OPOQO BL158

OPOQO Mini Projector User Manual

Model: BL158 | Brand: OPOQO

1. Introduction

Thank you for choosing the OPOQO Mini Projector. This portable projector is designed to deliver a stunning visual and audio experience, supporting FHD 1080P resolution with 600 ANSI Lumens brightness and a 15000:1 contrast ratio. Featuring electric focus, auto keystone correction, dual-band WiFi (2.4G+5G), and Bluetooth 5.2 connectivity, it offers versatile entertainment options for home, outdoor, business, and gaming use. Please read this manual carefully before operating the projector to ensure proper use and optimal performance.

2. What's in the Box

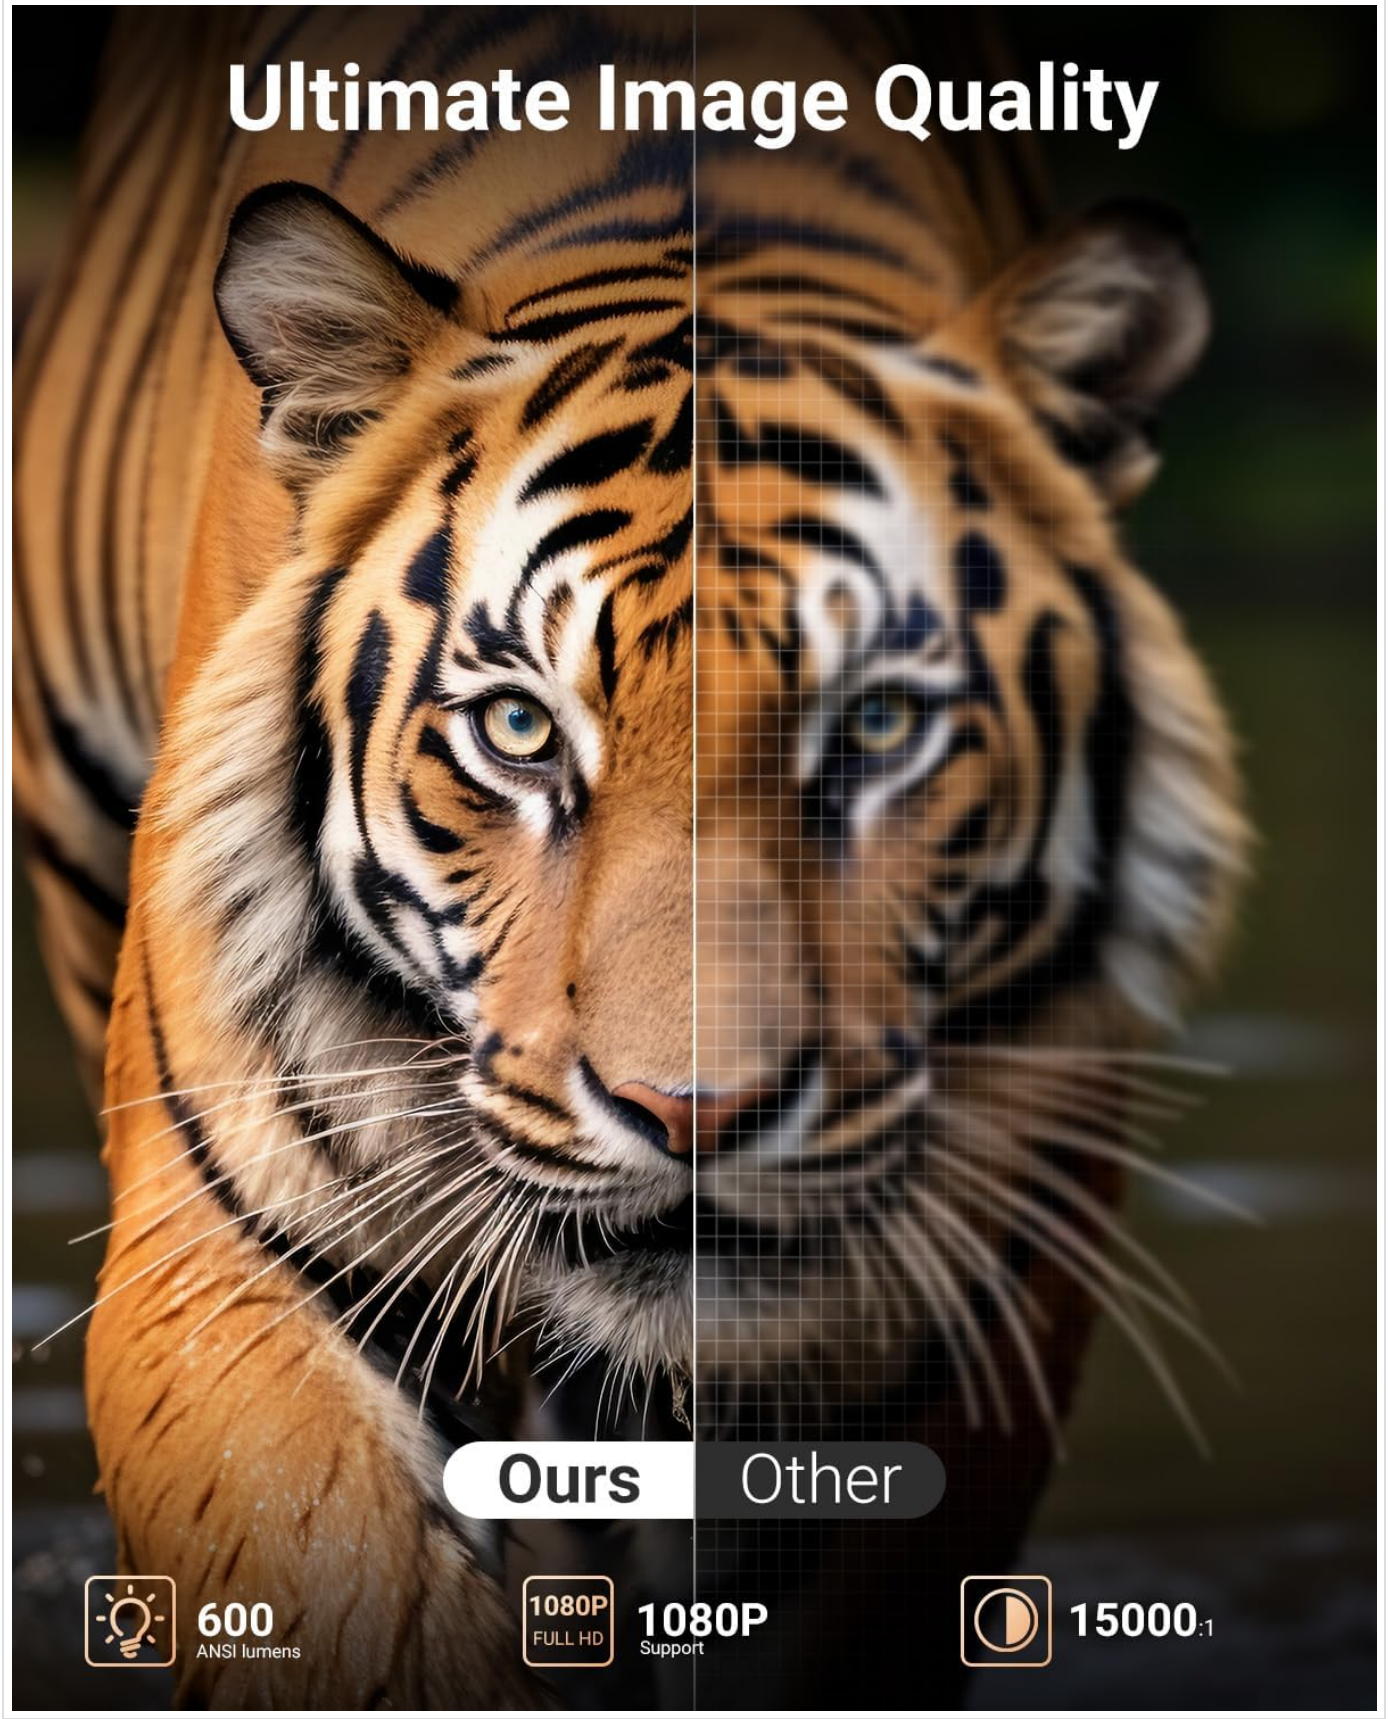

Please check the contents of your package to ensure all items are present:

- OPOQO Mini Projector
- Remote Control (AAA batteries not included)
- HDMI Cable
- Power Cord
- User Manual (this document)

3. Product Features

3.1 Ultimate Image Quality

Experience stunning visuals with 600 ANSI Lumens brightness and support for Full HD 1080P resolution. The projector boasts an incredible 15000:1 contrast ratio, bringing every detail to life with unparalleled clarity. The image can be zoomed from 100% down to 50% to fit your viewing space.

