## HaoYunNe Plastic Laundry Sinks (25.6x21.6x31.5in)

# HaoYunNe White Plastic Laundry Sink (25.6x21.6x31.5in) Instruction Manual

Model: Plastic Laundry Sinks (25.6x21.6x31.5in)

## 1. PRODUCT OVERVIEW

The HaoYunNe White Plastic Laundry Sink is a freestanding utility sink designed for both indoor and outdoor use. Constructed from durable polypropylene plastic, it offers high hardness and light weight, making it suitable for various applications. The sink features a robust design with reinforcing ribs, providing a strong loading capacity of up to 70kg (154lbs). Its adjustable feet allow for stability on uneven surfaces, with an adjustment range of 0-1.5cm (0-0.6in).

This model includes a hot and cold faucet that rotates 360 degrees, two water pipes, two valves, a drain pipe, and four adjustable feet. A removable washboard and an upper soap groove with non-slip patterns are integrated for convenience. The lower shelf is hollowed for efficient water drainage and storage. The overall height of 31.5 inches is designed for comfortable use.

Image 1.1: Overview of the HaoYunNe Freestanding Plastic Laundry Sink, emphasizing its ease of installation, cleaning, and safe design.

The sink's classic white appearance complements various home decor styles. It is ideal for laundry rooms, bathrooms, utility rooms, garages, basements, balconies, patios, and gardens.

## 2. SETUP AND INSTALLATION

---

This product requires assembly. The design features a hole-free installation and screw connections for simplified setup. All necessary accessories for installation are included in the package.

### 2.1 Included Components

- 1 x Freestanding Sink
- 1 x Washboard
- 1 x Hot and Cold Faucet
- 2 x Water Pipes
- 2 x Valves
- 1 x Drain Pipe
- 4 x Feet
- 1 x Manual (this document)
- All other necessary installation accessories

Image 2.1: All components included for the assembly of the laundry sink.

## 2.2 Assembly Steps

1. Unpack all components and verify against the included components list.
2. Attach the four feet to the bottom of the sink stand using the provided screws. Ensure they are securely fastened.
3. Assemble the sink basin to the stand using the screw connections. The hole-free design simplifies alignment.
4. Install the hot and cold faucet onto the designated hole in the sink basin. Connect the hot and cold water pipes to the faucet and the corresponding valves.
5. Connect the drain pipe to the sink's drain opening and ensure it is properly routed for wastewater disposal. The pipe fixing slot helps prevent displacement.
6. Place the removable washboard and soap groove into their respective positions within the sink.
7. Adjust the height of the feet as needed to ensure the sink is level and stable on your chosen surface.

Image 2.2: Details of the easy installation features, including hand-tightening screws and the pipe fixing slot.

## 3. OPERATING INSTRUCTIONS

---

### 3.1 Faucet Operation

The included faucet provides both hot and cold water. Turn the faucet handle to the left for hot water and to the right for cold water. The faucet can rotate 360 degrees, allowing you to direct water flow to all areas of the sink for thorough cleaning.

Image 3.1: Faucet functionality, demonstrating hot/cold water selection and 360-degree rotation.

## 3.2 Using the Washboard and Soap Groove

The sink includes a thickened, removable washboard for manual washing tasks. Place items on the washboard and use the textured surface for effective cleaning. The upper part of the sink features a soap groove with non-slip patterns, designed to securely hold soap bars and allow for drainage.

Image 3.2: Details of the removable washboard and integrated soap grooves.

## 3.3 Storage Shelf

The lower shelf beneath the sink provides additional storage space for laundry detergents, brushes, or other utility items. Its hollowed design allows for quick filtration of residual water, preventing accumulation.

## 4. MAINTENANCE

---

To ensure the longevity and appearance of your HaoYunNe Plastic Laundry Sink, follow these maintenance guidelines:

- **Regular Cleaning:** Wipe the sink surfaces with a dry cloth after each use to prevent water spots and residue buildup.
- **Deep Cleaning:** For more thorough cleaning, use a soft cloth or sponge with mild soap and water. Gently scrub the surfaces, including the washboard and soap groove.
- **Avoid Abrasives:** Do not use abrasive cleaners, scouring pads, or harsh chemicals (e.g., bleach, ammonia-based cleaners) as these can scratch, discolor, or damage the polypropylene material.
- **Drain Maintenance:** Periodically check the drain for any blockages and clear them to ensure proper water flow.
- **Faucet Care:** Clean the faucet with a soft cloth and mild soap. Avoid harsh chemicals that could damage the finish.

## 5. TROUBLESHOOTING

---

If you encounter any issues with your laundry sink, refer to the following common troubleshooting steps:

### 5.1 Water Leaks

- **Check Connections:** Ensure all water pipe and drain pipe connections are tight. Hand-tighten any loose connections.
- **Inspect Seals:** Verify that all rubber gaskets and seals are correctly seated and not damaged. Replace if necessary.
- **Faucet Base:** If the leak is from the faucet base, ensure the faucet is securely tightened to the sink.

## 5.2 Slow Drainage

- **Clear Drain:** Remove the drain stopper and check for any debris (lint, hair, soap scum) that might be obstructing the flow.
- **Drain Pipe:** Inspect the drain pipe for kinks or blockages.

## 5.3 Faucet Issues (No Water/Low Pressure)

- **Water Supply:** Ensure the hot and cold water supply valves are fully open.
- **Aerator:** The faucet aerator might be clogged. Unscrew it and clean any mineral deposits or debris.
- **Water Pressure:** Check if other faucets in your home have normal water pressure. If not, there might be a general water supply issue.

## 6. SPECIFICATIONS

The following specifications apply to the HaoYunNe White Plastic Laundry Sink (25.6x21.6x31.5in):
