### FIOCCO EDB001

## FIOCCO Elevated Dog Bed Instruction Manual

Model: EDB001

### PRODUCT OVERVIEW

The FIOCCO Elevated Dog Bed is designed to provide a comfortable and supportive resting area for your canine companion. Featuring a chew-proof and breathable mesh fabric, it promotes air circulation to keep your pet cool, especially during warmer months. The robust metal frame ensures durability and stability, accommodating dogs up to 110 pounds. Its versatile design allows for both indoor and outdoor use, and the lightweight structure makes it easily portable. This elevated design is particularly beneficial for dogs with joint issues or arthritis, offering pressure relief and improved comfort.

## PACKAGE CONTENTS

---

- Mesh Fabric Bed Surface (Blue)
- Long Metal Bars (for length)
- Short Metal Bars (for width)
- Corner Connectors (4 pieces)
- Legs (4 pieces)
- Instruction Manual (this document)

## ASSEMBLY INSTRUCTIONS (SETUP)

---

Assembly of the FIOCCO Elevated Dog Bed is straightforward and requires no additional tools. Please follow the steps below:

### 1. Step 1: Unpack and Identify Parts

Carefully remove all components from the packaging. Lay them out on a clean, flat surface and identify each part according to the package contents list.

Image: An exploded view diagram illustrating the various components of the dog bed, including bars, connectors, and fabric.

### 2. Step 2: Assemble the Frame

Connect the long metal bars to the short metal bars using the corner connectors. Ensure that the foot of each leg is inserted into the hole with the cylinder on the corner connectors. Press firmly until they click into place.

## OPERATING INSTRUCTIONS (USAGE GUIDELINES)

- **Placement:**

Place the bed on a flat, stable surface. It can be used in living areas, patios, yards, or even inside a dog crate if space permits.

M

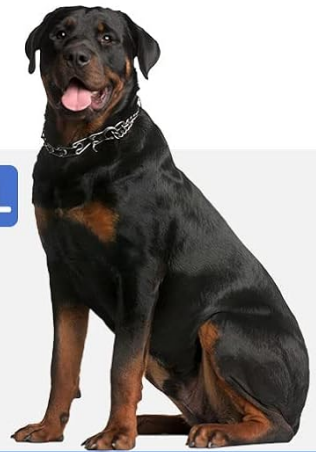

Size: 30" x 23" x 7.7"  
Weight: Up to 110lbs

L

Size: 36" x 29.7" x 7.7"  
Weight: Up to 150lbs

XL

Size: 46.9" x 34.3" x 9.6"  
Weight: Up to 200lbs

Image: A golden retriever lying on the elevated dog bed in a grassy backyard, illustrating outdoor use.

- **Cooling Benefit:**

The breathable mesh fabric allows air to circulate underneath and around your dog, helping to regulate their body temperature and keep them cool, especially beneficial during hot weather.

- **Joint Support:**

The elevated design keeps your dog off hard surfaces, reducing pressure on joints and providing orthopedic support, which is ideal for older dogs or those with arthritis.

## Smooth Fence

Relieving Joint Stress In Dogs

## CARE AND MAINTENANCE

Keeping your FIOCCO Elevated Dog Bed clean is simple, ensuring a hygienic environment for your pet.

- **Cleaning the Mesh Fabric:**

The mesh fabric is removable and machine washable. For best results, machine wash on a gentle cycle with cold water and a mild detergent. Air dry or tumble dry on low heat. Do not bleach.

# Superior Quality Teslin Mesh

Breathable

Easy to Clean

Anti-Scratch

Water Permeable

Image: A close-up view of the Teslin mesh fabric, illustrating its easy-to-clean, anti-scratch, and water-permeable qualities.

- **Frame Cleaning:**

Wipe down the metal frame with a damp cloth and mild soap as needed. Rinse thoroughly and dry completely to prevent rust.

## TROUBLESHOOTING

If you encounter any issues with your FIOCCO Elevated Dog Bed, please refer to the common solutions below:

- **Issue: Velcro cannot be closed / Fabric is not taut.**

Ensure that all metal bars are fully inserted into the fabric sleeves and that the frame is correctly assembled and locked into place. Sometimes, applying gentle pressure on the frame while securing the Velcro can help achieve the desired tautness.

Your browser does not support the video tag.

Video: A demonstration addressing the issue of Velcro not closing properly, showing how to adjust the fabric for a secure fit.

- **Issue: Bed feels unstable or wobbly.**

Verify that all frame connections are securely fastened and that the legs are fully inserted into the corner connectors. Ensure the bed is placed on a level surface.
