Black Shark GS3

Black Shark GS3 Smartwatch User Manual

Model: GS3 | Brand: Black Shark

Introduction

Welcome to the Black Shark GS3 Smartwatch user manual. This guide provides essential information on setting up, operating, maintaining, and troubleshooting your new smartwatch. Please read this manual carefully to ensure proper use and to maximize the features of your device.

Figure 1: Black Shark GS3 Smartwatch. This image displays the sleek black design of the smartwatch with its round AMOLED display and durable strap.

What's in the Box

Upon unboxing your Black Shark GS3 Smartwatch, verify that all components are present:

- 1 x Black Shark GS3 Smartwatch
- 1 x Magnetic Charging Cable
- 1 x User Manual
- 1 x Packaging Box

Figure 2: Contents of the Black Shark GS3 Smartwatch package. This image shows the smartwatch, charging cable, and user manual neatly arranged within the product box.

Setup Guide

1. Initial Charging

Before first use, fully charge your Black Shark GS3 Smartwatch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a power adapter (not included) or a computer's USB port. The watch display will indicate charging status.

2. App Installation

To unlock the full potential of your smartwatch, download and install the companion app on your smartphone. Search for "Shark Wear" in your device's app store (Google Play Store for Android or Apple App Store for iOS).

3. Pairing with Your Smartphone

1. Ensure Bluetooth is enabled on your smartphone.
2. Open the "Shark Wear" app and follow the on-screen instructions to create an account or log in.
3. Select "Add Device" or similar option within the app.
4. The app will search for nearby devices. Select "Black Shark GS3" from the list.
5. Confirm the pairing request on both your smartwatch and smartphone.

4. Initial Settings

Once paired, the app will guide you through initial settings such as personal profile (age, height, weight), notification preferences, and watch face selection.

Operating Your Smartwatch

Display and Navigation

The Black Shark GS3 features a 1.43-inch AMOLED display with a smooth touch response. Navigate through menus and features by swiping across the screen and tapping icons. The rotating digital crown and physical buttons provide additional control.

Key Features

- **GNSS Five-Satellite Positioning:** The GS3 is equipped with an independent GNSS chip supporting GPS, BeiDou, GLONASS, GALILEOGPS, and QZSS for accurate outdoor activity tracking.

Figure 4: Smartwatch displaying GPS tracking on a map. This image illustrates the precise GNSS positioning capabilities for outdoor activities like hiking.

- **100+ Sports Modes:** Track a wide range of activities including walking, running, swimming, and cycling. The watch records duration, calories burned, heart rate, and more.

