BEDSURE Heated Blanket E1 (Model BS-EU180200) User Manual

1. INTRODUCTION

Welcome to your new Bedsure Heated Blanket E1. This manual provides essential information for the safe and effective use of your heated blanket. Please read all instructions carefully before first use and retain this manual for future reference.

2. IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of burns, electric shock, fire, or injury, always follow these basic safety precautions:

- Read all instructions thoroughly before using the heated blanket.
- Do not use the blanket if it is wet or damp.
- Ensure the blanket is spread flat and not bunched, folded, or crumpled during operation to prevent localized overheating.
- The blanket features an automatic shut-off function after 8 hours to prevent overheating and ensure safety.
- This heated blanket is certified GS, CE, and RoHS, indicating compliance with European safety standards.
- Do not use this blanket with infants, children, incapacitated persons, or any individual who is insensitive to heat.
- Avoid using the blanket with pets.
- Never insert pins or other sharp metallic objects into the blanket.
- Always disconnect the blanket from the power outlet when not in use or before cleaning.
- Do not use if the power cord or controller is damaged. Contact customer support for assistance.

4. SETUP

1. **Unpack:** Carefully remove the heated blanket and its digital controller from the packaging.
2. **Position:** Lay the blanket flat on your bed, sofa, or desired surface. Ensure there are no folds, creases, or bunched areas.
3. **Connect Controller:** Locate the power port on the blanket and securely plug in the connector from the digital controller. Ensure a firm connection.
4. **Plug In:** Insert the power cord from the controller into a standard, functional electrical outlet.

5. OPERATING INSTRUCTIONS

The digital controller allows you to easily manage the blanket's heat and timer settings.

Power On/Off:

- Press the **Power Button** (usually marked with an 'On/Off' symbol) on the controller to turn the blanket on or off. The

digital display will illuminate when powered on.

Setting Heat Level:

- Use the **Heat Level Buttons** (often marked with up/down arrows or '+' / '-') to select your desired heat setting from 1 to 6. The current heat level will be shown on the digital display.
- Setting 1 is the lowest heat, and Setting 6 is the highest.

Setting Timer:

- Press the **Timer Button** (often marked with a clock symbol) to cycle through the available automatic shut-off times, up to 10 hours.
- The blanket has a standard 8-hour automatic shut-off feature for safety, even if a longer timer is not explicitly set.

Preheat Function:

- The blanket is designed for rapid and even heating. Simply turn it on and select your desired heat level; it will begin warming quickly.

6. MAINTENANCE

Cleaning:

1. **Disconnect:** Always unplug the blanket from the wall outlet and detach the controller from the blanket before cleaning.
2. **Machine Washable:** The blanket is machine washable. Refer to the care label attached to the blanket for specific washing instructions, including water temperature and cycle settings.
3. **Drying:** Tumble dry on a low setting or line dry. Ensure the blanket is completely dry before reattaching the controller or storing.
4. **Do Not:** Do not dry clean, bleach, or iron the heated blanket.

Storage:

- Ensure the blanket is completely dry before folding.
- Gently fold the blanket and store it in a cool, dry place, away from direct sunlight and moisture.
- Avoid placing heavy objects on the blanket during storage, as this may damage the internal heating elements.

7. TROUBLESHOOTING

If you encounter any issues with your Bedsure Heated Blanket, please refer to the following common solutions:

- **Blanket Not Heating:**
 - Check if the power cord is securely plugged into a functional electrical outlet.
 - Ensure the controller is firmly connected to the blanket's power port.
 - Verify that the blanket is powered on and a heat level is selected on the controller.
- **Controller Display Not Working:**
 - Try disconnecting and reconnecting the power cord from the wall outlet.
 - If the issue persists, contact customer support.

• **Blanket Feels Too Hot / Overheating:**

- The blanket has an automatic shut-off feature to prevent overheating. If it feels excessively hot, immediately turn it off and unplug it.
- Inspect the blanket for any folds, creases, or objects that might be causing localized heat buildup. Ensure it is spread flat.

If these steps do not resolve the issue, please contact Bedsure customer support for further assistance.
