Beghelli SLV 30 PLUS

Beghelli Salvalavita SLV30-GPS Plus Flip Phone User Manual

Model: SLV 30 PLUS

INTRODUCTION

The Beghelli Salvalavita SLV30-GPS Plus is a flip phone designed for ease of use and personal safety, particularly for seniors. It features an SOS button, GPS localization, and a fall sensor to provide peace of mind and quick assistance in emergencies. This manual provides detailed instructions for setting up, operating, and maintaining your device.

PACKAGE CONTENTS

Before proceeding, ensure all items are present in the package:

- Beghelli Salvalavita SLV30-GPS Plus Flip Phone
- Charging base
- Power adapter (USB Type C)
- User Manual (this document)

In dotazione: Caricabatterie con base di ricarica

SETUP

1. Inserting the SIM Card

1. Open the back cover of the phone.
2. Carefully insert your SIM card(s) into the designated slot(s). This phone supports Dual SIM.
3. Ensure the SIM card is correctly oriented as indicated by the diagram near the slot.
4. Replace the back cover securely.

2. Charging the Device

1. Connect the power adapter to a wall outlet.
2. Connect the USB Type C cable to the charging base.
3. Place the phone into the charging base. Ensure it is seated correctly and the charging indicator appears on the screen.
4. Allow the phone to charge completely before first use.

3. Powering On/Off

- To power on: Press and hold the Power/End Call button until the screen lights up.
- To power off: Press and hold the Power/End Call button, then select "Power Off" from the options on the screen.

1. Basic Phone Functions

- **Making a Call:** Enter the phone number using the large keypad and press the green call button.
- **Answering a Call:** Press the green call button when the phone rings.
- **Ending a Call:** Press the red end call button.
- **Adjusting Volume:** Use the dedicated volume buttons on the side of the phone during a call or to adjust ringtone volume. The phone features high volume and strong vibration for improved audibility.
- **Sending SMS:** Navigate to the 'Messages' menu, select 'New Message', enter the recipient's number and your message, then send.

2. SOS Emergency Button

The SOS button is a critical safety feature. It is located on the back of the phone.

Tasto Salvalavita
che, se premuto
per 2 secondi,
lancia chiamate
in vivavoce e
SMS ai numeri
di emergenza
impostati

Image: Close-up of the SOS button on the back of the Beghelli Salvalavita SLV30-GPS Plus phone, designed for quick emergency activation.

1. **Activation:** Press and hold the SOS button for 2 seconds.
2. **Action:** The phone will automatically initiate hands-free calls and send SMS messages to up to 9 pre-set emergency numbers.
3. **Setting Emergency Numbers:** Access the 'SOS Settings' menu to program your emergency contacts.

3. GPS Localization and Fall Sensor

- **GPS Localization:** The integrated GPS allows for tracking the phone's location. This feature can be activated and managed through the phone's settings or via the optional Salvalavita 24/7 service.
- **Fall Sensor:** The phone is equipped with a fall detection sensor. If a fall is detected, the phone can automatically trigger an emergency alert (calls and SMS) to the pre-set numbers, similar to the SOS button function. Ensure this feature is enabled in the settings.
- **Position Control:** This function allows designated contacts to request the phone's location.

4. Optional Salvalavita 24/7 Service

The Beghelli Salvalavita SLV30-GPS Plus can be connected to the Beghelli Salvalavita Center for 24/7 support and protection. This service requires a separate subscription.

Dispositivo con possibilità di collegamento al **Centro Salvalavita** attivo 24 ore su 24.

Per usufruire dei servizi è sufficiente attivare un abbonamento.

5. Compatibility with Salvalavita Band Plus

The phone is compatible with the Beghelli Band Plus (cod. 9202), which is sold separately. This band can provide additional safety features and remote activation of emergency functions.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the phone's exterior. Avoid using harsh chemicals or abrasive materials.
- **Battery Care:** To prolong battery life, avoid exposing the phone to extreme temperatures. Charge the phone regularly, but avoid overcharging for extended periods.
- **Storage:** If storing the phone for an extended period, ensure it is partially charged (around 50%) and stored in a cool, dry place.

TROUBLESHOOTING

- **Phone does not turn on:**
 - Ensure the battery is charged. Connect the phone to the charger and wait a few minutes before attempting to power it on again.
 - Verify the battery is correctly inserted.
- **Cannot make or receive calls/SMS:**
 - Check if the SIM card is correctly inserted and activated.
 - Ensure you have network coverage.
 - Verify that airplane mode is not enabled.
- **SOS button not working:**
 - Ensure emergency numbers are correctly programmed in the SOS settings.
 - Check if the phone has network coverage.
- **Fall sensor not triggering alerts:**
 - Verify that the fall sensor feature is enabled in the phone's settings.
 - Ensure the phone has sufficient battery and network coverage.

If you encounter issues not listed here, please contact Beghelli customer support.