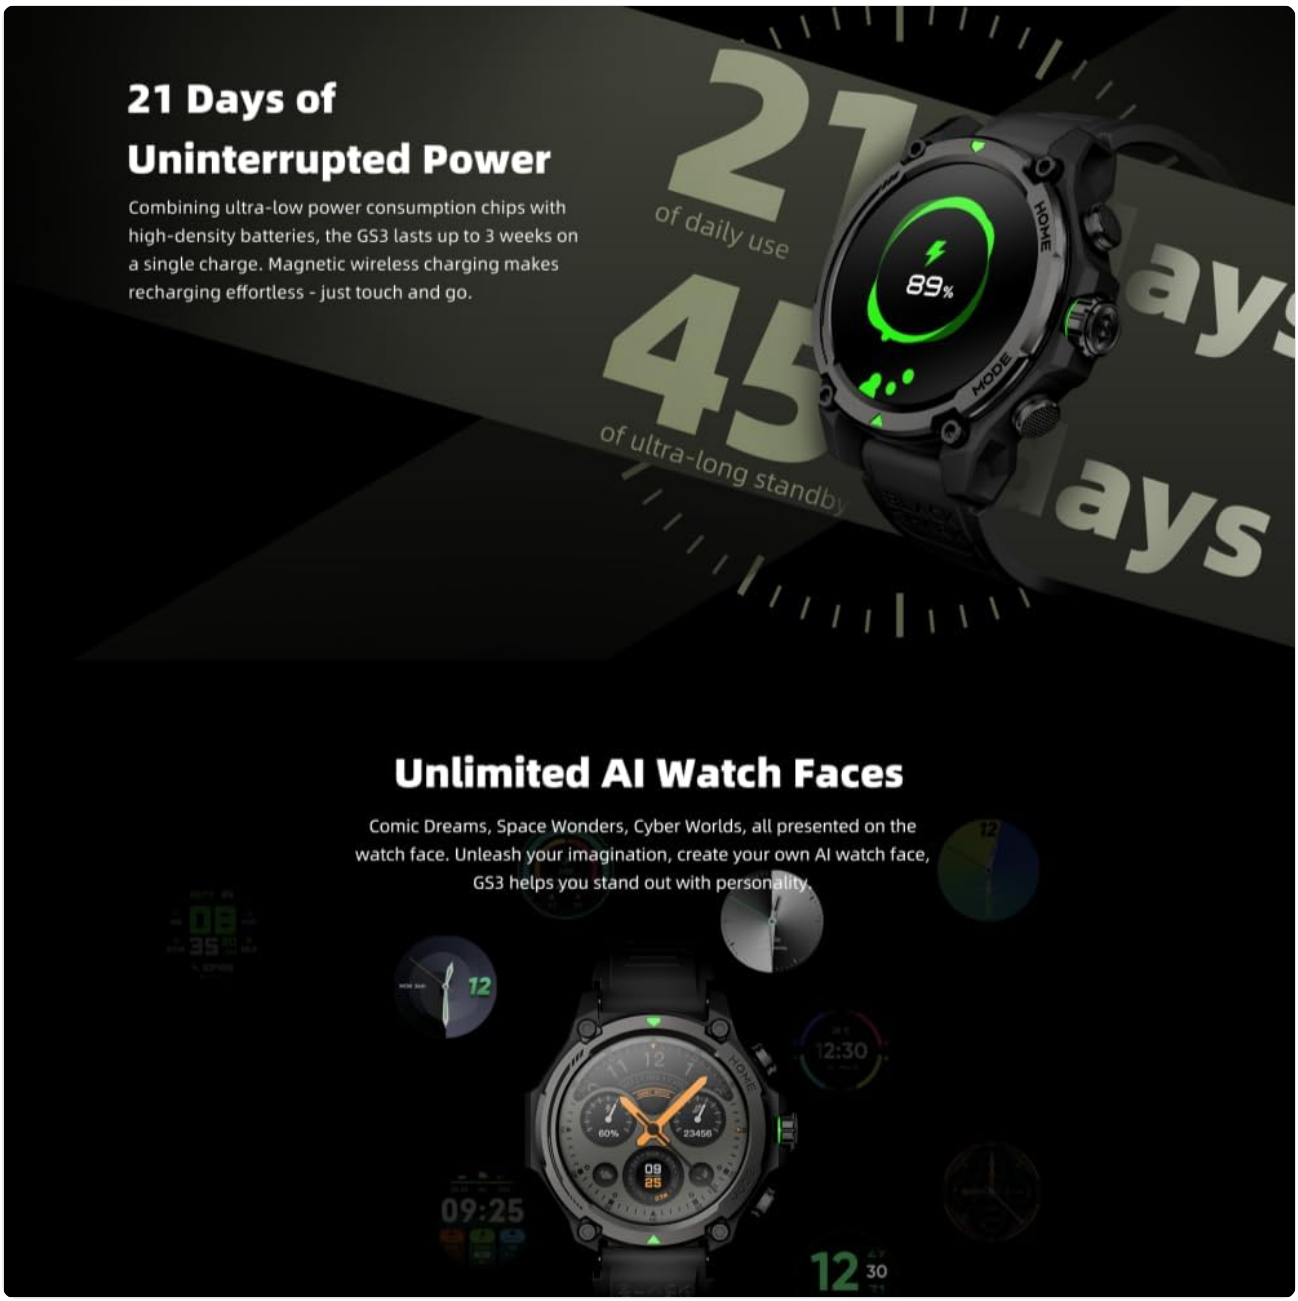

Figure 5: Person skateboarding with the Black Shark GS3 Smartwatch. This image demonstrates the watch's ability to track various sports activities.

- **Bluetooth Calling with ENC:** Stay connected with clear and uninterrupted communication thanks to ENC (Environmental Noise Cancellation) for calls.

Figure 6: Person cycling while wearing the Black Shark GS3 Smartwatch. This image highlights the convenience of staying connected and receiving notifications on the go.

