

Remington S5502

Remington 1-inch Anti-Static Flat Iron S5502 User Manual

Model: S5502

1. IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

- **READ ALL DIRECTIONS BEFORE USING.**
- **KEEP AWAY FROM WATER.**
- As with most electrical appliances, electrical parts are electrically live even when the switch is off. To reduce the risk of death by electric shock:
 - Always unplug this appliance immediately after using.
 - Do not use while bathing or in a shower.
 - Do not place or store this appliance where it can fall or be pulled into a tub or sink.
 - Do not place in or drop into water or other liquid.
 - If an appliance falls into water, "unplug it" immediately. Do not reach into the water.
- To reduce the risk of burns, electrocution, fire, or injury to persons:
 - This appliance should never be left unattended when plugged in.
 - Close supervision is necessary when this appliance is used by, on, or near children or individuals with certain disabilities.
 - Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
 - Never operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has been dropped or damaged, or dropped into water.
 - Keep the cord away from heated surfaces. Do not wrap the cord around the appliance.
 - Never use while sleeping.
 - Never drop or insert any object into any opening.
 - Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
 - Do not use an extension cord with this appliance.
 - This appliance is hot when in use. Do not let eyes or bare skin touch heated surfaces.
 - Do not place the heated unit directly on any surface while it is hot or plugged in.

SAVE THESE INSTRUCTIONS.

2. PRODUCT OVERVIEW

The Remington 1-inch Anti-Static Flat Iron (Model S5502) is designed to provide efficient hair straightening with reduced static and frizz. It features advanced ceramic plates with titanium protection coating for fast heat-up and smooth gliding.

Image 2.1: The Remington 1-inch Anti-Static Flat Iron in purple, showcasing its sleek design and digital display.

Key Features:

- **1-inch Ceramic Floating Plates:** Designed for precise styling and smooth glide through hair.
- **Anti-Static Technology:** Reduces static by 50% and minimizes flyaways.
- **Titanium Protection Coating:** Ensures fast heat-up and even heat distribution.
- **30% Longer Plates:** Facilitates quicker styling and covers more hair per pass.
- **Digital Controls:** Offers precise temperature adjustment with an LCD screen.
- **Fast Heat-Up:** Reaches desired temperature in approximately 30 seconds.
- **Auto Shut-Off:** Automatically turns off after 60 minutes of inactivity for safety.
- **Swivel Cord:** Provides flexibility and prevents tangling during use.

Image 2.2: Visual summary of the flat iron's key features, including fast heat-up, 1-inch ceramic plates, swivel cord, 450°F high heat, and digital controls.

3. SETUP AND INITIAL USE

3.1 Unboxing and Inspection

- Carefully remove the flat iron from its packaging.
- Inspect the appliance for any signs of damage. Do not use if damaged.
- Ensure all components are present as described in the packaging.

3.2 Power Connection

- Plug the appliance into a standard 120-volt AC electrical outlet.
- Ensure your hands are dry when plugging in or unplugging the device.

4. OPERATING INSTRUCTIONS

4.1 Powering On and Temperature Selection

1. Plug in the flat iron.

2. Press and hold the power button until the LCD screen illuminates.
3. Use the '+' and '-' buttons to select your desired temperature. The LCD will pulse during heat-up and display 1-3 bars when ready.
4. The flat iron heats up in approximately 30 seconds.

Image 4.1: Digital controls and LCD screen for precise temperature adjustment.

4.2 Recommended Heat Settings

Refer to the following guidelines for optimal temperature settings based on hair type:

Hair Type	Temperature Range
Fine or easy to style	310-350°F
Color-treated	350-390°F
Textured	350-390°F
Thick or hard to style	370-450°F

PERSONALIZED STYLING

- Fine or easy to style 310-350°F
- Color-treated 350-390°F
- Textured 350-390°F
- Thick or hard to style 370-450°F

Image 4.2: Personalized styling guide for selecting appropriate heat settings.

4.3 Styling Your Hair

- Ensure hair is clean, dry, and tangle-free before styling.

- Apply a heat protectant spray if desired.
- Section your hair into manageable portions.
- Starting from the roots, gently clamp a section of hair between the plates.
- Smoothly glide the flat iron down the hair section to the ends. Avoid holding the iron in one place for too long to prevent heat damage.
- Repeat for all sections until desired straightness is achieved.

Image 4.3: Demonstrating the use of the flat iron, highlighting its anti-static technology for smoother results.

4.4 Anti-Static Technology

The integrated Anti-Static Technology works to reduce the amount of negatively charged particles during styling. This results in up to 50% less static and fewer flyaways, contributing to a smoother, more polished finish.

Image 4.4: Visual comparison illustrating the effectiveness of anti-static technology on hair.

4.5 Auto Shut-Off Feature

For enhanced safety, the flat iron is equipped with an automatic shut-off feature. If left unattended and unused for 60 minutes, the appliance will automatically power down.

5. MAINTENANCE

5.1 Cleaning

- Always unplug the appliance and allow it to cool completely before cleaning.
- Wipe the plates and exterior surfaces with a damp cloth.
- Do not use abrasive cleaners or solvents.
- Ensure no water enters the internal components.

5.2 Storage

- Unplug the appliance and allow it to cool completely before storing.
- Store the flat iron in a dry location, away from water.
- Do not wrap the cord around the appliance, as this can cause damage over time.

6. TROUBLESHOOTING

If you encounter issues with your Remington Flat Iron, refer to the following common problems and solutions:

- **Appliance does not turn on:**
 - Ensure the flat iron is securely plugged into a working electrical outlet.
 - Check if the power button has been pressed and held sufficiently to activate.
- **Appliance does not heat up:**
 - Verify that the temperature setting is selected and the LCD is active.
 - Allow sufficient time (approx. 30 seconds) for the plates to reach the set temperature.

- **Hair still has static/frizz:**

- Ensure hair is completely dry before styling.
- Use appropriate heat settings for your hair type (refer to Section 4.2).
- Clean the plates regularly to remove product buildup.

- **Unusual smell during initial use:**

- A slight odor may be present during the first few uses as manufacturing residues burn off. This is typically normal and should dissipate. If the smell persists or is strong, discontinue use and contact customer support.

7. SPECIFICATIONS

Feature	Detail
Model Number	S5502
Plate Size	1 inch
Plate Material	Ceramic, Titanium
Maximum Heat	450°F
Heat Settings	8 Digital Settings
Heat-Up Time	30 seconds
