

AOQEE C1

AOQEE 2K Home Security Camera C1 User Manual

Model: C1

1. INTRODUCTION

Thank you for choosing the AOQEE 2K Home Security Camera C1. This camera is designed to provide reliable indoor and outdoor surveillance with advanced features such as 2K resolution, color night vision, two-way audio, and smart home integration. This manual provides detailed instructions for setting up, operating, and maintaining your camera to ensure optimal performance and security.

2. WHAT'S IN THE BOX

Please verify that all components are present in your package:

- 1x Camera Body
- 1x Mounting Bracket
- 4x Pack of Screws
- 1x Power Adapter
- 1x 6.5ft Power Cable
- 1x Product Manual

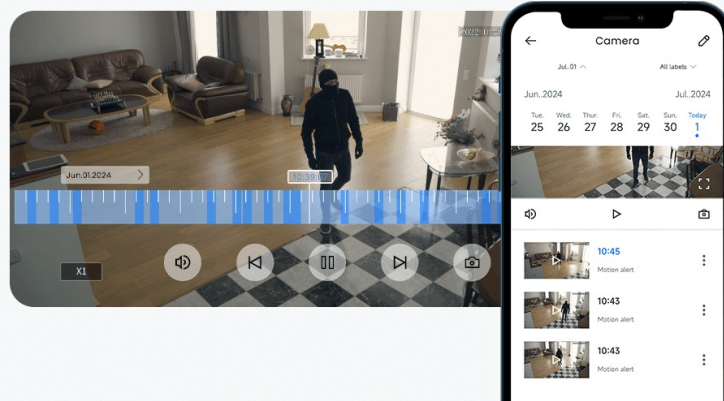

Image: All items included in the AOQEE C1 camera package.

3. PRODUCT FEATURES

3.1 Crystal 2K Resolution & Color Night Vision

The camera captures clear and detailed footage with 2K (3MP) resolution during the day. At night, the advanced color night vision technology provides full-color images, enhancing visibility and detail compared to traditional black and white night vision.

2K Ultra-clear HD Resolution

Fully upgraded image quality to capture more details

Color Night Vision

Enable intelligent light to capture clearer color images

Image: Illustrates the difference between traditional night vision and enhanced color night vision.

3.2 Two-way Talk & Motion Detection

Equipped with a noise-canceling microphone and speaker, the camera allows for real-time two-way communication through the mobile application. The integrated motion detection system sends instant notifications to your phone upon detecting activity. A built-in siren can be activated to deter intruders.

3.4 Optional Cloud & 24/7 SD Card Storage

Recordings can be stored locally on a TF card (up to 128GB, not included) for continuous 24/7 recording, or via optional cloud storage (30-day trial available). Advanced encryption technology protects your privacy, ensuring recorded videos remain secure.

2-Way Audio & 24/7 SD Card Replay

Talk to your loved ones and watch the replay anytime you like

4. SETUP GUIDE

4.1 Initial Setup

1. **Download the App:** Search for the recommended application (e.g., Wansview app) on the App Store (iOS) or Google Play Store (Android) and install it on your smartphone.
2. **Power On:** Connect the camera to a power outlet using the provided power adapter and cable. The camera will power on and indicate its status.
3. **Connect to Wi-Fi:** Follow the in-app instructions to connect your camera to your 2.4GHz Wi-Fi network. *Note: 5GHz Wi-Fi is not supported.* This typically involves scanning a QR code displayed on your phone with the camera.

Image: Visual guide for the initial setup process of the camera.

4.2 Mounting Options

The AOQEE C1 camera offers versatile mounting options to suit your surveillance needs:

- **Stand:** Place the camera on any flat surface like a table or shelf.
- **Wall Mount:** Use the included mounting bracket and screws to secure the camera to a wall.
- **Ceiling Mount:** The camera can also be inverted and mounted to the ceiling for a wider overhead view.

