Dripex 130L x 40l cm

Dripex LED Full-Length Mirror 130x40cm User Manual

Brand: Dripex | Model: 130L x 40l cm

1. INTRODUCTION

Thank you for choosing the Dripex LED Full-Length Mirror. This mirror features an aluminum frame, shatterproof glass, and integrated LED lighting with adjustable color temperatures and brightness. It is designed for versatile placement, suitable for both floor standing and wall mounting, making it an ideal addition to bedrooms, dressing rooms, or hallways.

2. SAFETY INFORMATION

- **Caution:** This product contains glass and may have sharp edges. Handle with care during unpacking and installation.
- Wall installation requires drilling. Ensure proper tools and safety precautions are used. If unsure, seek professional assistance.
- Keep the power adapter away from water and moisture.
- Do not attempt to disassemble or modify the mirror or its electrical components.

3. PACKAGE CONTENTS

Please check that all components are present and in good condition:

- LED Full-Length Mirror (1 unit)

- Power Adapter (DC12V / 3.0A 36W) (1 unit)
- User Manual (1 unit)
- Screw Set for Wall Mounting (1 set)

4. SETUP AND INSTALLATION

The Dripex LED Full-Length Mirror offers two primary installation methods: floor standing and wall mounting.

4.1 Floor Standing Installation

The mirror comes with a pre-assembled H-shape stand. Simply unfold the stand to the desired angle to position the mirror securely on the floor. Ensure the mirror is stable and not prone to tipping.

4.2 Wall Mounting Installation

For wall mounting, drilling is required. Use the provided screw set. Ensure the wall can support the mirror's weight. It can be mounted vertically or horizontally.

1. Choose a suitable location on the wall.
2. Mark the drilling points accurately using the mirror's mounting brackets as a guide.
3. Drill holes at the marked points.
4. Insert wall anchors (if necessary, depending on wall type).
5. Secure the mounting hardware to the wall.
6. Carefully lift and hang the mirror onto the secured hardware. Ensure it is firmly attached.

4.3 Leaning Against the Wall

For a simple lean-against-the-wall setup, close the stand and place the mirror against a sturdy wall. Ensure the mirror is stable and consider using anti-slip pads at the bottom to prevent movement.

Multiple Placing Methods

Wall-Mounted

- Place vertically or horizontally
 - Including screws set

Free-Standing

- Pre-assembled H-shape stand
 - Place anywhere & adjust any angles

Lean against the Wall

- Close the stand & put it against the wall
 - Anti-slip

5. OPERATING INSTRUCTIONS

The mirror features a touch switch for controlling the LED lighting.

5.1 Power On/Off and Color Temperature Adjustment

- To turn the light on, briefly press the touch button.
- To cycle through the three color temperatures (Cool White 6000K, Warm White 4000K, Yellow White 3000K), briefly press the touch button repeatedly.
- To turn the light off, continue pressing the button until the light turns off, or long-press the button until it switches off.

3 COLOR TEMPERATURE

Short press the touch button to change

6000K
Cool White

4000K
Warm White

3000K
Yellow White

Image: Demonstration of the three adjustable color temperatures: Cool White (6000K), Warm White (4000K), and Yellow White (3000K).

5.2 Brightness Adjustment (Dimming)

- With the light on, long-press the touch button to adjust the brightness. The brightness will cycle between 10% and 100%.
- Release the button when the desired brightness level is reached.

DIMMABLE BRIGHTNESS

Long press touch button to adjust the light brightness from 10% to 100%

Image: A comprehensive view illustrating both the dimmable brightness and the three color temperature options of the mirror's LED lighting.

6. MAINTENANCE

- To clean the mirror surface, use a soft, lint-free cloth and a non-abrasive glass cleaner.
- Avoid using harsh chemicals or abrasive materials that could damage the mirror or its frame.
- Ensure the mirror is unplugged before cleaning any electrical components.
- Regularly check the stability of the stand or wall mounts.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
LED light does not turn on.	No power, loose connection, faulty adapter.	Check if the power adapter is securely plugged into both the mirror and the wall outlet. Ensure the outlet is functional. Try a different outlet.
Touch switch is unresponsive.	Temporary malfunction, dirty sensor.	Unplug the mirror for 5 minutes, then plug it back in. Clean the touch sensor area with a soft, dry cloth.
Light flickers or is dim.	Power supply issue, brightness setting.	Ensure the power adapter is providing stable power. Adjust the brightness setting using the long-press function.

8. SPECIFICATIONS

- **Brand:** Dripex
- **Model:** 130L x 40l cm
- **Dimensions:** 130 cm (Length) x 40 cm (Width)
- **Shape:** Rectangular
