Key features include:

- High-quality construction for durability.
- Provides precise speed control for sewing machines.
- Designed for compatibility with Elna 9000 models.

SETUP

Follow these steps to properly connect your new foot pedal to your sewing machine:

1. **Power Off:** Ensure your sewing machine is turned off and unplugged from the power outlet before connecting or disconnecting any accessories.
2. **Locate Connection Port:** Identify the foot pedal connection port on your Elna 9000 sewing machine. This is typically located on the side or front of the machine.
3. **Connect Foot Pedal:** Insert the plug of the new foot pedal into the designated port on your sewing machine. Ensure the plug is fully seated.

Image 2: Close-up of the foot pedal's 3.45mm plug, showing its dimensions for proper fit.

4. **Secure Connection:** Gently tug on the cable to ensure the connection is secure. Do not force the plug if it does not fit.
5. **Power On:** Once the foot pedal is securely connected, plug your sewing machine back into a power outlet and turn it on.

Important: Always ensure the sewing machine is powered off and unplugged before connecting or disconnecting the foot pedal to prevent electrical shock or damage to the machine.

OPERATING INSTRUCTIONS

The foot pedal provides variable speed control for your sewing machine. The harder you press the pedal, the faster the machine will sew.

1. **Positioning:** Place the foot pedal on the floor in a comfortable position where you can easily reach it with your foot while sewing.
2. **Gentle Pressure:** Begin by applying gentle pressure to the foot pedal to start the sewing machine at a slow speed.
3. **Increase Speed:** Gradually increase pressure on the pedal to increase the sewing speed as needed for your project.
4. **Decrease Speed/Stop:** Release pressure on the pedal to slow down or completely stop the sewing machine.

Practice with scrap fabric to get accustomed to the speed control before working on your main project.

MAINTENANCE

To ensure the longevity and proper function of your foot pedal, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the exterior of the foot pedal with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the foot pedal in a clean, dry place away from direct sunlight and extreme temperatures when not in use.
- **Cable Inspection:** Periodically inspect the power cord and plug for any signs of damage, fraying, or exposed wires. If damage is found, discontinue use immediately and replace the pedal.
- **Avoid Liquids:** Keep the foot pedal away from liquids to prevent electrical hazards and damage.
