- **Cleaning:** Dust the set regularly with a soft, dry cloth. For deeper cleaning, gently wipe the bricks with a damp cloth using mild soap and water. Rinse thoroughly and allow to air dry completely before reassembly or storage. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the building set in a cool, dry place away from direct sunlight to prevent discoloration or warping of the plastic. Keep small pieces in a container to prevent loss.
- **Handling:** Handle the assembled set with care to prevent pieces from detaching. When disassembling, apply gentle pressure to avoid damaging the connection points.

## 6. TROUBLESHOOTING

This section addresses common issues you might encounter with your building set:

- **Missing Pieces:** If you discover any missing pieces upon opening the set, first double-check all packaging materials. If pieces are still missing, contact the manufacturer's customer support for assistance.
- **Difficulty Connecting Pieces:** Ensure that pieces are aligned correctly before attempting to snap them together. Apply firm, even pressure. If a piece consistently resists connection, check for any deformities or obstructions.
- **Bows Jamming in Vending Machine:** If the bows become stuck or do not move freely within the vending machine mechanism, gently open the front door and carefully reposition the bows. Ensure no foreign objects are obstructing the mechanism. Avoid forcing the mechanism if resistance is met.
- **Assembled Structure is Unstable:** Review the assembly instructions to ensure all pieces are correctly and securely connected. Pay particular attention to base connections and critical structural points.
