# Product Size & Package List

225mm/8.85inch

285mm/11.22inch

175mm/6.88inch

305mm/12.00inch

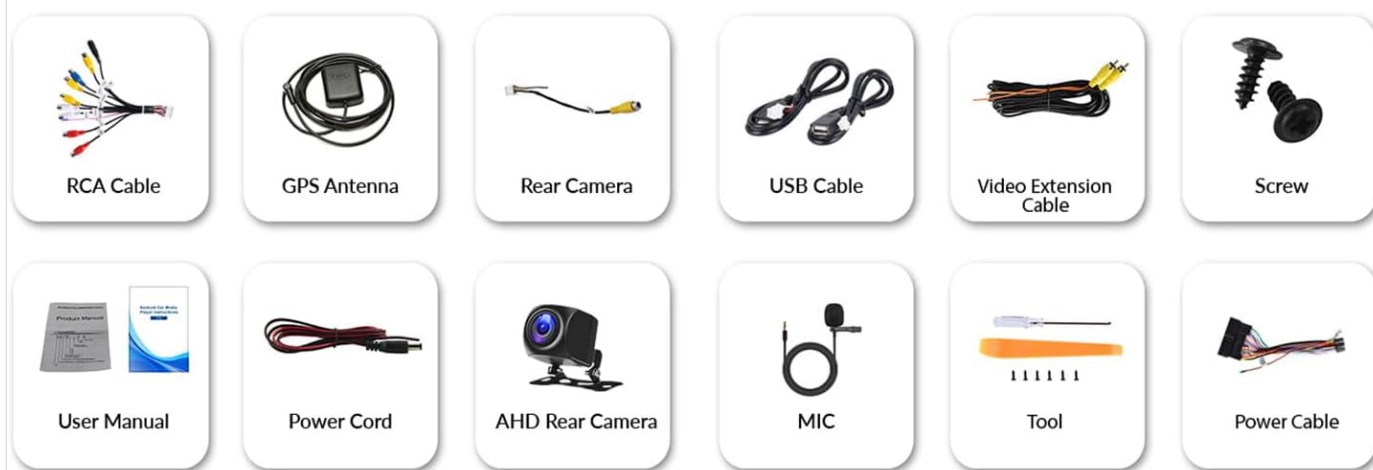

Image: A diagram illustrating the dimensions of the 10.1-inch car stereo and a comprehensive list of included accessories such as RCA cable, GPS antenna, rear camera, USB cable, video extension cable, screws, user manual, power cord, AHD rear camera, microphone, tool, and power cable.

## Wiring and Connections

Proper wiring is crucial for optimal performance. Refer to the following guidelines for connecting the rear view camera:

# Reversing Display

Waterproof night vision camera, reversing image is clearer. Automatically switch the reverse image when in reverse gear.

