4. MAINTENANCE

4.1 Cleaning

To maintain the appearance and longevity of your desk, wipe surfaces with a dry cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish.

4.2 Stability and Safety

Regularly check all screws and fasteners to ensure they remain tight. Re-tighten if necessary to maintain the desk's stability. Ensure the desk is always stable and level before placing heavy items on it or using it for work.

For safety, keep the desk away from children and pets to prevent potential injury from sharp edges or small parts during use or if the desk is not properly assembled.

5. TROUBLESHOOTING

5.1 Desk Wobbles

- **Check Leg Pads:** Ensure all adjustable leg pads are properly installed and adjusted to compensate for uneven flooring.
- **Tighten Fasteners:** Verify that all screws and bolts connecting the desk components are securely tightened. Loose fasteners can cause instability.

5.2 Drawers Not Sliding Smoothly

- **Re-check Assembly:** Review the assembly instructions for the drawers and their rails. Ensure all parts are installed in the correct orientation and alignment.
- **Clear Obstructions:** Check for any debris or objects obstructing the drawer slides.
- **Lubrication:** For non-glider drawers, a small amount of silicone lubricant can sometimes improve movement, but ensure it is safe for the material.
