

## Soobest SO800E

# Soobest 14.2" Large Display Digital Wall Clock User Manual

Model: SO800E

## INTRODUCTION

Thank you for choosing the Soobest 14.2" Large Display Digital Wall Clock. This versatile clock features a large LED screen, 8-in-1 color changing display, date, day of week, temperature, and timer functions. It is designed for easy readability and convenient operation with a remote control, making it ideal for various indoor settings including living rooms, bedrooms, offices, and gyms. This manual provides detailed instructions for setup, operation, and maintenance to ensure optimal performance and longevity of your device.

## PACKAGE CONTENTS

Please check the package carefully to ensure all items are present and in good condition.

- 1 x Soobest 14.2" Large Display Digital Wall Clock
- 1 x Remote Control
- 1 x Power Adapter (Corded Electric)

- 1 x Button Battery (for memory function, pre-installed)
- Mounting Hardware (Nails)
- User Manual (this document)

## Package List

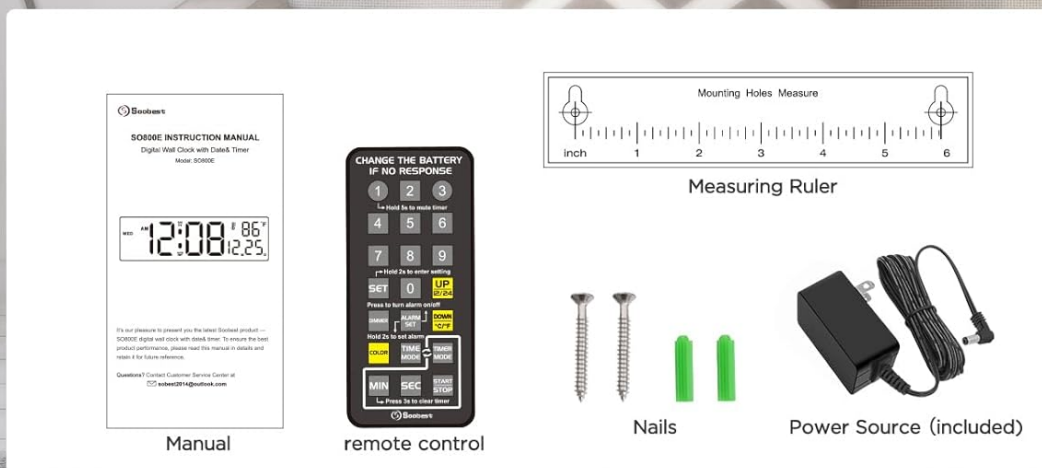

Image: An illustration of all items included in the Soobest Digital Wall Clock package, including the clock, remote, power adapter, and manual.

## SETUP

### Power Connection

1. Unpack the clock and all accessories from the box.
2. Connect the power adapter cable to the "power in" port on the back of the clock.
3. Plug the power adapter into a standard electrical outlet. The clock display will illuminate.
4. The pre-installed button battery serves as a memory function, retaining time and alarm settings during power outages. It does not power the display.

## Mounting Options

The clock can be mounted on a wall or placed on a tabletop.

- **Wall Mount:** Use the provided nails and the mounting holes on the back of the clock to secure it to a wall. Ensure the wall can support the clock's weight (approximately 1.34 pounds).
- **Tabletop:** The clock can stand freely on a flat surface.

## OPERATING INSTRUCTIONS

### Basic Display Information

The large LED display shows the following information at a glance:

- **Time:** Large digits for hours and minutes, with smaller seconds display.
- **Date:** Month and Day.

- **Day of Week:** Indicated by illuminated abbreviations (MON, TUE, etc.).
- **Indoor Temperature:** Displayed in Fahrenheit (°F).

## Using the Remote Control

All settings and functions are easily controlled via the included remote control.

- Ensure the remote control has a working battery.
- Point the remote control directly at the clock for optimal response.

# Remote Control Clock and Timer

Image: The clock displaying both time and timer modes, highlighting the seamless transition between them using the remote control.

## Setting Time and Date

1. Press the **SET** button on the remote control. The hour digits will flash.
2. Use the **UP/DOWN** arrows to adjust the hour.
3. Press **SET** again to move to minutes, then date, month, and year, adjusting each with the **UP/DOWN** arrows.
4. Press **SET** one last time to confirm all settings.

## Color Changing Display

The clock offers 8 RGB color modes: 4 fixed pure colors and 4 dynamic RGB color changes.

- Press the **COLOR** button on the remote control to cycle through the available color modes.
- Choose the color that best suits your environment or mood.

