Jufodrca 4 Core 2G RAM 32G ROM

Jufodrca Car Radio Stereo User Manual

For Honda Accord 7th Generation (2003-2007)

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Jufodrca 10-inch Car Radio Stereo. Designed specifically for the Honda Accord 7th Generation (2003-2007), this unit integrates advanced features such as Wireless CarPlay, Android Auto, Bluetooth 5.0, 5G WiFi, GPS Navigation, and Rear Camera support to enhance your driving experience.

VEHICLE COMPATIBILITY

This car radio stereo is compatible with Honda Accord 7th Generation models from 2003, 2004, 2005, 2006, and 2007. It is designed for vehicles with a 2+32G configuration and offers seamless integration of advanced features.

For Honda Accord 2003-2007

Only Suitable for Manual AC

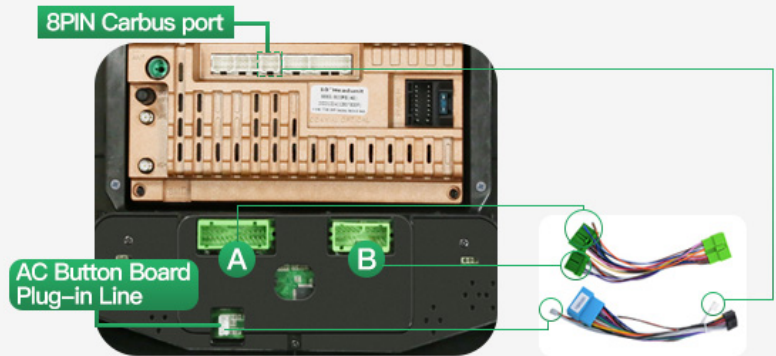

Figure 1: Before and After Installation in Honda Accord 7th Gen (2003-2007)

Single AC

Make sure to plug the 2 connectors into the decoder port (**A** & **B**) or the AC will not work.

Note:

Please connect as shown on the picture, otherwise the AC information will not display on the screen.

DUAL AC

If your car is dual AC, Need to use your **original AC plugs** to the 2 ports (**A** & **B**)
No need to use the green AC wire from the package.

Note:

Please connect as shown on the picture, otherwise the AC information will not display on the screen.

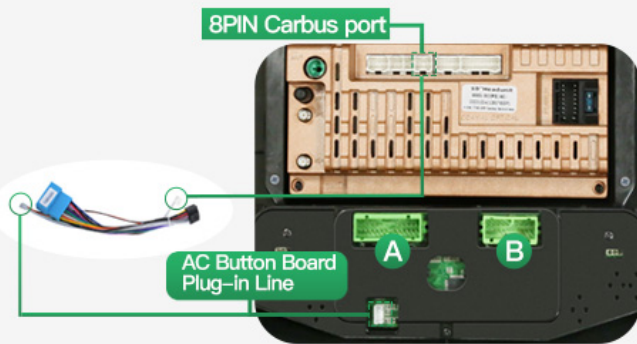

Figure 2: AC Connection Details for Single and Dual AC Systems

Note: This unit is only suitable for manual AC. Ensure correct connection of the 2 connectors into the decoder port (A & B) for AC functionality. For dual AC, use original AC plugs to ports A & B; the green AC wire from the package is not needed.

SETUP

The Jufodrca car radio stereo comes with all necessary wiring for installation. Professional installation is recommended. Refer to the included wiring diagram for specific connections. Ensure the vehicle's power is disconnected before beginning installation.

OPERATING INSTRUCTIONS

Wireless CarPlay & Android Auto

Connect your iOS or Android smartphone wirelessly to access navigation, music, messages, and voice control features directly on the car stereo display. This allows for hands-free operation and reduces distractions while driving.

Figure 4: Wireless CarPlay and Android Auto Interface

Bluetooth 5.0 & FM/RDS Audio

The unit features Bluetooth 5.0 for stable and fast connections, enabling hands-free calls and audio streaming. The FM radio includes RDS (Radio Data System) and can store multiple stations. A 15-band EQ option allows for personalized audio tuning.

PACKING LIST

Canbus

Camera

RCA Cable

Reversing Line

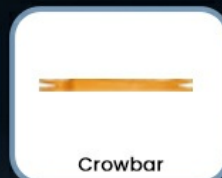

Radio antenna

2*USB Cable

Power Cable

Crowbar

GPS Antenna

Figure 8: 5G WiFi vs 2.4G WiFi Performance

GPS Navigation

The integrated GPS provides accurate directions and real-time traffic updates. It supports both online and offline navigation applications, ensuring efficient travel to your destination.

Steering Wheel Control (SWC)

Control essential stereo functions such as answering calls, adjusting volume, and changing music or videos directly from your steering wheel buttons. This feature promotes safer driving by keeping your hands on the wheel.

Rear Camera

The system includes a 1080P rear view camera that automatically activates when the vehicle is in reverse gear. It provides a wider, clearer field of view with parking lines, assisting with safe maneuvering and reducing blind spots.

Figure 9: Rear View Camera Display

Built-in DSP Settings

Customize your audio experience with the built-in Digital Sound Processor (DSP). Adjust equalizer settings, surround sound, and subwoofer levels to achieve optimal sound quality.

Split Screen Mode

Utilize the split screen function to run two applications simultaneously, such as GPS navigation and video playback, for enhanced multitasking.

MAINTENANCE

- **Screen Cleaning:** Use a soft, lint-free cloth to gently wipe the screen. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid harsh chemicals.
- **Software Updates:** Periodically check for software updates to ensure optimal performance and access to new features. Refer to the device settings or manufacturer's website for update instructions.
- **Cable Connections:** Ensure all cables are securely connected to prevent intermittent issues with power, audio, or data transfer.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures or direct sunlight for prolonged periods, as this can affect performance and longevity.

TROUBLESHOOTING

- **No Power:**
 - Check all power connections and fuses.
 - Ensure the vehicle's ignition is on.
- **No Sound:**
 - Verify volume settings are not muted or too low.
 - Check speaker wire connections.
 - Ensure the correct audio source is selected.
- **GPS Not Working:**
 - Ensure the GPS antenna is properly installed and has a clear view of the sky.
 - Check GPS settings within the unit.
 - Verify map data is installed and up to date.
- **Bluetooth Connectivity Issues:**
 - Ensure Bluetooth is enabled on both the stereo and your device.
 - Delete previous pairings and re-pair the device.
 - Move the device closer to the stereo.
- **CarPlay/Android Auto Not Connecting:**
 - Ensure your phone's operating system is up to date.
 - Check the USB cable connection if using wired CarPlay/Android Auto.
 - For wireless, ensure Wi-Fi and Bluetooth are enabled on your phone and the stereo.