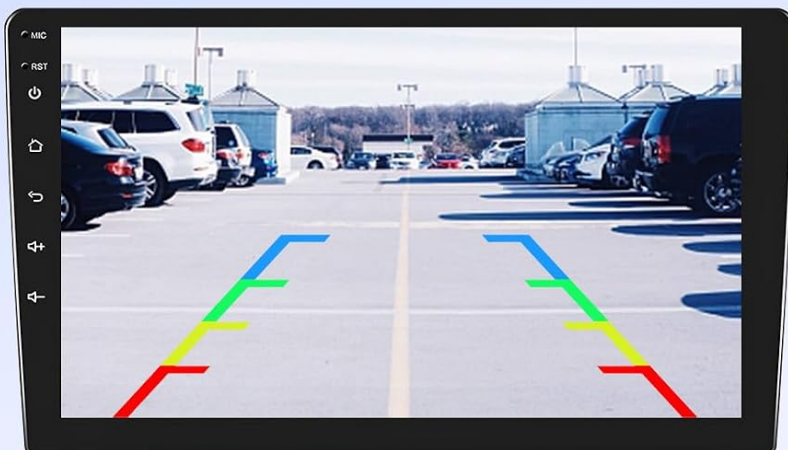

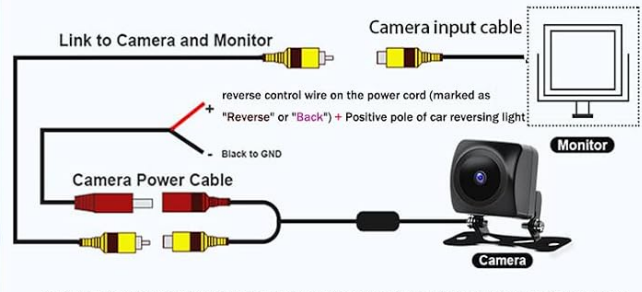

Image: A wiring diagram for the reversing camera system, showing connections from the camera to the monitor via camera input cable, camera power cable, and a reverse control wire connected to the positive pole of the car reversing light.

**Important:** Ensure all connections are secure before powering on the unit. For detailed vehicle-specific wiring, consult your vehicle's service manual or a professional installer.

## OPERATING INSTRUCTIONS

### System Overview

The SIXTOP Android Car Stereo features an 8-core chip with 2GB RAM and 64GB internal storage, providing a fast and stable user experience with built-in Bluetooth 5.0.

### CarPlay and Android Auto

Synchronize your smartphone's functions, including phonebook, email, notifications, navigation, and music apps. Supports voice control via your mobile phone's voice assistant.

- **Wireless Connection:** Ensure your phone's WiFi is on. Connect via Bluetooth, then open the [CPLINK] or [Android

Auto] app on the stereo to automatically connect.

- **USB Connection:** Use a USB cable to connect your phone, then open the [CPLINK] or [Android Auto] app.

## Apple Carplay/Android Auto& Mirror Link

Apple Carplay/Android Auto: Synchronize mobile phone text messages, make calls, mobile phone navigation software, online music software, etc.

Support calling the mobile phone voice assistant.

Mirror link: the screen of the mobile phone can be transmitted to the radio.