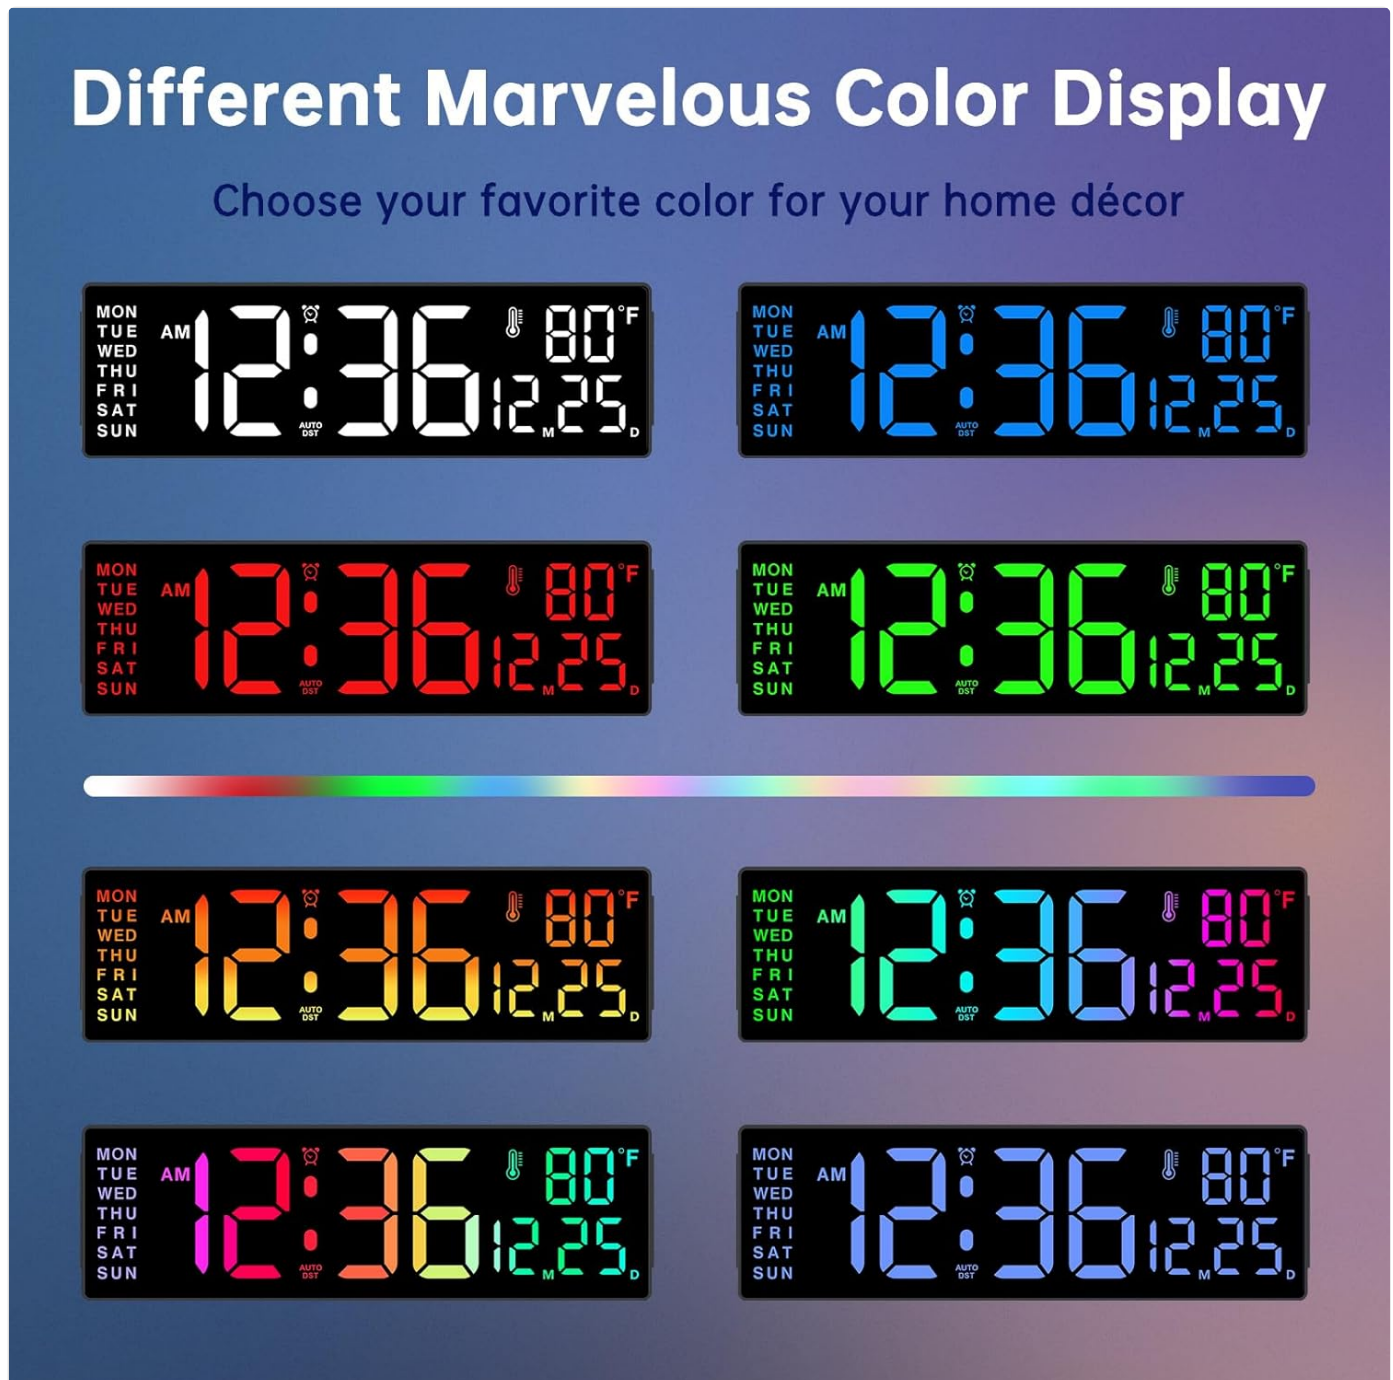

Image: Examples of the clock's diverse color display options, from solid colors to dynamic RGB changes.

### Timer Function (Count Up/Count Down)

The clock can function as a timer, useful for kitchen, gym, or study activities.

1. Press the **TIMER MODE** button on the remote control to switch to timer mode. The display will show "00:00".
2. **Setting Countdown:** Use the number buttons on the remote to input the desired countdown time (e.g., "0500" for 5 minutes). Press **START/STOP** to begin.
3. **Setting Count Up:** In timer mode, press **START/STOP** without setting a time to begin counting up from "00:00".
4. When a countdown finishes, the clock will emit a crisp beep for 60 seconds.
5. Press **TIME MODE** to return to clock display.

# Remote Control Digital Timer

Image: The clock functioning as a digital timer, demonstrating its utility in a home gym setting.

## Auto Daylight Saving Time (DST)

If your region observes Daylight Saving Time, you can enable the auto DST feature.

- Press the **DST** button on the remote control to toggle Auto DST ON or OFF.
- When ON, the clock will automatically adjust forward or backward by one hour at the appropriate times of the year.

# AUTO DST

Help you get rid of adjusting time twice a year

**Spring Forward**

**Fall Back**

Image: A visual explanation of the Auto DST function, showing how the clock automatically adjusts for Daylight Saving Time.

## Dimmer Function

The clock features 5 levels of brightness to suit different lighting conditions and preferences.

- Press the **DIMMER** button on the remote control to cycle through the 5 brightness levels.
- Adjust the brightness to prevent the display from being too bright, especially in dark rooms or at night.

## Time Format Switch (12/24 Hour)

You can switch between 12-hour (AM/PM) and 24-hour (military) time formats.