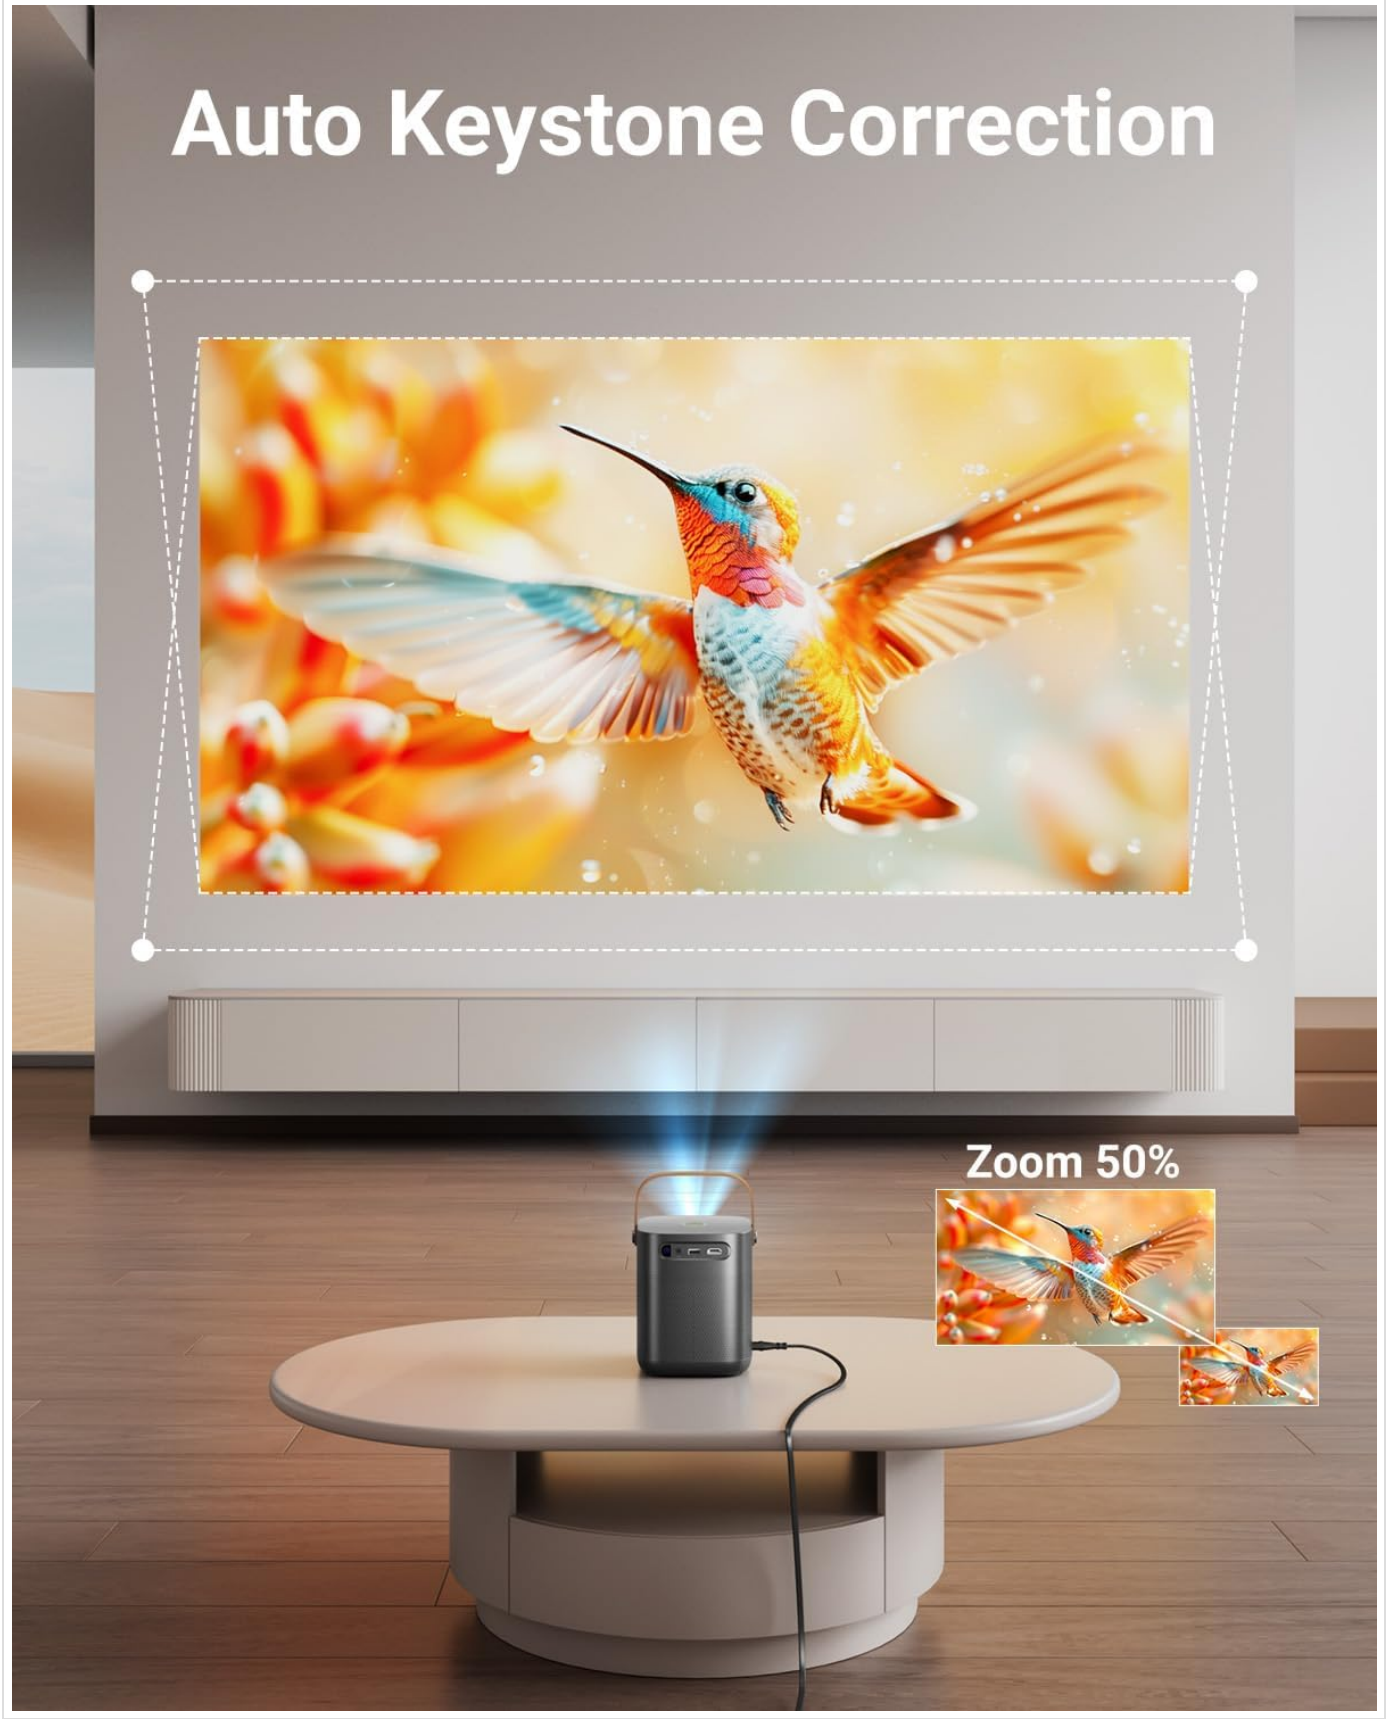

Visual comparison highlighting the superior image clarity of the OPOQO projector.

3.2 Electric Focus & Auto Keystone Correction

Achieve razor-sharp clarity with the electric focus technology. Simply press and hold the focus button on the remote for quick and convenient adjustment. The auto keystone correction feature automatically aligns the image, eliminating distortion and saving you time on manual adjustments.

Illustration of one-button electric focus for quick and precise image clarity.

