EASYmaxx 14581

EASYmaxx Insect Protect Magnetic Mosquito and Pollen Screen User Manual

Model: 14581

1. INTRODUCTION

Thank you for choosing the EASYmaxx Insect Protect Magnetic Mosquito and Pollen Screen. This product is designed to provide effective protection against insects and pollen, allowing you to enjoy fresh air without unwanted intruders. Its magnetic fastening system ensures easy installation and removal, making it a practical solution for any home.

This manual provides detailed instructions for the proper installation, operation, and maintenance of your new screen. Please read it carefully before use and keep it for future reference.

2. WHAT'S IN THE BOX

Please check the contents of your package to ensure all parts are present:

- 1 x Pollen Protection Screen (130 x 150 cm)
- 12 x Magnetic Kits (magnetic strips and adhesive pads)

3. SAFETY INSTRUCTIONS

- Always handle the screen and magnetic components with care.
- Keep small magnetic parts away from children to prevent choking hazards.
- Ensure the window frame surface is clean and dry before applying adhesive magnetic strips.
- Do not use sharp objects to clean the screen, as this may damage the mesh.

4. SETUP AND INSTALLATION

Follow these steps for easy installation:

Step 1: Measure and Cut the Screen

Measure your window opening precisely. The screen can be individually cut to fit windows up to a maximum of 150 x 130 cm. Lay the screen flat and carefully cut it to the required dimensions using

scissors.

Image: Cutting the screen to the desired size.

Step 2: Prepare the Window Frame

Clean the window frame thoroughly to ensure optimal adhesion of the magnetic strips. The screen is compatible with various window frame materials, including PVC plastic, aluminum, and wood. Ensure the frame has a flat surface of at least 9 mm width for the magnetic strips.

Image: Compatible window frame types and minimum frame width for installation.

Step 3: Attach Magnetic Strips to the Frame

Peel the protective backing from the adhesive side of the magnetic strips. Carefully apply these strips around the perimeter of your clean window frame, pressing firmly to ensure good adhesion.

Step 4: Attach Magnetic Clips to the Screen

Attach the remaining magnetic clips to the edges of your cut screen. These clips will snap onto the magnetic strips already applied to your window frame.

Step 5: Install the Screen onto the Window Frame

Align the screen with the magnetic clips to the magnetic strips on your window frame. The magnets will snap together, securing the screen in place. Ensure the screen is taut and covers the entire window opening.

5. OPERATING INSTRUCTIONS

Once installed, the EASYmaxx Insect Protect screen allows you to open your window for ventilation while keeping insects and pollen out. The magnetic fastening system allows for easy temporary removal of the screen if you need to clean the window or access the outside. Simply pull the screen gently away from the magnetic strips to detach it, and reattach it by aligning the magnets.

6. MAINTENANCE

To ensure the longevity and effectiveness of your screen:

- **Cleaning:** The screen can be easily removed for cleaning. Gently wipe the mesh with a damp cloth and mild soap. Rinse with clean water and allow it to air dry completely before reattaching.
- **Storage:** During seasons when the screen is not needed, remove it, clean it, and store it in a dry, cool place away from direct sunlight.
- **Adhesive Care:** If the adhesive magnetic strips on your window frame lose their stickiness over time, they can be replaced.

7. TROUBLESHOOTING

- **Screen not adhering properly:** Ensure the window frame surface is thoroughly cleaned and dry before applying the magnetic strips. Press firmly on the adhesive strips during application. Cold temperatures can affect adhesive performance; apply in a warm environment if possible.
- **Gaps around the screen:** Double-check that the screen was cut to the correct dimensions and that the magnetic strips are applied evenly around the entire window frame.
- **Missing parts:** If any components are missing from your package, please contact customer support immediately.

8. SPECIFICATIONS

Manufacturer	DS Produkte GmbH
Product Dimensions (L x W x H)	150 x 130 x 1 cm
Weight	320 grams
Model Number	14581
Size	130 x 150 cm 1 Piece
Style	Magnetic fastening with pollen protection
Material	ABS plastic (frame components), Mesh fabric
Shape	Rectangular
Special Features	Removable

9. WARRANTY AND SUPPORT

For warranty information or technical support, please refer to the packaging or contact the manufacturer directly. Keep your proof of purchase for any warranty claims.