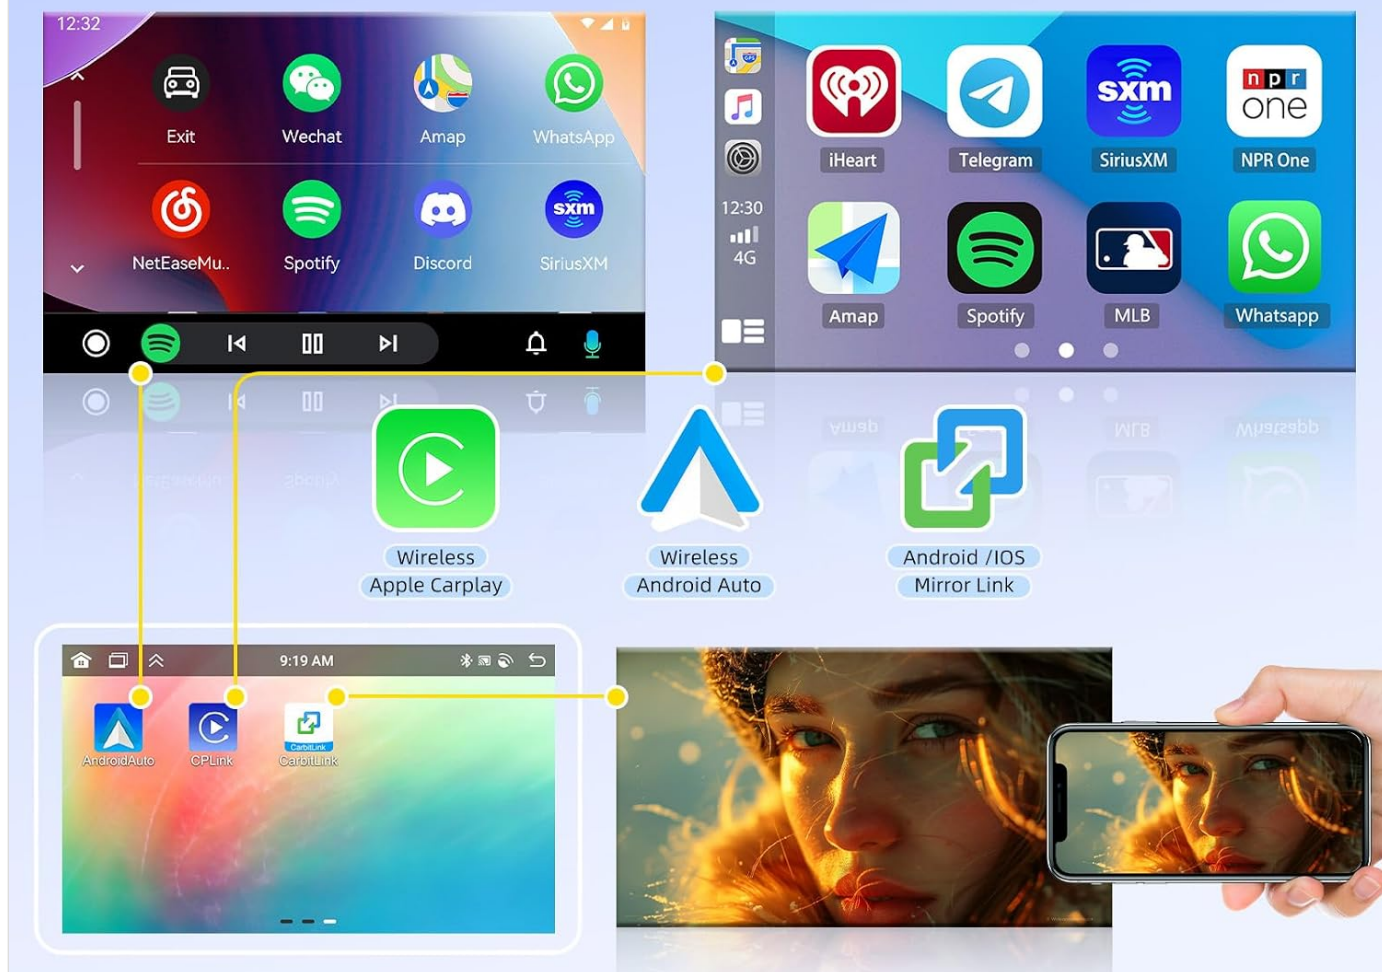

Image: Screenshots demonstrating Apple CarPlay and Android Auto interfaces, along with the Mirror Link function, showing how mobile phone screens can be mirrored onto the car stereo display.

### Mirror Link Function

Project your mobile phone screen onto the car stereo. This is ideal for viewing downloaded videos or other content from your phone.

- Select the [CarbitLink] app on the stereo.
- Connect your phone via WiFi.

### DSP 32EQ Sound Effects

Enhance your audio experience with a variety of sound effects optimized for car environments, including 3D optimized, Panorama, and HiFi scene. Adjust settings to compensate for original car speaker limitations and achieve better lossless sound quality.

# DSP 32EQ

A variety of mainstream sound effects designed for car scenes create the ultimate hearing experience such as 3D optimized, Panorama, HiFi scene, etc, to make up for the lack of speakers in the original car and get better lossless sound quality. Various popular sound effects can be adjusted at will to enjoy the perfect car audio quality.

Image: Screenshots of the DSP 32EQ interface, showing various sound effect presets like Standard, Rock, Pop, Live, Dance, and Classical, along with detailed equalizer and sound field adjustment options.

## FM/RDS & Network Radio

Access news, music, weather forecasts, and traffic information. Supports traditional FM/RDS radio stations and network radio with content from over 20 countries and regions.