- Press the **12/24H** button on the remote control to toggle between the two formats.

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe the clock's surface. Do not use abrasive cleaners or solvents, as they may damage the display or casing.

- **Power:** Always ensure the clock is connected to a stable power source.
- **Battery Replacement (Remote Control):** If the remote control becomes unresponsive, replace its battery. Refer to the remote control's markings for the correct battery type.
- **Memory Battery:** The internal button battery for memory function typically lasts for a long time. If you notice settings are not retained after a power outage, it may need replacement by a qualified technician.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Clock display is off.	No power connection or power outage.	Ensure the power adapter is securely plugged into the clock and a working electrical outlet. Check the power outlet with another device.
Remote control not working.	Remote battery is dead or incorrect orientation. Obstruction between remote and clock.	Replace the remote control battery. Ensure there are no obstructions and point the remote directly at the clock.
Time/Date/Day is incorrect.	Not set correctly or Auto DST issue.	Follow the "Setting Time and Date" instructions. Verify Auto DST setting is correct for your region.
Display is too bright/dim.	Dimmer setting is not adjusted.	Use the <b>DIMMER</b> button on the remote to adjust brightness levels.
Temperature reading seems inaccurate.	Clock placed near heat source/vent or in direct sunlight.	Relocate the clock to an area with stable ambient temperature. Note that minor variations compared to other thermometers are normal.

## SPECIFICATIONS

- **Brand:** Soobest
- **Model:** SO800E
- **Display Type:** Digital LED
- **Display Size:** 14.2 inches (diagonal)
- **Digit Height:** Approximately 3.1 inches (main time digits)