- **Health Monitoring:** The optical heart rate and blood oxygen sensor, combined with intelligent algorithms, provide 24-hour continuous tracking of heart rate and SpO2 levels. It also records sleep duration, deep/light sleep stages, steps, calories, and stress.

Figure 7: Underside of the Black Shark GS3 Smartwatch showing the optical health sensors. This image illustrates the technology used for heart rate and blood oxygen monitoring.

- **Long Battery Life:** Enjoy up to 21 days of daily use and 45 days of ultra-long standby on a single charge, thanks to low-power consumption chips and high-density batteries.

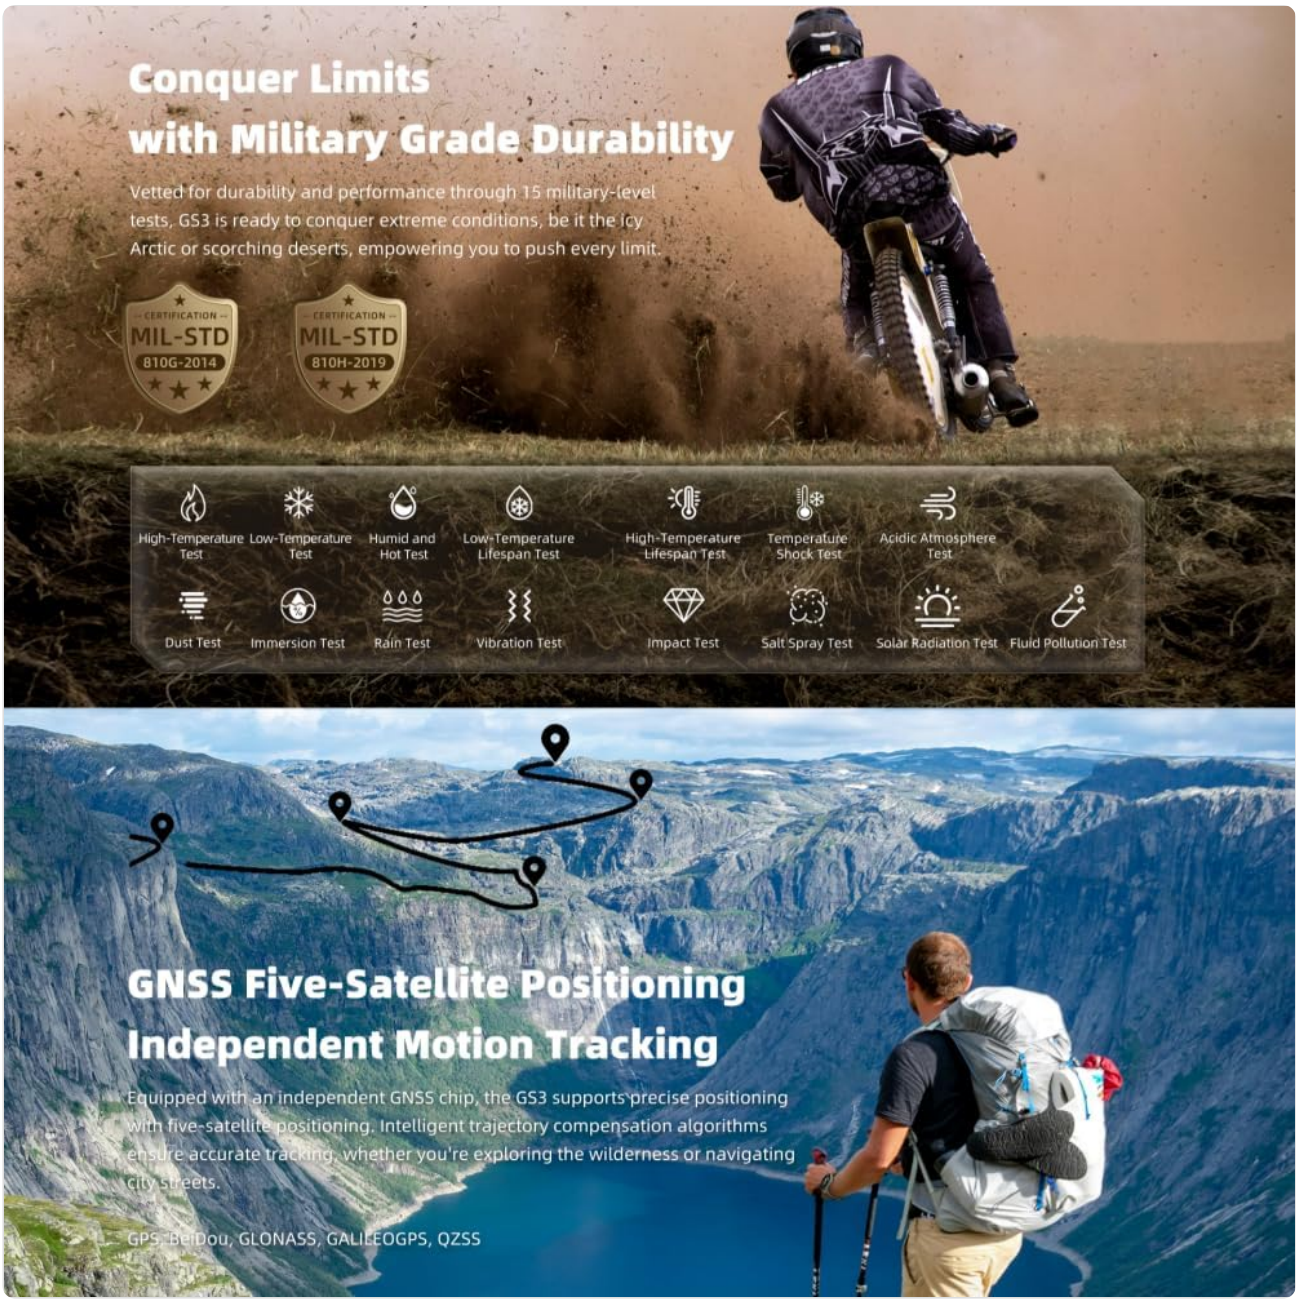

Figure 8: Graphic illustrating the extended battery life of the Black Shark GS3 Smartwatch. The display shows a high battery percentage, emphasizing its long-lasting power.

- **Water Resistance:** With 5ATM and IP69K ratings, the GS3 is suitable for swimming and other water activities.

Figure 9: Person surfing while wearing the Black Shark GS3 Smartwatch. This image demonstrates the watch's 5ATM water resistance, making it suitable for water sports.

- **AI Watch Faces & Smart Living:** Customize your watch with various AI-generated watch faces. Access smart

features like compass, flashlight, sedentary reminders, weather updates, and real-time stock market data directly from your wrist.

Maintenance

Cleaning Your Smartwatch

Regularly clean your smartwatch to ensure optimal performance and hygiene. Use a soft, lint-free cloth to wipe the screen and body. For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials.

Charging Best Practices

- Use only the provided magnetic charging cable.
- Ensure the charging contacts on the watch and cable are clean and dry before charging.