# FM/RDS & Network Radio

You can listen to news, music, weather forecast, traffic information. Support radio stations FM/RDS, add fun to the boring car journey. Network radio: With mainstream radio stations covering more than 20 countries and regions, you can listen freely to any realtime and popular content in global from your car radio.

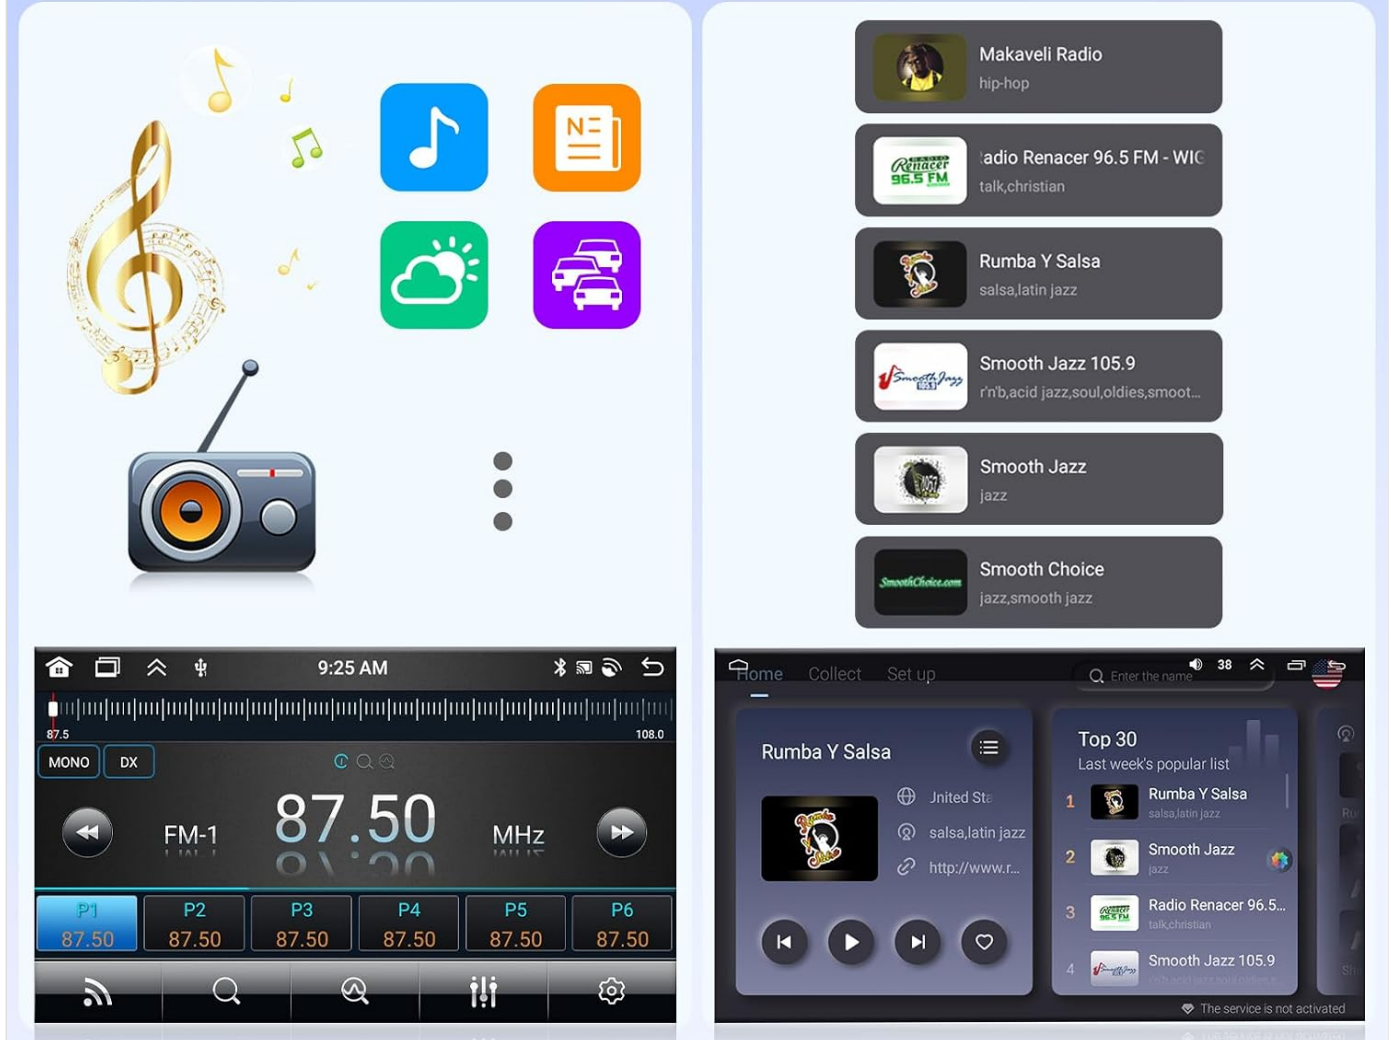

Image: Screenshots of the FM/RDS radio interface displaying frequency tuning and preset stations, alongside the network radio interface showing a list of online radio stations like Makaveli Radio and Rumba Y Salsa.

## AI Intelligent Voice Control

Activate the smart voice assistant by clicking the Voice APP. Issue commands for various functions:

- Calling contacts from your address book.
- Playing music.
- FM tuning and searching.
- Opening installed applications.

Example: Say "Play Michael Jackson's song" to play music by Michael Jackson.

