Cleaning

The chairs are made with UV-resistant, breathable Textilene fabric, which is water and oil proof. For routine cleaning, simply wipe clean with a damp cloth. For stubborn stains, a mild soap solution can be used. Rinse thoroughly and allow to air dry.

TROUBLESHOOTING

General Issues

- Chair feels unstable:** Ensure the chair is fully unfolded and all legs are properly extended on a flat surface. Check for any obstructions under the legs.
- Difficulty folding/unfolding:** Apply gentle, even pressure. Do not force the mechanism. Ensure no debris is caught in the hinges.
- Fabric appears dirty:** Refer to the "Cleaning" section under Maintenance and Care.
- Rust spots:** While the frame is rust-resistant, prolonged exposure to harsh elements can cause minor surface rust. Clean with a rust remover designed for metal furniture and apply a protective coating if desired.
