Redragon BS8772

Redragon BS8772 Wireless Keyboard and Mouse Combo User Manual

Model: BS8772

Introduction

Welcome to the user manual for your Redragon BS8772 Wireless Keyboard and Mouse Combo. This product offers a seamless and efficient wireless experience for your computing needs. Designed for comfort and productivity, this combo features a compact 75% layout keyboard with low-profile mechanical switches and a high-precision ergonomic mouse.

Package Contents

Please verify that all items are present in your package:

- Redragon BS8772 Wireless Keyboard
- Redragon Wireless Mouse
- 2.4GHz USB Dongle (shared for both devices)
- USB Charging Cable (for keyboard)
- User Manual (this document)

Setup

1. Charging the Keyboard

The keyboard comes with a built-in rechargeable battery. Before first use, or if the battery is low, connect the keyboard to a USB power source (e.g., computer USB port, USB wall adapter) using the provided USB charging cable. The keyboard can only be charged in wired mode.

2. Installing Mouse Battery

The mouse requires one AA battery (not included). Open the battery compartment on the underside of the mouse and insert the AA battery, ensuring correct polarity.

3. Connecting the USB Dongle

Locate the 2.4GHz USB dongle. Insert the dongle into an available USB port on your computer or laptop. The keyboard and mouse will automatically connect to the dongle.

Note:

- The USB dongle is shared for both the keyboard and the mouse.
- Ensure the keyboard and mouse are powered on.

Operating Instructions

Keyboard Functions

The Redragon BS8772 keyboard features a 75% layout with 78 keys, including dedicated arrow keys and a number pad.

- **Function Keys (Fn)**: Many keys have secondary functions accessible by pressing the**Fn** key simultaneously. Refer

to the keycap legends for specific functions (e.g., F1-F12, media controls).

- **Backlight Control**: The keyboard features a single blue backlight. Use the designated key combination (often Fn + a specific key like Page Up/Down or an arrow key) to adjust brightness or turn the backlight on/off.

Mouse Functions

The ergonomic mouse offers precise control with adjustable DPI settings.

- **DPI Adjustment**: The mouse has 5 adjustable DPI levels: 800, 1200, 1600, 2000, and 2400 DPI. Press the DPI button (usually located near the scroll wheel or on the underside) to cycle through these settings.
- **Ergonomic Design**: The contoured shape is designed for comfortable long-term use.

Key Features

- **Wireless Connectivity**: Utilizes an advanced 2.4GHz wireless dongle for precise, non-interfering, and lag-free data transmission, providing a clutter-free workspace.
- **Compact Keyboard Layout**: Features a 75% layout with 78 keys, balancing compactness with the inclusion of separate arrow keys and a number pad.
- **Low-Profile Mechanical Switches**: Designed with low-profile red switches and keycaps that are 30% lower than regular keyboards, shortening the actuation distance for faster response.
- **Adjustable Mouse DPI**: Offers 5 adjustable DPI levels (800/1200/1600/2000/2400 DPI) for versatile use, from detailed tasks to gaming.
- **Ergonomic Design**: Both the keyboard with its 2-stage adjustable feet and the lightweight, contoured mouse are designed to maximize comfort and reduce fatigue during extended use.
- **Blue Backlighting**: The keyboard features a single blue backlight, enhancing visibility and adding a stylish element

to your desk setup.

Maintenance

Cleaning

To clean your keyboard and mouse, use a soft, lint-free cloth. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid using harsh chemicals, abrasives, or solvents.

Battery Care

- **Keyboard**: Recharge the keyboard battery regularly to maintain its lifespan. Avoid fully discharging the battery frequently.
- **Mouse**: If the mouse is not in use for an extended period, consider removing the AA battery to prevent leakage.

Storage

Store the keyboard and mouse in a cool, dry place away from direct sunlight and extreme temperatures.

Troubleshooting

Problem	Solution
Keyboard/Mouse not responding	• Ensure the USB dongle is securely plugged into a working USB port. • Check if the keyboard and mouse are powered on. • For the keyboard, ensure it is charged. • For the mouse, replace the AA battery. • Try plugging the dongle into a different USB port. • Restart your computer.
Lag or intermittent connection	• Move the keyboard/mouse closer to the USB dongle. • Ensure there are no large metal objects or other 2.4GHz wireless devices (e.g., Wi-Fi routers, cordless phones) interfering with the signal. • Try plugging the dongle into a front USB port if using a desktop PC.
Keyboard backlight not working	• Ensure the keyboard is charged. • Press the backlight control key combination (refer to operating instructions) to turn it on or adjust brightness.
Mouse cursor erratic or not moving smoothly	• Clean the optical sensor on the underside of the mouse. • Use the mouse on a clean, non-reflective surface or a mouse pad. • Adjust the DPI setting to a lower value if it's too sensitive.