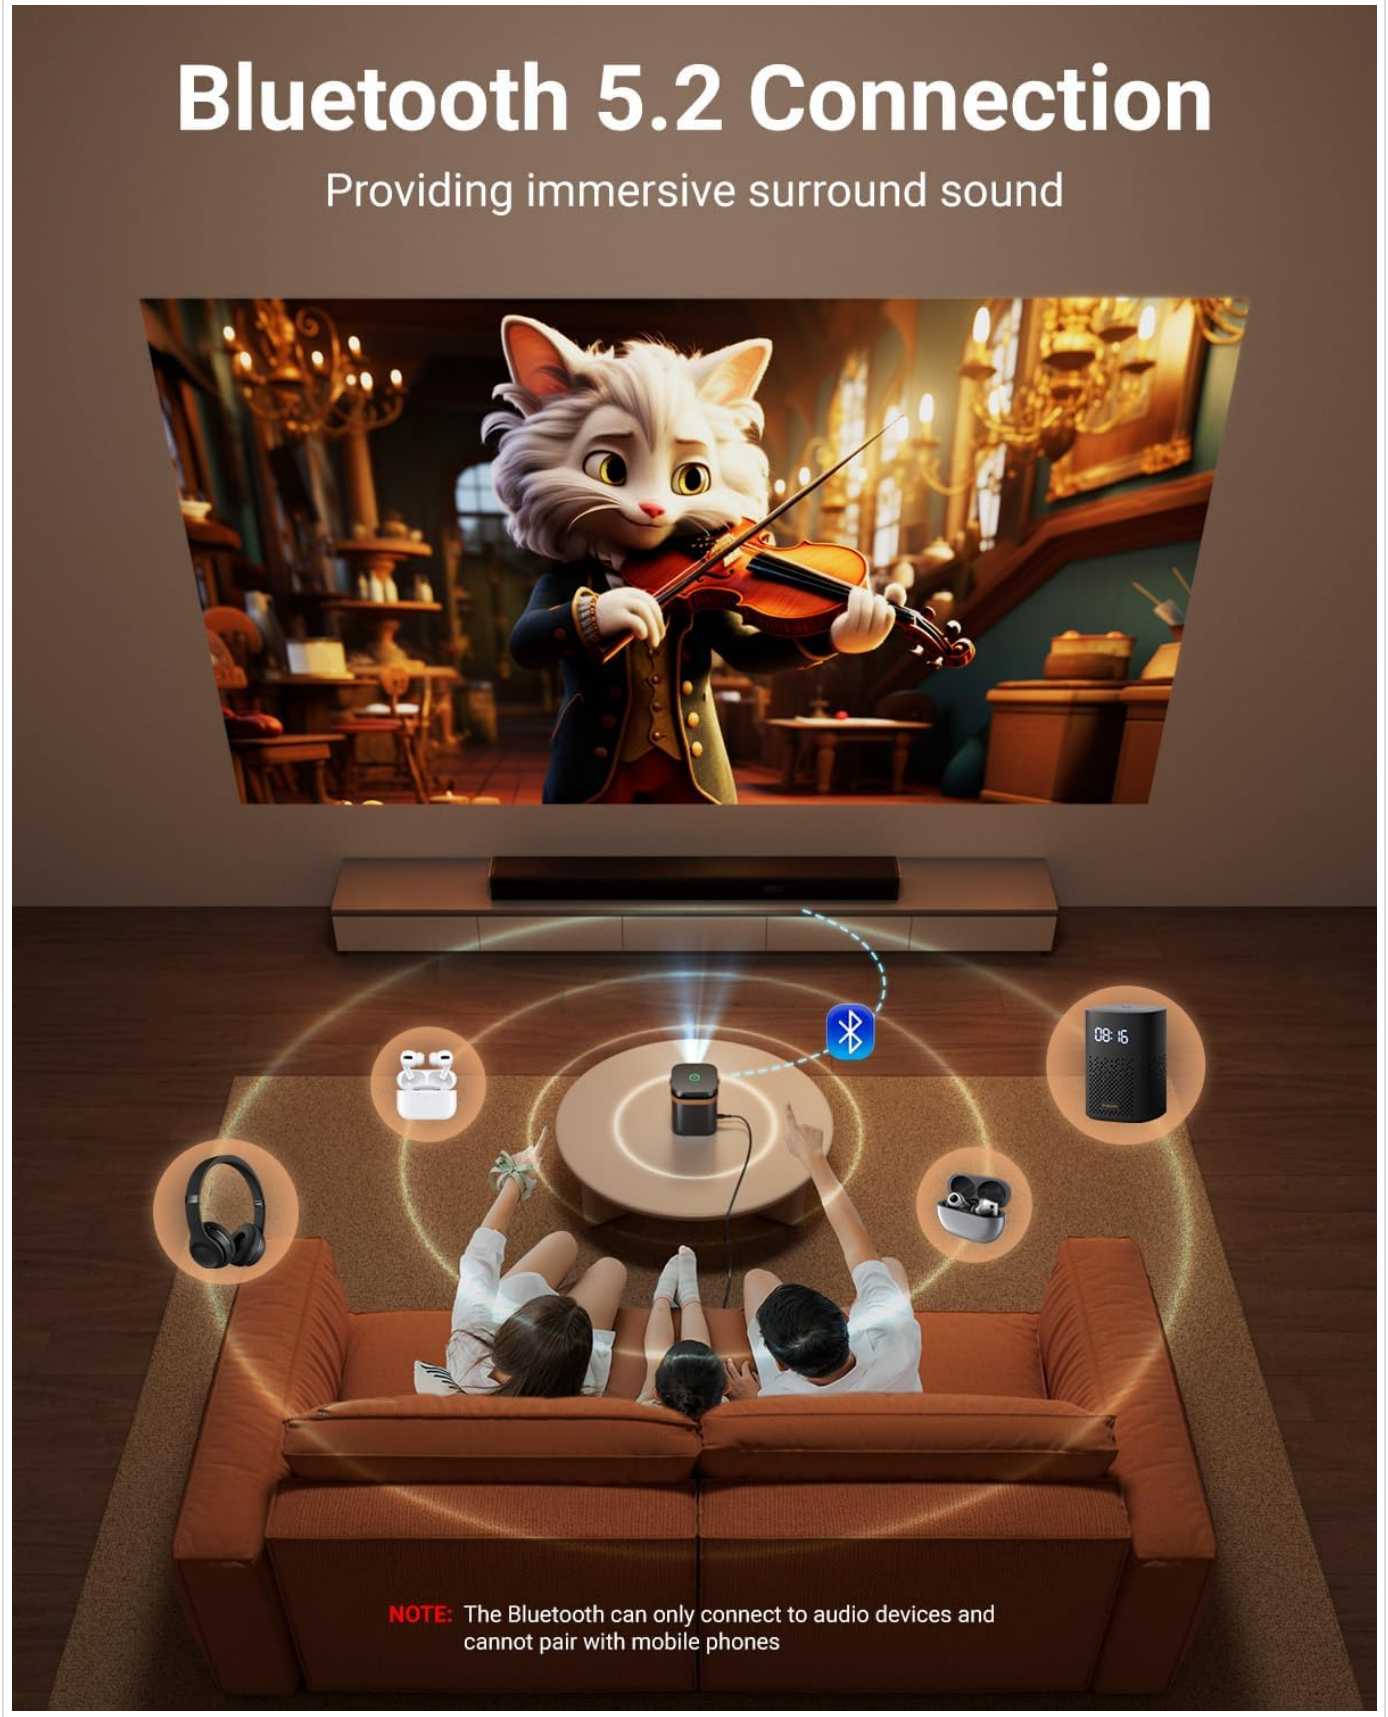

Demonstration of auto keystone correction ensuring a perfectly aligned image.

3.3 Seamless Wireless Connectivity

Enjoy stable and lightning-fast streaming with support for both 2.4GHz and 5GHz WiFi frequencies. The inclusion of Bluetooth 5.2 technology allows effortless pairing with external audio devices like speakers and headphones for an immersive sound experience.

