Instruction Manual: Black Aluminum Running Boards

Brand: king of car tuning | **Model:** VDV
Compatibility: Hyundai Santa Fe 2024, 2025, 2026

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your new King of Car Tuning Black Aluminum Running Boards. These running boards are designed to provide a sturdy and convenient step for entering and exiting your Hyundai Santa Fe (model years 2024, 2025, and 2026). Constructed from durable, corrosion-resistant aluminum, they offer enhanced accessibility and a sleek appearance.

SETUP AND INSTALLATION

Important: Professional installation is recommended for optimal safety and performance. Ensure all components are present and undamaged before beginning installation. If you are unsure about fitment, please consult the manufacturer or seller.

Package Contents:

- 2 x Black Aluminum Running Boards
- Mounting Brackets
- Screws and Fasteners

Required Tools (Not Included):

- Socket Wrench Set
- Torque Wrench
- Safety Glasses
- Work Gloves

Installation Steps:

- Preparation:** Park the vehicle on a level surface and engage the parking brake. For safety, consider using jack stands if lifting the vehicle.
- Identify Mounting Points:** Locate the factory mounting holes on the vehicle's chassis along the rocker panel. These running boards are designed for a simple bolt-on installation, requiring no drilling.
- Attach Brackets:** Secure the provided mounting brackets to the vehicle's frame using the supplied screws and fasteners. Ensure all bolts are hand-tightened initially. Refer to the image below for an example of the mounting

hardware.

4. **Position Running Board:** Carefully lift one running board and align it with the installed brackets. The running board features a wide surface for a sturdy step.

Image: Two running boards showing the textured top surface.

5. **Secure Running Board:** Attach the running board to the brackets using the remaining fasteners. Ensure proper alignment before tightening.
6. **Final Tightening:** Once both running boards are in place and aligned, progressively tighten all bolts to the manufacturer's recommended torque specifications. Do not overtighten.
7. **Repeat for Other Side:** Follow the same steps for the installation of the running board on the opposite side of the vehicle.

8. **Final Check:** After installation, gently test the stability of both running boards. Ensure all fasteners are secure and there is no excessive movement.

OPERATING INSTRUCTIONS

The running boards are designed to provide a stable and secure step for easier access to your vehicle. Step onto the textured surface when entering or exiting the vehicle. The wide surface ensures comfortable and safe use.

Weight Capacity:

Each running board is rated to support a maximum weight of **400 pounds (approximately 181 kg)**. Do not exceed this weight limit to prevent damage to the running board or vehicle.

MAINTENANCE

Regular maintenance will ensure the longevity and appearance of your running boards.

Cleaning:

- Clean the running boards regularly with mild automotive soap and water.
- Use a soft brush or cloth to remove dirt and debris from the textured surface.
- Rinse thoroughly with clean water and dry to prevent water spots.
- Avoid using abrasive cleaners, harsh chemicals, or stiff brushes, as these can damage the finish.

Inspection:

- Periodically inspect all mounting hardware (brackets, bolts, screws) for tightness. Re-tighten any loose fasteners to prevent rattling or instability.
- Check the running boards for any signs of damage, such as cracks, bends, or excessive wear on the textured surface.

Troubleshooting

Problem	Possible Cause	Solution
Running board feels loose or rattles	Loose mounting bolts or brackets.	Inspect and re-tighten all mounting bolts and fasteners. Ensure brackets are securely attached to the vehicle frame.
Unusual noise during vehicle operation	Loose components or interference with other vehicle parts.	Check all mounting points for tightness. Verify that the running board does not contact any other part of the vehicle during driving.
Difficulty stepping on/off	Surface is slippery due to dirt or ice.	Clean the textured surface thoroughly. Exercise caution in wet or icy conditions.

Specifications

Feature	Detail
Brand	King of Car Tuning
Model	VDV
Item Model Number	VDB
Compatibility	Hyundai Santa Fe 2024, 2025, 2026
Material	Aluminum, Plastic, Stainless Steel
