2. App Installation and Pairing

To unlock the full functionality of your Raptor PRO Smartwatch, download the companion application on your smartphone. The watch is compatible with both Android and iOS operating systems.

1. Scan the QR code in the watch's initial setup screen or search for the official ALPHAGEAR app in your phone's app store (Google Play Store for Android, Apple App Store for iOS).
2. Install and open the application.
3. Follow the on-screen instructions within the app to pair your smartwatch via Bluetooth. Ensure Bluetooth is enabled on your smartphone.
4. Confirm the pairing request on both your phone and the watch.

3. Screen Protector Application

Your Raptor PRO Smartwatch comes with two screen protectors for added durability.

1. Clean the watch screen thoroughly with a microfiber cloth to remove dust and smudges.
2. Carefully peel off the backing from one screen protector.
3. Align the screen protector with the watch face, ensuring it is centered.
4. Gently press down from the center outwards to adhere the protector, smoothing out any air bubbles.

Troubleshooting

Problem	Possible Cause	Solution
Watch does not turn on.	Low battery.	Charge the watch for at least 30 minutes.
Cannot pair with smartphone.	Bluetooth is off; watch is out of range; app not running.	Ensure Bluetooth is on, bring watch closer to phone, restart the app and watch.

Problem	Possible Cause	Solution
Notifications not received.	App permissions not granted; notification settings off.	Check app permissions in phone settings; enable notifications within the ALPHAGEAR app.
Inaccurate health readings.	Improper fit; sensor obstruction.	Ensure the watch is snug on your wrist; clean the sensor on the back of the watch. Remember, it is not a medical device.
Short battery life.	Frequent use of power-intensive features (e.g., calls, continuous tracking).	Reduce usage of power-intensive features; ensure full charge before use.
