XuanPad Full HD 1080P Portable Projector User Manual

Brand: XuanPad | Model: X3

INTRODUCTION

Thank you for choosing the XuanPad Full HD 1080P Portable Projector. This manual provides essential information for setting up, operating, and maintaining your device to ensure optimal performance and longevity. Designed for versatility and ease of use, this projector integrates smart features and high-quality optics to deliver an immersive viewing experience.

Key features include official Netflix licensing, an upgraded Smart OS, AI electric focus, auto keystone correction, and a 210° rotatable stand. Its advanced optical system and efficient heat dissipation design ensure superior image clarity and stable operation. With ultra-fast WiFi 6 and Bluetooth 5.2, seamless connectivity is guaranteed.

WHAT'S IN THE BOX

- 1080P Projector
- HDMI Cord
- Remote Control
- User Manual
- Power Cord

SETUP

Follow these steps to set up your XuanPad projector for the first time:

1. **Power Connection:** Connect the provided power cord to the projector's power input port and then to a power outlet. The projector will power on automatically or can be turned on using the power button on the device or remote control.
2. **Placement:** Place the projector on a stable, flat surface. Utilize the 210° rotatable stand to adjust the projection angle as needed. This allows for projection on walls, ceilings, or other surfaces.
3. **Focus and Keystone Correction:** The projector features advanced AI electric focus, which automatically adjusts for a crystal-clear image in under 1 second. Auto keystone correction instantly fixes skewed angles, ensuring a perfectly rectangular screen. Manual adjustments can also be made via the remote if desired.
4. **Initial Connectivity:** Navigate to the settings menu to connect to your Wi-Fi network using the ultra-fast WiFi 6. This enables access to built-in streaming applications.

OPERATING INSTRUCTIONS

Your XuanPad projector is designed for intuitive operation. Here's how to get the most out of its smart features:

- **Smart OS and Built-in Apps:** The projector runs on an upgraded Smart OS, providing direct access to certified applications like Netflix, Prime Video, and YouTube. Simply select the desired app from the home screen and log in with your credentials to start streaming. The intelligent background maintenance ensures a smooth, lag-free experience.
- **Wireless Connectivity (WiFi 6 & Bluetooth 5.2):**
 - **WiFi:** Connect to your home network via WiFi 6 for lightning-fast streaming and updates.
 - **Bluetooth:** Pair with external Bluetooth speakers or headphones using dual-channel Bluetooth 5.2 for enhanced audio.
- **External Device Connection:** The projector supports multiple input options including HDMI and USB.

Connect gaming consoles, laptops, or other media devices for a larger-than-life display.

MAINTENANCE

Proper maintenance ensures the longevity and performance of your projector:

- **Dust Removal:** The projector features a multi-layer dustproof mesh and a removable side-panel design. Regularly clean the mesh to prevent dust accumulation, which can cause black spots on the projection.
- **Cooling System:** The unique pure copper heat pipe design enhances heat dissipation. Ensure the ventilation vents are not obstructed during operation to maintain optimal cooling and brightness.
- **Lens Cleaning:** Use a soft, lint-free cloth specifically designed for optical lenses to gently clean the projector lens. Avoid abrasive materials or harsh chemicals.

TROUBLESHOOTING

If you encounter issues with your projector, refer to the following common solutions:

- **No Image/Power:** Ensure the power cord is securely connected to both the projector and the power outlet. Try a different outlet.
- **Blurry Image:** While the projector has AI electric focus, ensure the lens is clean. If using manual focus, adjust it until the image is sharp. For skewed images, auto keystone correction should resolve it; if not, check for obstructions or reposition the projector.
- **No Sound/Low Sound:** Check the volume settings on the projector and any connected external audio devices. Ensure Bluetooth speakers are properly paired.
- **Connectivity Issues:** For Wi-Fi, ensure you are within range of your router and the password is correct. For Bluetooth, ensure the device is in pairing mode and within range.
- **Apps Not Loading/Crashing:** Ensure the projector is connected to a stable internet connection. Restart the projector and try again. Updates to the Smart OS are automatic, but ensure sufficient storage if downloading

many apps.
