BREEZOME JH05/JH05LX Air Purifier Replacement Filter Instruction Manual

1. PRODUCT OVERVIEW

This manual provides essential information for the BREEZOME JH05/JH05LX Air Purifier Replacement Filter. This filter is designed for use with the Breezome-JH05 air purifier model.

The filter features a multi-layer filtration system:

- **Pre-filter:** Blocks large particulate matter such as pet hair.
- **Antibacterial Non-woven Fabric:** An innovative layer designed to remove 99% of bacteria and viruses.
- **H13 Grade HEPA Filter:** Effectively blocks 99.97% of PM2.5 particles and pollen.
- **Activated Carbon Deodorizing Filter:** Provides excellent odor absorption, breaking down household odors like tobacco, toilet, garbage, and pet odors.

4. MAINTENANCE

Regular maintenance helps extend the filter's life and maintain optimal air purification performance.

- **Cleaning:** Gently vacuum the surface of the filter to remove accumulated dust and debris.
- **Frequency:** It is recommended to perform this cleaning twice a month.

5. TROUBLESHOOTING (FILTER REPLACEMENT INDICATORS)

The air purifier is equipped with a filter replacement indicator to notify you when a new filter is needed.

- **Replacement Guideline:** Based on tests, the general filter replacement guideline is 1 year.
- **Environmental Factors:** Depending on the air quality, types, and intensity of odors in your environment, more frequent cleaning or replacement may be necessary.
- **Health Recommendation:** For optimal health and air quality, it is recommended to replace the filter every 6 months.

- **Indicator Light:** The filter replacement indicator light on your air purifier will illuminate when it is time to replace the HEPA filter.