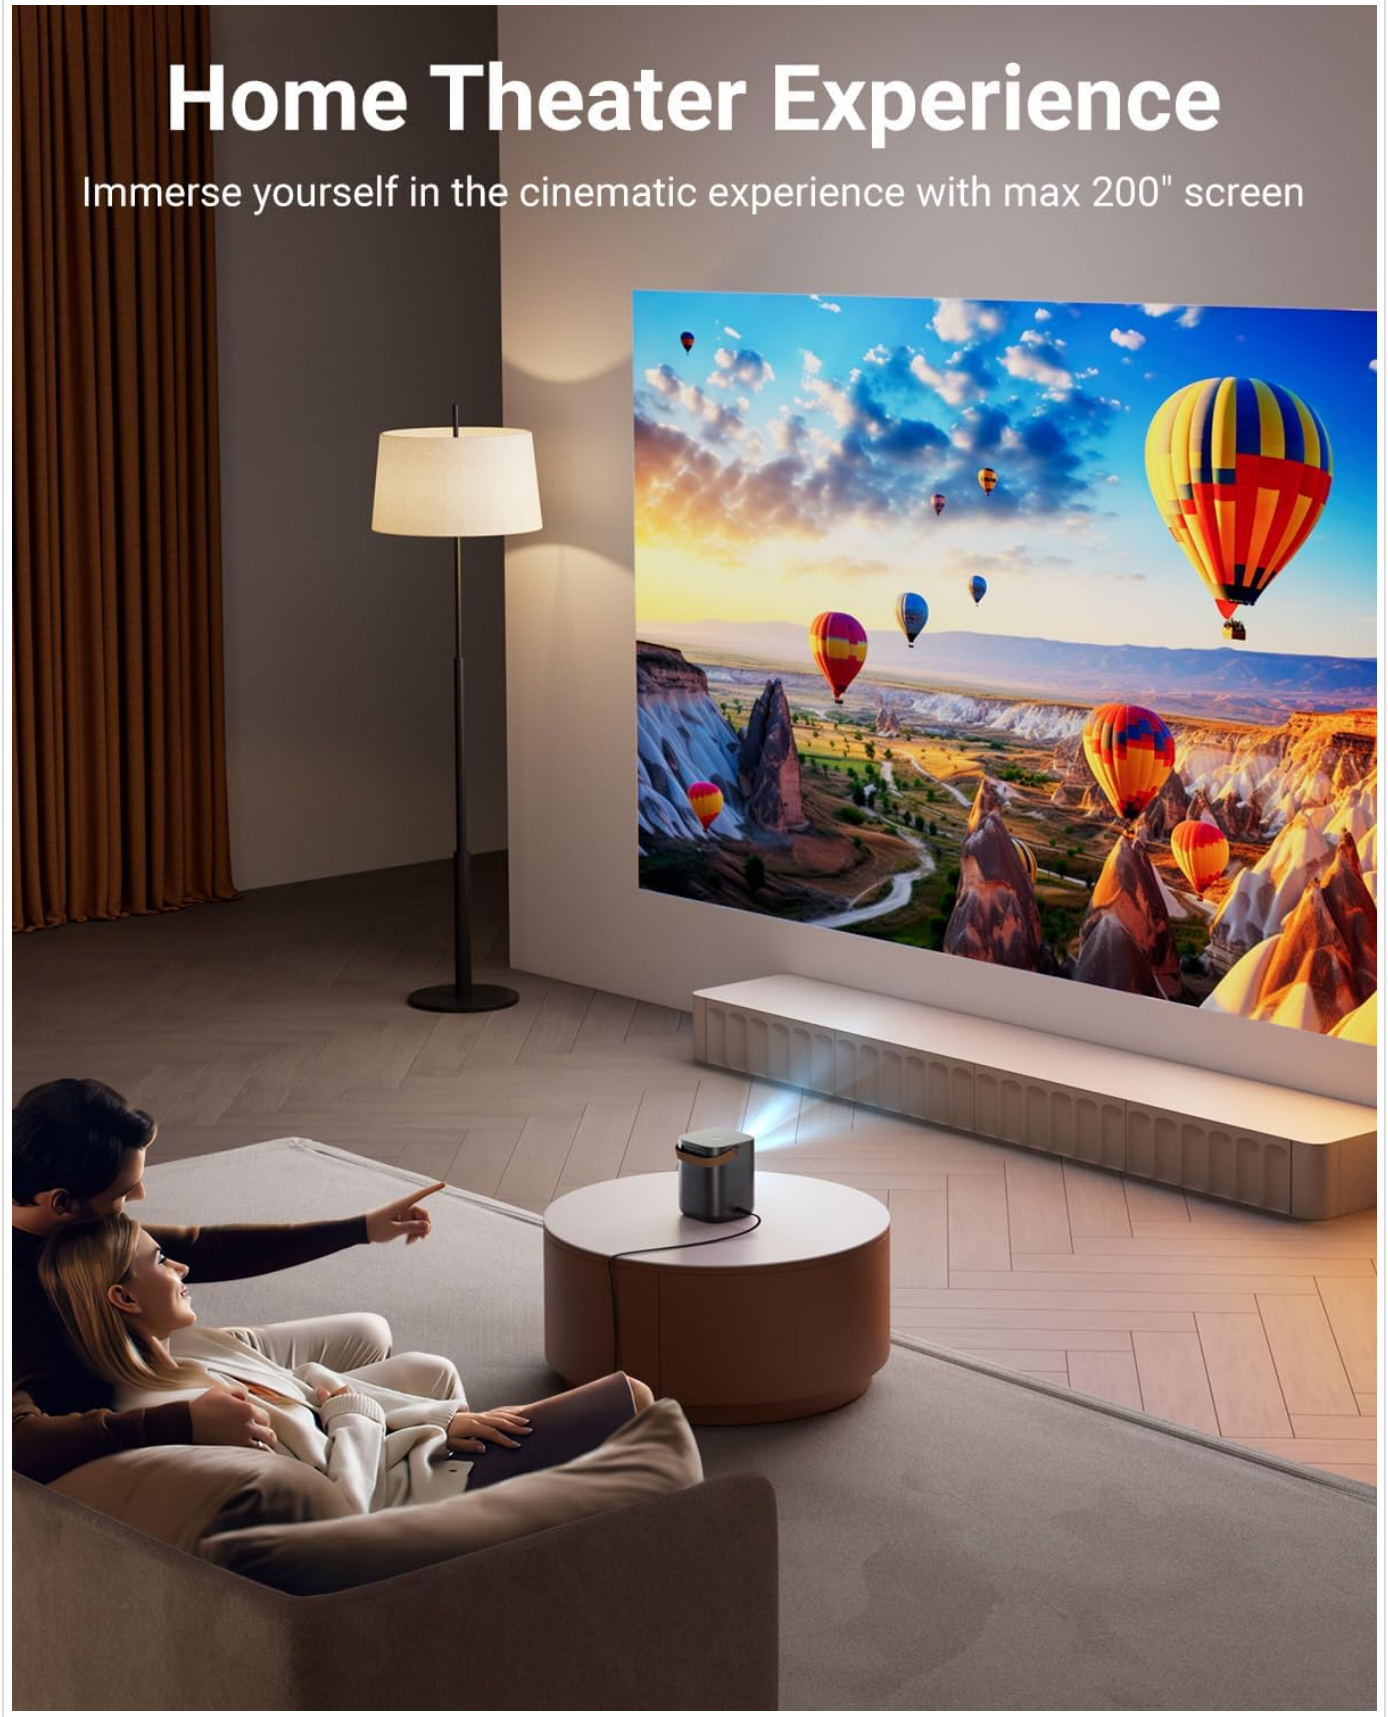

Visualizing dual-band WiFi connectivity for faster and more stable streaming.

