Air-Scent AMZKIT-HOTELTOP

Air-Scent Hotel Collection Fragrance Oil Set

Instruction Manual for Model AMZKIT-HOTELTOP

1. PRODUCT OVERVIEW

The Air-Scent Hotel Collection Fragrance Oil Set provides a selection of concentrated aroma oils designed for various diffusion methods and crafting applications. This set includes five distinct 10 mL fragrance oils, each formulated to deliver a unique aromatic experience.

Air-Scent, as a fragrance manufacturer, ensures that these oils are highly concentrated and free from dilution, cutting, or repackaging by intermediaries. The production process is overseen in-house to maintain quality and performance.

2. SAFETY INFORMATION

Adherence to the following safety guidelines is crucial for proper handling and use of the fragrance oils:

- **Storage:** Store the product in a cool, dry place, away from direct sunlight and heat sources. This helps maintain product quality and safety.
- **Children and Pets:** Keep this product out of reach of children and pets. It is not suitable for consumption.
- **Ingestion:** This product is intended for use in fragrance applications only. Do not ingest.
- **Eye Contact:** In case of accidental contact with eyes, thoroughly rinse eyes with water immediately.
- **Skin Contact:** Avoid prolonged direct contact with skin. If irritation occurs, wash the affected area with soap and water.

3. PRODUCT CONTENTS

Each Air-Scent Hotel Collection Fragrance Oil Set contains:

- Five (5) 10 mL bottles of concentrated fragrance oil.
- Scents included: The Beach House, My Way, and other hotel-inspired fragrances.

Ingredients: Aroma and Essential Oils. These oils are IFRA Compliant and free from parabens, phthalates, and carrier oils.

4. USAGE INSTRUCTIONS

These fragrance oils are versatile and can be used with various diffusers and for crafting purposes. Follow the specific instructions for your intended application.

4.1. For Waterless Diffusers

1. Ensure your diffuser is compatible with pure fragrance oils (also known as diffuser oils).
2. Add the fragrance oil directly into the diffuser reservoir bottle. Refer to your diffuser's manufacturer recommendations for the appropriate amount.
3. Turn on the diffuser and adjust settings according to the device's instructions to achieve your desired scent intensity.

Image 4.1: Demonstrating the addition of fragrance oil to a diffuser.

4.2. For Water-Based Diffusers

1. Ensure the water in your diffuser is clean.
2. Fill the reservoir with water up to the indicated maximum level.
3. Add 3-5 drops of fragrance oil. Do not exceed the recommended amount to prevent oversaturation or damage to the diffuser.

4.3. For Reed Diffusers

1. Pour the fragrance oil into the provided bottle up to the fill line.
2. Insert the reeds into the bottle. The number of reeds can be adjusted to control scent strength; typically, start with 5-7 reeds.
3. Flip the reeds once a week, or as needed, to refresh the scent and maintain diffusion.

4.4. For Humidifiers

1. Add 1-2 drops of fragrance oil per gallon of water.
2. Always follow the humidifier manufacturer's guidelines if provided, to ensure safe and effective oil dispersion.

4.5. For HVAC Filters

1. Place 4-6 drops of fragrance oil directly onto your HVAC filter in an area with high airflow.
2. Reapply weekly, or when the scent diminishes, to maintain freshness throughout your space.

4.6. For Crafting Applications

These oils are suitable for various crafting projects, including candle making and soap making. Always follow specific craft recipes and safety guidelines for your chosen project.

Image 4.6.1: Fragrance oils can be incorporated into candle making.

Image 4.6.2: Fragrance oils are also suitable for soap making.

5. CARE AND MAINTENANCE

To ensure the longevity and effectiveness of your fragrance oils:

- Keep bottle caps tightly sealed when not in use to prevent evaporation and maintain scent integrity.
- Store bottles upright to prevent leakage.
- Clean any spills immediately with a damp cloth to avoid damage to surfaces.

6. TROUBLESHOOTING

If you encounter issues with your fragrance oils, consider the following:

- **Weak Scent:**
 - For diffusers: Ensure the diffuser is clean and functioning correctly. Increase the number of drops

- or adjust diffuser settings if applicable.
- For reed diffusers: Flip the reeds to refresh the scent. Consider adding more reeds for a stronger diffusion.
 - Ensure the room size is appropriate for the diffusion method. Larger spaces may require more oil or a more powerful diffuser.
- **Scent Discoloration:** Natural variations in aroma and essential oils can sometimes lead to slight color changes over time. This typically does not affect the oil's performance or safety.
 - **Oil Leakage:** Ensure bottle caps are securely tightened. Store bottles upright on a stable surface.

7. SPECIFICATIONS
