Infusion Buds IB Mini

Infusion Buds 2-in-1 Decarboxylator & Infuser IB Mini User Manual

Model: IB Mini

Brand: Infusion Buds

INTRODUCTION

Welcome to the Infusion Buds 2-in-1 Decarboxylator & Infuser user manual. This device is designed to simplify the process of decarboxylating herbs and infusing them into butters, oils, and tinctures. Please read this manual thoroughly before operating the device to ensure safe and efficient use.

The Infusion Buds IB Mini combines two essential processes into one compact unit, allowing for precise temperature and time control for optimal results.

IMPORTANT SAFETY INFORMATION

- Always ensure the device is placed on a stable, heat-resistant surface.
- Do not immerse the main unit in water or any other liquid.
- Keep out of reach of children and pets.
- Avoid direct skin contact with undiluted herbs or oils, especially when hot.
- Ensure proper ventilation during use, as some processes may produce odors.
- Do not ingest oils or butters directly from the device; always allow them to cool and follow recipe guidelines.
- Unplug the device when not in use and before cleaning.
- Do not operate the device if the power cord or plug is damaged.

PACKAGE CONTENTS

Verify that all items are included in your package:

- Infusion Buds 2-in-1 Decarboxylator & Infuser Machine
- 3 Gummy Molds

- Butter Mold with Lid
- Custom Strainer & Press
- Easy Clean Infusion Insert
- Herbal Recipe Book & Guide

INCLUDES EVERYTHING YOU NEED TO CREATE MAGICAL INFUSIONS FROM THE COMFORT OF HOME!

**Decarb &
Infuser Machine**

Inner Container

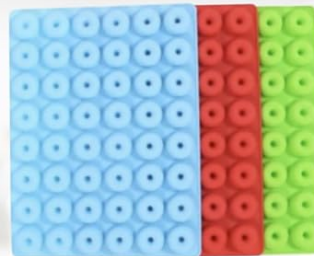

**Easy Clean
Silicone Insert**

Strainer & Press

**Butter Mold with
Freshness Lid**

3 Gummy Molds

**Physical Recipe
Book & Guide**

PRODUCT COMPONENTS

Familiarize yourself with the different parts of your Infusion Buds device:

DECARB, INFUSE & STRAIN IN 1 COMPACT DEVICE!

Image: An exploded diagram illustrating the components of the Infusion Buds machine. From top to bottom: Locking Lid, Smell Control Lid, Strainer, Easy Clean Infusion & Decarb Insert, Inner Cup, and the main Infusion Buds 2-in-1 Decarb & Infuse Machine with customizable times and temperatures.

- **Locking Lid:** Secures the contents during operation.
- **Smell Control Lid:** Designed to minimize odors during the decarboxylation and infusion processes.
- **Strainer:** Used for separating infused liquids from plant material.
- **Easy Clean Infusion & Decarb Insert:** The primary chamber for herbs and infusion medium.
- **Inner Cup:** Holds the infusion insert and liquid.
- **Main Unit:** Houses the heating element, controls, and display.

SETUP INSTRUCTIONS

1. **Unpack:** Carefully remove all components from the packaging.
2. **Clean:** Before first use, wash the Easy Clean Infusion & Decarb Insert, Inner Cup, Strainer, Press, Gummy Molds, and Butter Mold with warm, soapy water. Rinse thoroughly and dry. Wipe the exterior of the main unit with a damp

cloth.

3. **Placement:** Place the main unit on a flat, stable, heat-resistant surface away from flammable materials.
4. **Assembly:** Insert the Inner Cup into the main unit. Place the Easy Clean Infusion & Decarb Insert into the Inner Cup.

OPERATING INSTRUCTIONS

Decarboxylation Process

Decarboxylation activates the compounds in your herbs, preparing them for infusion.

