MAINTENANCE

Cleaning the Fan

To ensure optimal performance and clean airflow, regularly clean the fan. The front cover can be removed for easy access to the blades.

1. Ensure the fan is turned off and unplugged from any power source.
2. Gently twist the front cover counter-clockwise to unlock and remove it.
3. Wipe the fan blades and the inside of the cover with a soft, damp cloth. Do not use abrasive cleaners or immerse the fan in water.
4. Allow all parts to dry completely before reattaching the front cover by aligning and twisting clockwise until secure.
