

## Maliton ITPBK

# Maliton Inflatable Travel Pillow

Model: ITPBK

## 1. INTRODUCTION

---

Thank you for choosing the Maliton Inflatable Travel Pillow. This pillow is designed to provide optimal comfort and support for your head, neck, and lumbar region during travel or rest. Its ergonomic design and portable nature make it an ideal companion for various situations.

## 2. PRODUCT FEATURES

---

- **Multi-functional Support:** Designed to support your head, neck, and lumbar area, helping to alleviate neck and shoulder pain.
- **Ergonomic Design:** Features multiple angles and openings, allowing for comfortable head and neck support, including options for side sleeping or hugging the pillow. This design promotes better posture and comfort.
- **Comfortable Material:** Constructed from strong, washable, and soft PVC-flocking fabric, providing a gentle and soothing touch for enhanced comfort.
- **Easy Inflation & Deflation:** Inflates quickly with approximately 5-10 breaths and deflates in about 5 seconds by opening the air valve.
- **Compact & Portable:** Ultra-lightweight and compact, slightly larger than a grapefruit when deflated, and comes with a drawstring bag for easy storage and transport.

## 3. SETUP: INFLATION AND DEFLATION

### Inflation Instructions:

1. Locate the large air valve on the pillow.
2. Open the valve cap.
3. Inflate the pillow by blowing air into the valve. Approximately 5 to 10 deep breaths are usually sufficient to inflate the pillow to about 90% capacity.

4. Once inflated to your desired firmness, securely close the valve cap.

### Deflation Instructions:

1. Open the large air valve cap.
2. Pull out the small stopper inside the air valve.
3. Gently squeeze the pillow to release the air. The pillow should deflate completely within approximately 5 seconds.
4. Once deflated, close the valve cap.

## Large Air Valve Inflate and Deflate Faster

Inflation Time:  
5~10 deep breaths

Deflation Time:  
5 seconds

## 4. OPERATING INSTRUCTIONS

---

The Maliton Inflatable Travel Pillow offers versatile usage options to suit various environments and personal preferences for comfort.

### Recommended Usage Positions:

- **Forward-Facing Support:** Place the pillow on a tray table or your lap and lean forward, resting your head in the central opening. This position provides excellent neck and head support, ideal for sleeping upright.
- **Side Support:** Turn the pillow to the side and rest your head against it, utilizing the side openings for arm placement. This is suitable for side sleepers or when leaning against a window.
- **Hugging Position:** Embrace the pillow, resting your head on top or to the side, providing a sense of security and comfort.
- **Lumbar Support:** Position the pillow behind your lower back for additional lumbar support, especially useful in car seats or office chairs.

## 5. MAINTENANCE

To ensure the longevity and hygiene of your Maliton Inflatable Travel Pillow, follow these maintenance guidelines:

- **Cleaning:** The pillow is machine washable. For best results, wash on a gentle cycle with cold water.
- **Drying:** Air dry the pillow completely before storing. Avoid direct sunlight or high heat, which can damage the PVC material.

- **Spot Cleaning:** For minor spills or stains, use a damp cloth with mild soap and gently wipe the affected area. Rinse thoroughly and air dry.
- **Avoid Harsh Chemicals:** Do not use bleach or strong detergents, as these can degrade the fabric and material.

## 6. STORAGE AND PORTABILITY

---

The Maliton Inflatable Travel Pillow is designed for easy storage and maximum portability.

### Storage Instructions:

1. Ensure the pillow is completely deflated and dry before storage.
2. Fold or roll the pillow neatly to its compact size.
3. Place the folded pillow into the provided drawstring storage bag.
4. Store in a cool, dry place away from sharp objects and direct sunlight.

## 8. TROUBLESHOOTING

If you encounter any issues with your Maliton Inflatable Travel Pillow, please consider the following:

- **Pillow not holding air:** Ensure the air valve cap is securely closed and the inner stopper is fully seated after inflation. Check for any visible punctures or damage to the pillow material.
- **Difficulty inflating:** Make sure the valve is fully open and unobstructed. Take deep, steady breaths when inflating.
- **Discomfort during use:** Adjust the inflation level to find your preferred firmness. Experiment with different resting positions as described in the Operating Instructions section.

## 9. WARRANTY AND SUPPORT

Maliton is committed to providing high-quality products and customer satisfaction. While specific warranty details are not provided in this manual, if you experience any problems with your Maliton Inflatable Travel Pillow, please do not hesitate to contact our customer support team.

We aim to respond to all inquiries within 24 hours to assist you with any concerns or issues you may have. Your comfort and satisfaction are our priority.
