Doich Variety Pack Cookie Dough

Doich Variety Pack Cookie Dough User Manual

Model: Variety Pack Cookie Dough

PRODUCT OVERVIEW

The Doich Variety Pack Cookie Dough offers three distinct flavors: Chocolate Chip, What The Fudge, and Basic Batch. This oat-based cookie dough is designed to be a healthy, high-protein, low-sugar snack that can be enjoyed either raw or baked. It is certified gluten-free, vegan, and kosher, making it suitable for a wide range of dietary preferences.

Image: The Doich Variety Pack, showcasing the three flavors of cookie dough.

Doich cookie dough is crafted with whole ingredients, including steel-cut oats, flaxseed, chia seeds, and pea protein, providing nutritional benefits while satisfying sweet cravings. Dairy-free chocolate chips and delicate toffee chunks are used to enhance flavor.

SETUP AND STORAGE

Upon receiving your Doich Variety Pack Cookie Dough, ensure the containers are intact. The product is ready to eat directly from the container or can be baked.

Storage Instructions:

- Keep refrigerated after opening to maintain freshness.
- Before consuming raw dough, allow it to warm up to room temperature for optimal texture and flavor.

HOW TO ENJOY

BAKED

1. Preheat oven to 350°
2. Flatten cookies to desired shape
3. Bake for 7 minutes
4. Let cool before enjoying

UNBAKED

Let warm to room temp

*Tip: Refrigerate after opening to keep the dough fresh

OPERATING INSTRUCTIONS (HOW TO ENJOY)

Doich Cookie Dough offers versatile consumption methods:

For Raw Consumption:

- Ensure the dough has warmed to room temperature for the best taste and texture.

- Consume directly from the jar.

For Baked Cookies:

1. Preheat oven to 350°F (175°C).
2. Scoop dough onto a baking sheet. Flatten cookies to desired shape.
3. Bake for 10-12 minutes.
4. Allow cookies to cool before serving.

MAINTENANCE AND CARE

To ensure the longevity and quality of your Doich Cookie Dough, always reseal the container tightly after each use and store it in the refrigerator. Proper storage helps maintain freshness and prevents spoilage.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Dough is too hard for raw consumption.	Dough is too cold from refrigeration.	Allow dough to warm to room temperature for 15-30 minutes before eating.
Baked cookies are too dry/crumbly.	Over-baked.	Reduce baking time by 1-2 minutes in subsequent batches. Ensure oven temperature is accurate.
Dough appears oily on the outside of the container.	Natural separation of ingredients, especially coconut oil, due to temperature fluctuations.	This is normal. Stir the dough to reincorporate ingredients. Ensure consistent refrigeration.
