean and dry before storing. Store the appliance in a cool, dry place, away from direct sunlight. The integrated cable storage helps keep the cord tidy.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in; power outage; safety interlock not engaged.	Check power connection; ensure lid and bowl are securely locked.
Steaming function not working.	Insufficient water in reservoir; dry-boil protection activated.	Add water to the reservoir; allow appliance to cool if dry-boil protection activated.
Blending function not working.	Lid not secured; blade not properly installed; ingredients too hard or too much.	Ensure lid is locked; check blade installation; reduce ingredient quantity or soften them.
Appliance stops unexpectedly.	Overheating protection activated.	Unplug and allow the appliance to cool down for at least 30 minutes before restarting.
