

KOTARBAU R275K

KOTARBAU Wooden Sandbox with Cover and Benches (120x120 cm)

Model: R275K

INTRODUCTION

This manual provides essential information for the safe assembly, operation, and maintenance of your KOTARBAU Wooden Sandbox. Please read these instructions carefully before beginning assembly and retain them for future reference. This sandbox is designed to provide a secure and enjoyable outdoor play area for children.

PRODUCT FEATURES

- **Durable Construction:** Crafted from certified pine wood, ensuring longevity and stability for outdoor use.
- **Functional Design:** Features two foldable benches that convert into a protective cover, safeguarding the sand from debris and animals.
- **Weed-Proof Fabric:** Includes a ground fabric to prevent weeds and mixing of sand with soil.
- **Easy Assembly:** Components are designed with pre-drilled holes for straightforward and quick setup.
- **Natural Aesthetic:** The natural wood finish integrates seamlessly into various garden environments.

SAFETY INFORMATION

- Adult supervision is required at all times when children are using the sandbox.
- Ensure all screws and fasteners are securely tightened before use. Regularly check for loose parts.
- The sandbox is intended for outdoor use only.
- Do not allow children to climb on the edges or cover when it is closed, as this may cause injury or damage to the product.
- Use only clean, child-safe play sand.
- This product is suitable for children aged 18 months to 10 years.

PACKAGE CONTENTS

The KOTARBAU Wooden Sandbox package includes:

- Pre-cut wooden panels for the sandbox frame and benches/cover.

- Assembly hardware (screws, hinges).
- Weed-proof ground fabric.
- Protective tarp.
- Instruction manual.

SETUP AND ASSEMBLY

Assembly is designed to be straightforward with pre-drilled holes. An electric screwdriver is recommended for efficiency.

1. **Prepare the Area:** Choose a flat, level outdoor surface for the sandbox. Clear any debris or sharp objects.
2. **Lay the Ground Fabric:** Place the provided weed-proof fabric on the chosen spot. This will prevent weeds from growing through the sand and keep the sand clean. Secure the fabric to the ground or the bottom of the sandbox frame if possible.
3. **Assemble the Sandbox Frame:** Connect the wooden panels to form the main sandbox frame using the provided screws. Ensure all connections are tight and stable.
4. **Attach the Benches:** Assemble the two foldable benches according to the instructions. Attach them to the sandbox frame using the hinges. Ensure the hinges allow for smooth opening and closing.
5. **Fill with Sand:** Once the frame and benches are securely assembled, fill the sandbox with approximately 180 kg of clean play sand. Do not overfill.
6. **Final Check:** Verify that all components are correctly assembled and all fasteners are tightened.

Video: Instructional video demonstrating the assembly of a wooden sandbox. Note: The sandbox shown in this video is 98x98 cm, while this product is 120x120 cm. The assembly principles remain similar.

OPERATING INSTRUCTIONS

- **Opening the Sandbox:** Gently lift the foldable benches outwards to reveal the sand play area. The benches will serve as seating for children.
- **Closing the Sandbox:** When play is finished, fold the benches inwards until they meet in the middle, forming a complete cover over the sand. This protects the sand from rain, leaves, and animals.
- **Using the Protective Tarp:** For additional protection, especially during extended periods of non-use or adverse weather, place the provided blue tarp over the closed sandbox.

Image: The versatile benches fold down to create a secure cover, protecting the sand from elements and animals.

Image: For enhanced protection, the sandbox can be covered with its integrated wooden lid and an additional weather-resistant tarp.

MAINTENANCE

- **Cleaning:** Regularly clean the wooden surfaces with a damp cloth. Avoid harsh chemicals that could damage the wood or be harmful to children.
- **Sand Care:** Periodically rake the sand to aerate it and remove any foreign objects. Replace the sand if it becomes contaminated or excessively dirty.
- **Wood Treatment:** Although the wood is treated, periodic re-treatment with a child-safe wood sealant or stain is recommended to prolong its lifespan and maintain its appearance, especially in harsh weather conditions.
- **Inspection:** Regularly inspect all wooden parts for splinters, cracks, or signs of wear. Check all screws and hinges for tightness and re-tighten as needed.
- **Winter Storage:** During winter months or prolonged periods of non-use, it is advisable to cover the sandbox with the protective tarp or store it in a sheltered area to protect it from extreme weather.

TROUBLESHOOTING

- **Missing Parts:** If any parts are missing upon delivery, please contact KOTARBAU customer support immediately for assistance.
- **Difficulty in Assembly:** Ensure you are following the instructions step-by-step. Verify that all pieces are oriented correctly. If issues persist, refer to the assembly video or contact support.
- **Loose Components:** Regularly check and tighten all screws and fasteners to ensure the sandbox remains stable and safe.
- **Wood Splinters/Cracks:** Sand down any small splinters to prevent injury. For larger cracks, assess if the structural integrity is compromised and contact support if necessary.

SPECIFICATIONS

Feature	Detail
Brand	KOTARBAU
Model Number	R275K
Material	Pine Wood
Color	Natural Wood
Dimensions (L x W x H)	120 cm x 120 cm x 40 cm (with benches)
Sandbox Height	22 cm
Board Thickness	2 cm
Recommended Sand Quantity	Approx. 180 kg
Product Weight	25 kg
Minimum Recommended Age	18 months
Maximum Recommended Age	10 years
Country of Origin	Poland