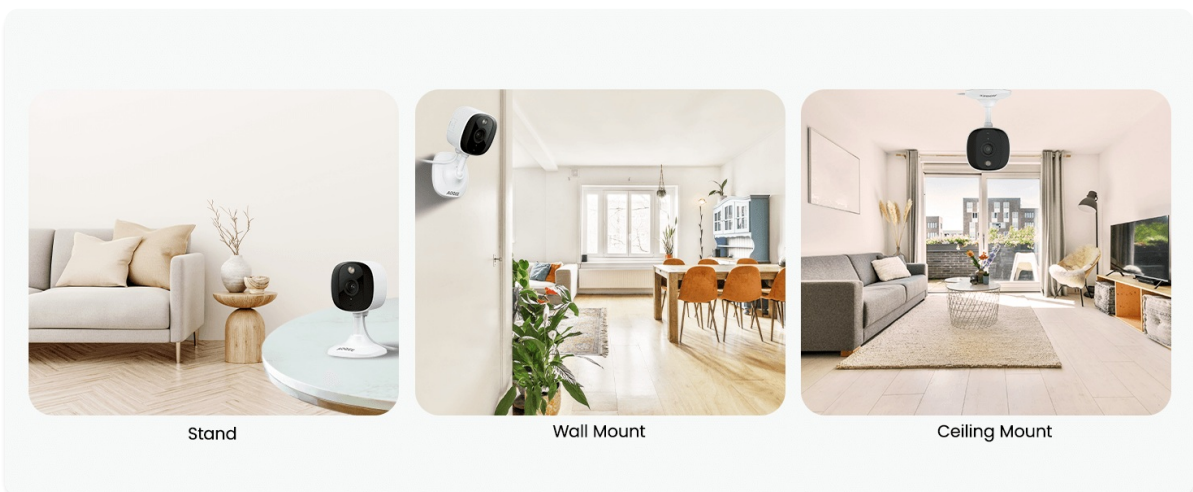

Image: Step-by-step instructions for mounting the camera.

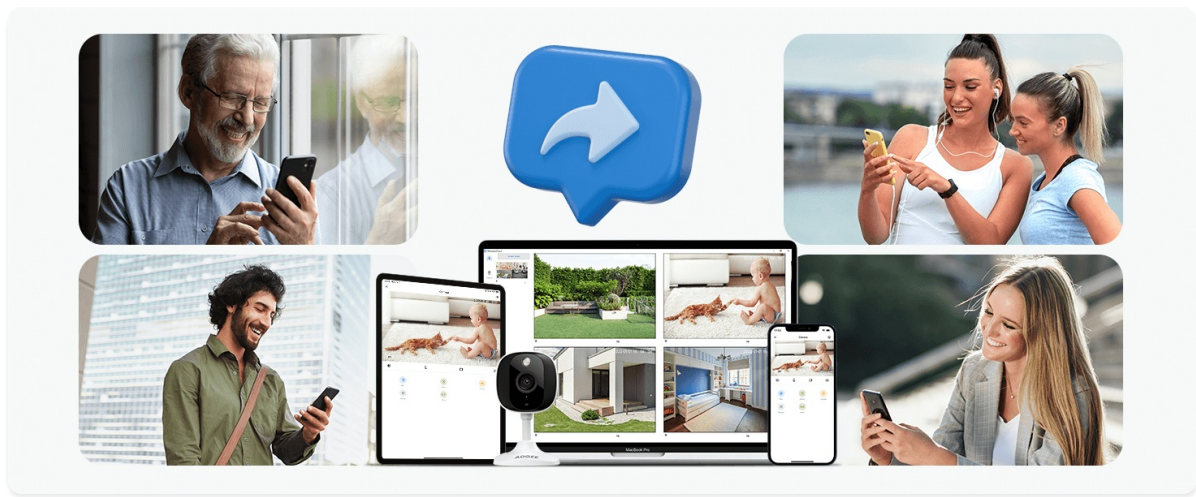

Image: Illustrates various mounting positions for the camera.

5. OPERATING INSTRUCTIONS

5.1 Live View

Access the live video feed from your camera anytime, anywhere through the mobile application. You can view multiple cameras simultaneously if you have more than one device.

Image: Multi-camera live view on a smartphone.

5.2 Two-Way Audio

Tap the microphone icon in the app to speak through the camera's speaker. This allows you to communicate with family members, pets, or visitors remotely.

5.3 Motion Detection & Alerts

Configure motion detection sensitivity and alert preferences within the app. When motion is detected, you will receive instant notifications. You can also set the camera to trigger a light warning or activate the built-in siren.

5.4 Recording & Playback

Recordings are automatically saved to your inserted TF card or to the cloud storage (if subscribed). Use the app's timeline feature to easily review past events and playback recorded footage.

What's in the Box?

