

## FULLMIRROR02

# Instruction Manual: Generic Full Length Mirror with Rolling Wheels and Coat Rack

Model: FULLMIRROR02

### 1. PRODUCT OVERVIEW

Thank you for choosing the Generic Full Length Mirror with Rolling Wheels and Coat Rack. This versatile product combines a high-definition full-length mirror with a functional coat rack and storage shelves, designed for convenience and space-saving in various settings such as bedrooms, living rooms, or cloakrooms.

Key features include a 360° swivel mirror, lockable rolling wheels for easy movement, and an anti-splash explosion-proof film for enhanced safety. The integrated coat rack offers multiple hooks and a thickened main pole for hanging clothes, while three open shelves provide additional storage.

## 2. ASSEMBLY INSTRUCTIONS

Assembly is required for this product. Please follow these steps carefully. It is recommended to have a Phillips head screwdriver and potentially a drill for wheel installation.

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all components are present according to the parts list (not provided, but typically includes mirror frame, main pole, shelves, hooks, and wheels).
2. **Attach Main Pole to Mirror Frame:** Secure the main wooden pole to the back of the mirror frame using the provided hardware. Ensure a tight and stable connection.
3. **Install Shelves:** Attach the three open shelves to the main pole at the designated positions. Ensure they are level and securely fastened.
4. **Install Hooks:** Insert the multiple hooks into the pre-drilled holes on the main pole and the side of the mirror frame.
5. **Attach Wheels:** The base of the mirror is designed for rolling wheels. If pre-drilled holes are not present, carefully mark and drill pilot holes for the wheel screws. It is crucial to position one wheel directly centered under the mirror to ensure stability and prevent the mirror from tipping forward, as

the mirror is top-heavy. Secure all wheels firmly.

6. **Final Check:** Once assembled, gently test the stability of the mirror and ensure all connections are secure.

## 3. OPERATING INSTRUCTIONS

This mirror is designed for ease of use and versatility.

- **Mirror Usage:** The large, high-definition mirror provides a clear, undistorted reflection. It features an anti-splash explosion-proof film for safety, preventing glass shards from scattering if the mirror is accidentally broken.
- **360° Rotation:** The mirror can be rotated 360 degrees on its base, allowing you to adjust its angle as needed.
- **Rolling Wheels:** The universal wheels allow for effortless movement of the mirror to any desired location.
- **Lockable Wheels:** Each wheel is equipped with a brake function. To lock the mirror in place, press down on the brake lever on each wheel. To unlock, lift the lever.
- **Coat Rack and Shelves:** Utilize the thickened main pole and multiple hooks to hang clothes, bags, and other accessories. The three open shelves are suitable for storing shoes, small boxes, or decorative items.

## 4. MAINTENANCE

---

Proper care will ensure the longevity and appearance of your mirror.

- **Mirror Cleaning:** Use a soft, lint-free cloth and a non-abrasive glass cleaner to clean the mirror surface. Spray cleaner onto the cloth, not directly onto the mirror, to avoid liquid seeping into the frame edges.
- **Wood Frame Care:** Wipe the wooden frame with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid harsh chemicals or abrasive cleaners that could damage the wood finish.
- **Wheel Maintenance:** Periodically check the wheels for any accumulated dust or debris that might hinder smooth movement. Clean as necessary.
- **Hardware Check:** Occasionally inspect all screws and connections to ensure they remain tight. Tighten any loose hardware to maintain stability.

## 5. TROUBLESHOOTING

---

If you encounter any issues with your mirror, please refer to the following common solutions:

- **Mirror feels unstable or tips forward:** This product is top-heavy. Ensure that the wheels are correctly installed, with at least one wheel positioned directly centered under the mirror's base for optimal balance. Verify all assembly screws are tightened.
- **Wheels do not roll smoothly:** Check for any hair, dust, or debris caught in the wheel mechanisms. Clean the wheels thoroughly. Ensure the wheel brakes are disengaged.
- **Scratches on wooden parts:** While efforts are made to prevent damage during shipping, minor scratches can occur. For superficial scratches, wood repair markers or furniture polish may help.
- **Missing parts or hardware:** If any parts are missing upon unpacking, please contact customer support for assistance.

## 6. SPECIFICATIONS

Feature	Detail
Brand	Generic
Model Number	FULLMIRROR02
Product Dimensions	66.9"L x 15.7"W (170cm x 40cm)
