## ICE-WATCH ICE smart 2.0

# Ice-Watch ICE smart 2.0 Smartwatch User Manual

Model: ICE smart 2.0

## 1. INTRODUCTION

---

This manual provides essential information for the proper setup, operation, and maintenance of your Ice-Watch ICE smart 2.0 smartwatch. Please read this guide thoroughly before using your device to ensure optimal performance and longevity.

## 2. PACKAGE CONTENTS

---

Upon opening your Ice-Watch ICE smart 2.0 package, please verify that all items are present:

- Ice-Watch ICE smart 2.0 Smartwatch
- Charging Cable (Charger)
- User Manual (this document)

## 3. SETUP

---

### 3.1 Initial Charging

Before first use, fully charge your smartwatch. Connect the provided charging cable to the charging port on the back of the watch and plug the USB end into a compatible power adapter (not included) or a computer's USB port. The watch display will indicate charging status.

### 3.2 App Installation and Pairing

1. Download the official Ice-Watch smartwatch application from your smartphone's app store. This

application is compatible with Android smartphones.

2. Ensure Bluetooth is enabled on your smartphone.
3. Open the Ice-Watch app and follow the on-screen instructions to create an account or log in.
4. Select 'Add Device' or 'Pair New Device' within the app. Your watch should appear in the list of discoverable devices.
5. Tap on your watch's name to initiate the pairing process. Confirm the pairing request on both your smartphone and the smartwatch if prompted.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Basic Navigation

The ICE smart 2.0 features a responsive touchscreen for interaction. Swipe across the screen to navigate through menus and functions. Tap to select items. The side button typically serves as a home button or to wake/sleep the screen.

### 4.2 Key Features

- **Heart Rate Monitor:** Access the heart rate function to measure your current heart rate. Ensure the watch is snug on your wrist for accurate readings.
- **Chronograph:** Use the stopwatch feature for timing activities.
- **Timer:** Set countdown timers for various purposes.
- **Alarm:** Configure alarms through the watch or the connected smartphone app.
- **Notifications:** Receive call, message, and app notifications directly on your watch when connected to your smartphone via Bluetooth and Wi-Fi.
- **Activity Tracking:** Monitor steps, distance, calories burned, and sleep patterns.

## 5. MAINTENANCE

---

### 5.1 Cleaning

Regularly clean your smartwatch and strap to prevent skin irritation and maintain device appearance. Use a soft, damp, lint-free cloth. Avoid harsh chemicals, abrasive materials, or ultrasonic cleaners.

### 5.2 Water Resistance

The ICE smart 2.0 has an IPX7 international protection rating and is water-resistant up to 50 meters. This means it is suitable for showering and shallow-water activities. However, it is not recommended for diving, high-speed water sports, or prolonged submersion. Avoid exposing the watch to hot water, steam, or chemicals, as this may compromise its water resistance.

## 6. TROUBLESHOOTING

---

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.

- **Cannot pair with smartphone:** Check that Bluetooth is enabled on your phone and the watch. Ensure the watch is within range and not paired with another device. Restart both the watch and your phone.
- **Inaccurate heart rate readings:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensor on the back of the watch.
- **Notifications not appearing:** Verify that notifications are enabled in both the watch's settings and the Ice-Watch app. Check your phone's notification permissions for the app.
- **Short battery life:** Reduce screen brightness, disable unnecessary features, and limit frequent heart rate monitoring.

If issues persist, consult the support section of the Ice-Watch app or visit the official Ice-Watch website for further assistance.

## 7. SPECIFICATIONS

<b>Model Name</b>	ICE smart 2.0
<b>Brand</b>	ICE-WATCH
<b>Display Type</b>	OLED
<b>Screen Size</b>	1.7 Inches
<b>Resolution</b>	320 x 320