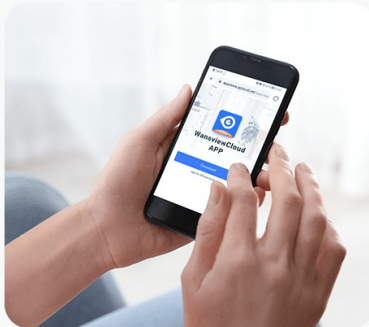

1x Camera
1x Mounting Bracket
4x Pack of Screws
1x Power Adapter
1x 6.5ft power cable
1x Product Manual

Image: The app's interface for reviewing recorded video and motion events on a timeline.

5.5 Privacy Settings

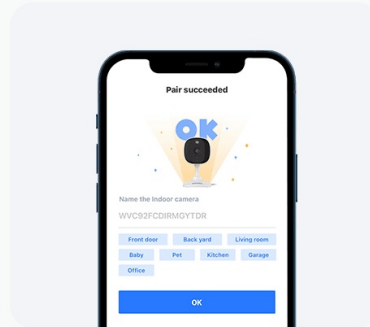

To protect your privacy, you can define specific detection areas within the camera's view to ignore certain zones. The app also allows you to set a timed off schedule for the camera, disabling recording and live streaming during specified periods.

Download the App

Plug into the outlet for power supply

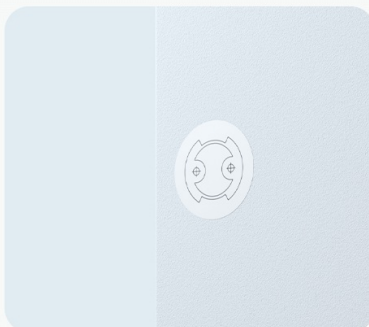

Connect to 2.4Ghz WiFi via app instructions

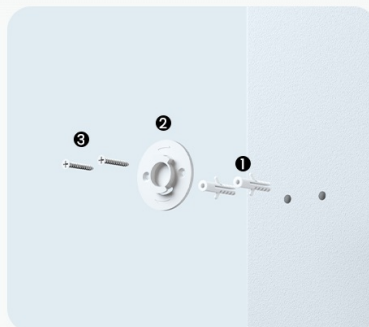

Image: Demonstrates how to set privacy zones and schedules within the camera app.

5.6 Multi-User Sharing

Share access to your camera's live feed and recordings with trusted family members or friends through the app's sharing feature.

Attach perforated fixing patch

Fix the bracket with screws

Snap camera into bracket

Image: Shows multiple users accessing the camera feed from different devices.

6. MAINTENANCE

- **Cleaning:** Gently wipe the camera lens and body with a soft, dry cloth to remove dust and smudges. Avoid using harsh chemicals or abrasive materials.
- **Firmware Updates:** Regularly check the mobile application for available firmware updates. Keeping your camera's firmware up-to-date ensures optimal performance, security, and access to new features.
- **Storage Management:** If using an SD card, periodically check its storage capacity and format it if necessary to maintain recording efficiency. For cloud storage, monitor your subscription status.

7. TROUBLESHOOTING

If you encounter issues with your AOQEE C1 camera, please refer to the following common solutions:

Problem	Possible Solution
Camera won't connect to Wi-Fi	Ensure your Wi-Fi is 2.4GHz. Check Wi-Fi signal strength. Restart your router and camera. Re-attempt pairing through the app.
No recording to SD card	Ensure the SD card is inserted correctly and is not full. Format the SD card via the app. Check recording settings in the app.
Poor image quality	Clean the camera lens. Ensure adequate lighting. Check your internet connection speed for live streaming quality.
Motion alerts not received	Check app notification settings on your phone. Verify motion detection is enabled in the app and sensitivity is set appropriately.

For more detailed troubleshooting or persistent issues, please refer to the help section within the mobile application or contact customer support.

Product Dimensions	2.24 x 2.24 x 3.78 inches
Item Weight	13.4 ounces

9. WARRANTY & SUPPORT

AOQEE is committed to providing high-quality products and customer satisfaction. For any product-related inquiries, technical support, or warranty claims, please contact AOQEE customer service through the contact information provided in the mobile application or on the official AOQEE website. Please retain your purchase receipt for warranty purposes.

Your Privacy Is Our Top Priority

AOQEE cameras for home security use the Advanced Encryption Standard technology AES128, which is a commercial and government data encryption standard adopted by the US federal government. AES provides a 128-bit key. Assuming that it is possible to manufacture a machine that can crack the DES cipher within one second, it will take about 14.9 billion years to crack a 128-bit AES cipher using this security camera.

Image: Emphasizes the commitment to user privacy and data security.
