pouseayar Two Motor Black

pouseayar Heavy Duty Electric Massage Table Instruction Manual

Model: Two Motor Black

Introduction

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your pouseayar Heavy Duty Electric Massage Table, Model Two Motor Black. Please read this manual thoroughly before use to ensure safe and efficient operation.

Safety Information

- Always adhere to the maximum weight capacity of 1000 lbs to prevent damage or injury.
- Ensure all components are securely fastened during assembly.
- Keep the remote control and power cords away from water or excessive moisture.
- Do not allow children or unauthorized personnel to operate the table.
- Disconnect power before performing any maintenance or cleaning.

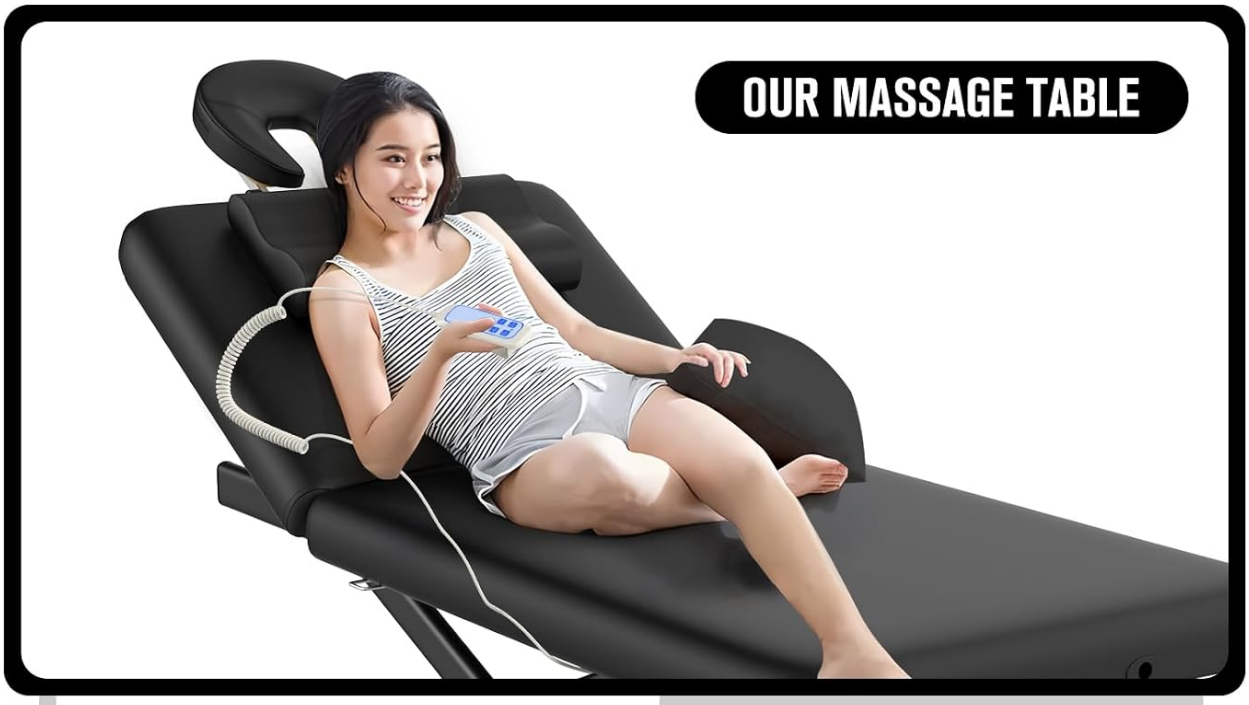

Setup and Assembly

Your massage table is shipped in two separate packages: one for the tabletop and one for the heavy-duty frame. Please ensure both packages have arrived before beginning assembly. Assembly typically takes 30 minutes and requires two people. A universal hex wrench is included; no additional tools are required.

Assembly Steps:

1. Carefully unpack all components from both packages.
2. Attach the tabletop to the frame using the 8 provided screws. Align with the pre-drilled holes and tighten securely with the hex wrench.
3. Connect each of the 2 motors to the frame using 1 screw per motor.
4. Install the U-shaped rod for the disposable sheet roll using the 2 remaining screws.
5. Connect the remote control cable to the appropriate port on the table's control unit.
6. Ensure all connections are firm and secure before plugging the table into a power outlet.

HUMANIZED DESIGN

This electric massage bed features a wired handheld remote control with an extended cord allowing massage therapists to easily adjust height and backrest angles.

Clients can also use the remote to find their optimal comfort position.

Placing the remote on the ground risks it being lost or accidentally damaged, highlighting the importance of its convenient handheld design.

Operating Instructions

The pouseayar Electric Massage Table features two robust motors for adjusting height and backrest angle. These functions are controlled via the wired remote control.

Remote Control Functions:

- **Height Adjustment:** Use the designated "Up" and "Down" buttons on the remote to raise or lower the table to your desired working height.
- **Backrest Adjustment:** Use the "Backrest Up" and "Backrest Down" buttons to adjust the angle of the backrest for client comfort.

The table is also equipped with 5-inch wheels for easy mobility within your professional setting. The pillows are detachable for flexible use and cleaning. The chest cushion is designed to elevate the chest area, promoting better blood circulation and relaxation.

Maintenance and Care

Proper maintenance ensures the longevity and hygiene of your pouseayar Electric Massage Table.

Cleaning Instructions:

- The table's upholstery is made of high-quality PU leather, which is scratch-resistant, oil-resistant, and dirt-resistant.
- To clean the surface, simply wipe with a dry cloth. For tougher spots, a damp cloth with mild soap can be used, followed by drying thoroughly.

- The pillows are detachable for convenient cleaning.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the upholstery.

Troubleshooting

If you encounter any issues with your pouseayar Electric Massage Table, please refer to the following common solutions:

- **Table Not Responding:**
  - Check if the power cord is securely plugged into both the table and a working electrical outlet.
  - Ensure the remote control cable is firmly connected to the table's control unit.

- Verify that the power outlet is functional by testing it with another device.

- **Unusual Noises During Operation:**
  - Inspect the area around the motors and moving parts for any obstructions.
  - Ensure all assembly screws are tightened. Loose components can cause vibrations and noise.

- **Uneven Movement:**
  - Confirm that the table is placed on a flat, stable surface.
  - Check for any damage to the motor support rods or frame.

If the problem persists after attempting these solutions, please contact pouseayar customer support for further assistance.

Specifications

Brand	pouseayar
