OLEVS SC-G5885-5

OLEVS Luxury Quartz Watch

USER MANUAL

Model: SC-G5885-5

Product Overview

The OLEVS SC-G5885-5 is a luxury men's analog quartz watch designed for business and dress wear. It features a classic big dial, reliable quartz movement, and a high-hardness coated glass mirror for wear and scratch resistance. The stainless steel band with a butterfly double buckle ensures comfortable wear. This watch combines elegant design with practical features, including a day display and luminous hands.

Key Features

- **Quartz Movement:** Ensures stable and accurate timekeeping.
- **High Hardness Coated Glass:** Provides wear-resistant and scratch-proof protection for the dial.
- **Stainless Steel Band:** Durable and comfortable with a butterfly double buckle.
- **Analog Date Calendar Display:** Conveniently shows the current date.

- **Luminous Hands/Markers:** Allows for visibility in low-light conditions.
- **30M Water Resistance:** Suitable for daily use, including hand washing and swimming, but not for deep diving or hot water exposure.

Setup

Adjusting the Watch Band

The watch band can be adjusted to fit your wrist size. The product includes a tool for removing links. Carefully follow the arrows on the inside of the watch band to push out the pins in the indicated direction. Ensure the band is held firmly to prevent the tool from slipping. If you are unsure, it is recommended to seek professional assistance for band adjustment.

DESCRIPTION OF DIMENSIONS

Figure 3: Watch dimensions, including band length (8.66 inches / 220mm) and width (0.79 inches / 20mm), relevant for band adjustment.

Setting Time and Date

1. Pull the crown (the small knob on the side of the watch) out to the first click to set the date. Rotate the crown until the correct date is displayed.
2. Pull the crown out to the second click to set the time. Rotate the crown to move the hour and minute hands to the correct time.
3. Once the time and date are set, push the crown back in to its original position to start the watch.

Activating Luminous Function

For the first use of the luminous pointer function, please illuminate the watch under a light source for at least 30 seconds to activate the luminous material. This will allow the hands and markers to glow in the dark.

Operating Instructions

Timekeeping

The OLEVS quartz watch provides precise timekeeping. Ensure the crown is fully pushed in for continuous operation. The watch features an analog display with hour, minute, and second hands, along with a date window.

Bezel Function

The watch features a unidirectional rotating bezel, primarily designed to assist users in monitoring elapsed time. To use, align the triangle marker on the bezel with the minute hand at the start of your desired timing period. As time passes, the minute hand will move, and you can read the elapsed time against the bezel's markings. The bezel's edge groove increases friction, facilitating rotational adjustment.

Bezel timekeeping

“Dive Circle” , mainly assisting divers to monitor dive time alerts
This ensures the safety of the diver.

Figure 4: Illustration of the bezel timekeeping function, showing how to set and read elapsed time.

Maintenance

Water Resistance

This watch is water-resistant up to 30 meters (3ATM), making it suitable for everyday use such as hand washing, rain exposure, and brief immersion in water like swimming. **Important:** Do not use the watch in hot water, as this can compromise the water resistance. Avoid pressing buttons or adjusting the crown while the watch is wet or submerged.

Cleaning

To maintain the appearance of your watch, regularly wipe the case and band with a soft, dry cloth. For the stainless steel band, a slightly damp cloth can be used, followed by a dry one. Avoid using harsh chemicals or abrasive materials, as these can damage the watch's finish.

Storage

When not wearing the watch, store it in a cool, dry place away from direct sunlight, extreme temperatures, and strong magnetic fields. Keeping it in its original box or a watch case can help protect it from dust and scratches.

Troubleshooting

If you encounter any issues with your OLEVS watch, please refer to the following common troubleshooting tips:

- **Watch Not Running:** Ensure the crown is fully pushed in. If the watch still does not run, the battery may need replacement.
- **Date Not Changing:** Check if the time is set correctly, especially the AM/PM cycle. The date typically changes around midnight. If it's stuck, try manually advancing the date using the crown.
- **Condensation Under Glass:** If condensation appears under the glass, it indicates a potential breach in water resistance. Avoid further water exposure and seek professional inspection.

For any persistent problems or issues not covered here, please contact the seller directly for support.

Specifications

Item Model Number	SC-G5885-5
Product Dimensions	8.66 x 1.61 x 0.43 inches (220 x 41 x 11 mm)
Item Weight	4.16 ounces (118 g)
Case Diameter	1.61 inches (41 mm)
Case Thickness	0.43 inches (11 mm)
Band Width	0.79 inches (20 mm)
Clasp Type	Push Button Foldover Clasp With Safety
Water Resistance Depth	30 Meters (3ATM)
Movement Type	Quartz

Warranty and Support

For any problems or inquiries regarding this product, please contact the seller directly. They will provide assistance and information regarding warranty coverage and service options.