- Avoid exposing the watch to extreme temperatures during charging.

Software Updates

Periodically check for software updates through the "Shark Wear" app. Updates often include performance improvements, new features, and bug fixes. Ensure your watch is sufficiently charged before initiating an update.

Strap Care

The silicone strap is designed for comfort and durability. Clean it with mild soap and water if it gets dirty. Allow it to air dry completely before wearing. Avoid prolonged exposure to direct sunlight or harsh chemicals to prevent material degradation.

Troubleshooting

Problem	Possible Cause	Solution
Watch does not turn on.	Low battery; device frozen.	Charge the watch for at least 30 minutes. Press and hold the power button for 10-15 seconds to force restart.
Unable to pair with smartphone.	Bluetooth off; app issue; watch not discoverable.	Ensure Bluetooth is on. Restart both watch and phone. Clear app cache/data. Reset watch to factory settings if necessary.
Inaccurate health/activity data.	Improper fit; sensor obstruction; software glitch.	Ensure watch is snug but comfortable on wrist. Clean sensors. Update firmware.
Short battery life.	Frequent GPS use; high brightness; excessive notifications.	Reduce screen brightness. Limit notifications. Disable continuous heart rate monitoring if not needed. Optimize GPS usage.

Factory Reset

If issues persist, you may perform a factory reset. This will erase all data on the watch and restore it to its original settings. Navigate to **Settings > System > Reset** on your smartwatch or through the "Shark Wear" app.

Specifications

Feature	Detail
Model Name	Black Shark GS3
Display	1.43-inch AMOLED
Battery Life (Typical Use)	Up to 21 days