Depiction of Bluetooth 5.2 connectivity for immersive surround sound with external speakers.

3.4 Immersive Audio and Large Display

Equipped with a powerful HIFI speaker, the projector delivers immersive sound quality. Combine this with a maximum 200-inch display for a truly captivating home theater experience.

Experience a cinematic atmosphere with a maximum 200-inch display.

3.5 Compact and Portable Design

The OPOQO Mini Projector features a compact size, making it easy to carry and set up anywhere, anytime. Its lightweight design ensures portability for outdoor movie nights or presentations on the go.

Compact dimensions and lightweight design for easy portability.

4. Setup Guide

4.1 Initial Placement

Place the projector on a stable, flat surface. Ensure there are no obstructions in front of the lens. For optimal viewing, position the projector perpendicular to the projection surface.

4.2 Power Connection

1. Connect the power cord to the projector's power input port.
2. Plug the other end of the power cord into a power outlet.
3. The power indicator light will illuminate.

4.3 Remote Control Setup

Insert two AAA batteries (not included) into the remote control, observing the correct polarity.

5. Operating Instructions

5.1 Power On/Off

- Press the Power button on the remote control or the projector to turn it on.
- Press the Power button again to turn it off.

5.2 Source Selection

Use the 'Source' button on the remote to select your desired input source (e.g., HDMI, USB, AV, Screen Mirroring).

5.3 Navigation

Use the arrow keys on the remote to navigate through menus and options. Press 'OK' or 'Enter' to confirm selections. Use the 'Return' or 'Back' button to go back to the previous screen.

6. Connectivity

6.1 WiFi Connection (2.4G & 5G)

1. Go to the 'Settings' menu on the projector.
2. Select 'Network' or 'WiFi Settings'.
3. Turn on WiFi and select your desired network from the list.
4. Enter the password if prompted and connect.

6.2 Bluetooth Connection

1. Go to the 'Settings' menu.
2. Select 'Bluetooth Settings'.
3. Turn on Bluetooth. The projector will search for available devices.
4. Select your Bluetooth speaker or headphone from the list to pair.

Note: The projector's Bluetooth is primarily for connecting to audio output devices and cannot pair with mobile phones for input.

6.3 Wired Connections (HDMI, USB, AV)

- **HDMI:** Connect your laptop, gaming console (PS5), TV stick, or other HDMI-enabled devices using the provided HDMI cable. Select 'HDMI' as the input source.
- **USB:** Insert a USB drive into the USB port to play media files (photos, videos, music, documents). Select 'USB' as the input source and navigate to your files.
- **AV:** Use an AV cable (not included) to connect older devices like DVD players. Select 'AV' as the input source.
- **3.5mm Audio Jack:** Connect external wired speakers or headphones for private listening.

7. Image and Sound Adjustment

7.1 Electric Focus

While projecting, press and hold the 'Focus' button on the remote control. The image will automatically adjust until it is clear and sharp. Release the button when the desired clarity is achieved.

7.2 Auto Keystone Correction

The projector features automatic keystone correction. If the image appears trapezoidal, the projector will automatically adjust it to a rectangular shape. Manual adjustment options may also be available in the settings menu if needed.

7.3 Zoom Function

To adjust the screen size without moving the projector, use the zoom function. This allows you to scale the image from 100% down to 50% via the remote control or settings menu.

7.4 Audio Settings

Adjust the volume using the volume buttons on the remote control. For enhanced audio, connect external speakers via Bluetooth or the 3.5mm audio jack.

8. Maintenance

- **Cleaning the Lens:** Use a professional lens cleaning cloth or air blower to clean the projector lens. Do not touch the lens directly with your hands.
- **Cleaning the Projector Body:** Use a soft, dry cloth to wipe the surface of the projector. Do not use abrasive cleaners or solvents.
- **Ventilation:** Ensure the projector's ventilation openings are not blocked to prevent overheating.
- **Storage:** When not in use for extended periods, store the projector in a cool, dry, dust-free environment.

9. Troubleshooting

Problem	Possible Cause	Solution
No image displayed	Power cord not connected; Incorrect input source; Lens cap on	Check power connection; Select correct input source; Remove lens cap
Blurry image	Out of focus; Incorrect projection distance	Use electric focus; Adjust projector distance
No sound	Volume too low; Muted; External audio device not connected	Increase volume; Unmute; Check Bluetooth/3.5mm connection
WiFi connection unstable	Interference; Too far from router	Move closer to router; Check for interference; Try 5G WiFi
Remote control not working	Batteries low/dead; Obstruction between remote and projector	Replace batteries; Ensure clear line of sight to IR receiver