1. **Prepare Herbs:** Grind your herbs to a medium consistency. Do not over-grind into a fine powder.
2. **Load Device:** Place up to 1.5 oz of prepared herbs into the Easy Clean Infusion & Decarb Insert.
3. **Secure Lids:** Place the Smell Control Lid over the insert, then secure the Locking Lid on top of the main unit.
4. **Set Temperature:** Plug in the device. Use the "Temp+" and "Temp-" buttons to set the desired decarboxylation temperature (refer to your recipe book for specific recommendations).
5. **Set Time:** Use the "Time+" and "Time-" buttons to set the desired decarboxylation time.
6. **Start:** Press the "Start/Stop" button to begin the decarboxylation cycle. The display will show the current temperature and remaining time.
7. **Cool Down:** Once the cycle is complete, the device will beep and automatically shut off. Allow the device to cool down completely before opening the lid and proceeding to infusion or storage.

Image: A visual guide showing three steps for decarbing: 1. Load and insert canister, 2. Secure locking lid, 3. Set it and forget it using the control panel.

Infusion Process

After decarboxylation, you can infuse your activated herbs into a medium.

1. **Add Medium:** If you have just decarboxylated, ensure the device has cooled slightly. Add your chosen infusion medium (butter, oil, or tincture base) directly into the Easy Clean Infusion & Decarb Insert with the decarboxylated herbs. The device can infuse up to 2 cups of liquid.
2. **Secure Lids:** Place the Smell Control Lid over the insert, then secure the Locking Lid on top of the main unit.
3. **Set Temperature:** Use the "Temp+" and "Temp-" buttons to set the desired infusion temperature (refer to your recipe book).
4. **Set Time:** Use the "Time+" and "Time-" buttons to set the desired infusion time.
5. **Start:** Press the "Start/Stop" button to begin the infusion cycle.
6. **Monitor:** The clear lid allows you to observe the infusion process.
7. **Strain:** Once the cycle is complete and the device beeps, unplug it. Carefully remove the lids. Use the custom strainer and press to separate the infused liquid from the plant material. Pour the infused product into the butter mold or a suitable storage container.

3 SIMPLE STEPS FOR MAGICAL INFUSIONS

STEP 1:

Add herbs & Decarb

STEP 2:

Add in butter or oil & infuse

STEP 3:

Strain directly into the butter mold or a jar for use with your favorite recipes

Image: A visual guide showing three steps for infusions: Step 1: Add herbs & Decarb. Step 2: Add in butter or oil & infuse. Step 3: Strain directly into the butter mold or a jar for use with your favorite recipes.

For detailed recipes and tips, consult the included Herbal Recipe Book & Guide.

CARE AND MAINTENANCE

- **Cleaning:** Always unplug the device and allow it to cool completely before cleaning.
- **Removable Parts:** The Easy Clean Infusion & Decarb Insert, Inner Cup, Strainer, Press, Gummy Molds, and Butter Mold are dishwasher safe or can be hand-washed with warm, soapy water.
- **Main Unit:** Wipe the exterior of the main unit with a damp cloth. Do not use abrasive cleaners or immerse the main unit in water.
- **Storage:** Store the device and its accessories in a clean, dry place when not in use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on.	Not plugged in; power outlet issue; damaged cord.	Ensure device is securely plugged into a working outlet. Check power cord for damage.
Device stops mid-cycle.	Overheating; power interruption.	Unplug and allow to cool. Check power connection. If problem persists, contact customer support.
Strong odor during operation.	Normal for some herbs; lid not sealed properly.	Ensure both lids are securely in place. Operate in a well-ventilated area.
Infusion not effective.	Incorrect temperature/time; herbs not decarboxylated properly.	Review recipe book for recommended settings. Ensure herbs were decarboxylated before infusion.

PRODUCT SPECIFICATIONS

- **Model Name:** IB Mini
- **Brand:** Infusion Buds
- **Capacity:** Up to 1.5 oz of flower (decarb), up to 2 cups of liquid (infuse)
- **Power Source:** 120 V
- **Material:** Stainless Steel, BPA Free components
- **Special Feature:** Automatic Shut-Off
- **Product Dimensions:** 4"L x 4"W x 7"H
- **Item Weight:** 2 Ounces

WARRANTY AND SUPPORT

Infusion Buds stands behind its products. Your purchase includes a warranty. For specific warranty details, please refer to the warranty card included with your product or visit the official Infusion Buds website.

For customer support, technical assistance, or any questions regarding your Infusion Buds device, please contact our friendly customer service team. Contact information can be found on our website or in the included documentation.

We are committed to helping you every step of the way to ensure a positive experience with your Infusion Buds product.
