ECOSELF RFHAP603

ECOSELF HAP603 Air Purifier Replacement Filter User Manual

Model: RFHAP603

1. INTRODUCTION

This manual provides essential instructions for the proper installation, maintenance, and replacement of your ECOSELF HAP603 Air Purifier Replacement Filter. Please read this manual thoroughly before use to ensure optimal performance and longevity of your air purifier system. This filter is compatible with ECOSELF HAP603 and HAP603WF air purifier models.

2. IMPORTANT SAFETY INFORMATION

- Always turn off and unplug the air purifier from the power outlet before attempting to replace the filter.
- Do not wash or reuse the filter. Replacement filters are designed for single use and should be disposed of after their service life.
- Keep the new filter in its sealed packaging until ready for installation to maintain its effectiveness.
- Handle the filter by its frame to avoid touching the filtration media directly.

3. PRODUCT OVERVIEW

The ECOSELF HAP603 Replacement Filter is a 3-in-1 filtration system designed to capture various airborne particles and odors. It consists of three distinct layers:

- **Pre-Filter:** Captures larger particles such as dust, lint, and pet fur.
- **H13 True HEPA Filter:** Traps 99.97% of airborne particles as small as 0.3 microns, including pollen, pet dander, and fine dust.
- **Activated Carbon Filter:** Absorbs odors, smoke, fumes, and volatile organic compounds (VOCs).

4. FILTER INSTALLATION

Follow these steps to replace the filter in your ECOSELF HAP603 or HAP603WF air purifier:

1. **Power Off:** Ensure the air purifier is turned off and unplugged from the power outlet.
2. **Access Filter Compartment:** Locate and open the filter compartment cover on your air purifier. Refer to your air purifier's main user manual for specific instructions on accessing the filter compartment.
3. **Remove Old Filter:** Carefully remove the used filter from the air purifier. It may contain accumulated dust and debris.
4. **Unpack New Filter:** Remove the new ECOSELF HAP603 replacement filter from its protective plastic packaging.
5. **Install New Filter:** Insert the new filter into the air purifier, ensuring it is oriented correctly. The

'FRONT' label on the filter should face outwards or as indicated by your air purifier's design.

6. **Close Compartment:** Securely close the filter compartment cover.
7. **Restore Power:** Plug the air purifier back into the power outlet and turn it on.

5. OPERATING (FILTER RESET)

After replacing the filter, it is important to reset the filter life indicator on your air purifier. This ensures accurate tracking of the new filter's lifespan.

1. With the air purifier powered on, locate the 'Filter Reset' button or indicator on the control panel.
2. Press and hold the 'Filter Reset' button for approximately 3-5 seconds until the indicator light turns off or resets, as specified in your air purifier's main manual.
3. If your air purifier does not have a dedicated reset button, consult its main user manual for instructions on how to reset the filter life.

6. MAINTENANCE

To maintain optimal air purification performance, regular filter replacement is crucial.

- **Replacement Frequency:** The ECOSELF HAP603 replacement filter is designed to provide efficient air purification for up to 6 months under normal operating conditions. Actual lifespan may vary based on air quality and usage.
- **Filter Indicator:** Pay attention to your air purifier's filter indicator light. When it illuminates, it signals that a filter replacement is due.
- **Disposal:** Dispose of the used filter with regular household waste.
- **Cleaning:** The filter itself cannot be cleaned or washed. Attempting to clean it will damage the filtration media and reduce its effectiveness.

7. TROUBLESHOOTING COMMON ISSUES

Issue	Possible Cause	Solution
Filter does not fit	Incorrect filter model purchased.	Verify your air purifier model (HAP603 or HAP603WF) and ensure you have the correct ECOSELF replacement filter.
Filter indicator light remains on after replacement	Filter reset procedure not performed or performed incorrectly.	Refer to Section 5: Operating (Filter Reset) and follow the instructions carefully. If the issue persists, consult your air purifier's main manual.
Reduced air purification performance	Filter is old or heavily soiled.	Replace the filter if it has exceeded its recommended lifespan or appears visibly dirty.

8. PRODUCT SPECIFICATIONS

Feature	Detail
Brand	ECOSELF
Model Number	RFHAP603_1P_BLU
Compatible Devices	ECOSELF HAP603 Air Purifier, ECOSELF HAP603WF Air Purifier
Filtration Type	3-in-1 (Pre-Filter, H13 True HEPA, Activated Carbon)
Filter Efficiency	99.97% for particles 0.3 microns
Recommended Lifespan	Up to 6 months
Item Weight	10.2 ounces
Product Dimensions	12 x 10.7 x 1.3 inches

9. WARRANTY AND CUSTOMER SUPPORT

ECOSELF values customer satisfaction. If you encounter any problems with the filter fitting your air purifier or have questions regarding its performance, please contact our customer service team.

Our dedicated after-sales team is available to provide assistance and ensure a satisfactory resolution to any concerns you may have.

For support, please refer to the contact information provided with your original air purifier purchase or visit the official ECOSELF website.