# AI Intelligent Voice

Click on the Voice APP to wake up the smart voice robot, then tell him your needs, the cute AI robot will execute it. For example: calling contacts in the address book, playing music from the radio, FM tuning and searching, opening the installed applications in the radio, etc.

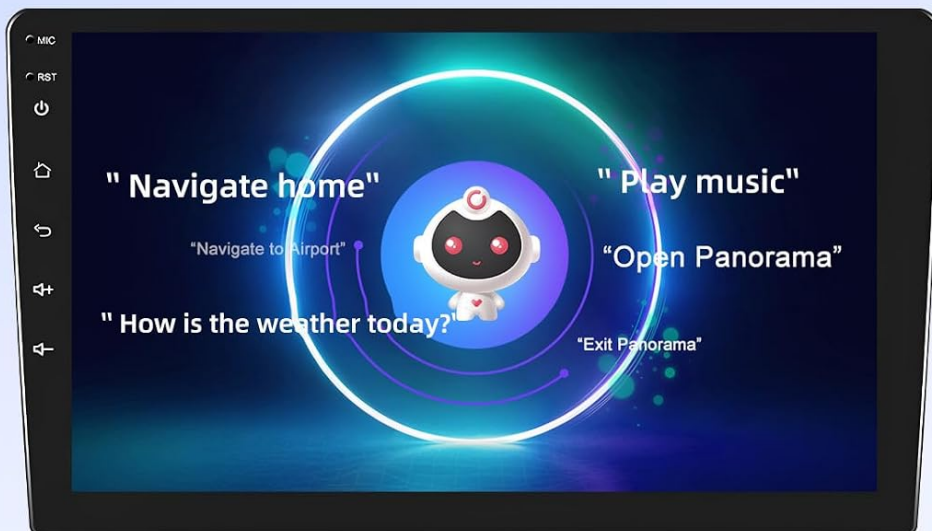

Image: A visual representation of the AI Intelligent Voice control feature, showing example voice commands such as "Where is the nearest gas station?", "Call Laura.", "Play music", and "Send a message to Ben using WhatsApp."

## WiFi and GPS Navigation

Connect to WiFi to download applications, stream online music, and watch videos (e.g., YouTube). The system supports GPS satellite positioning, allowing you to download offline navigation maps from the Play Store. Online maps also function perfectly when connected to WiFi.

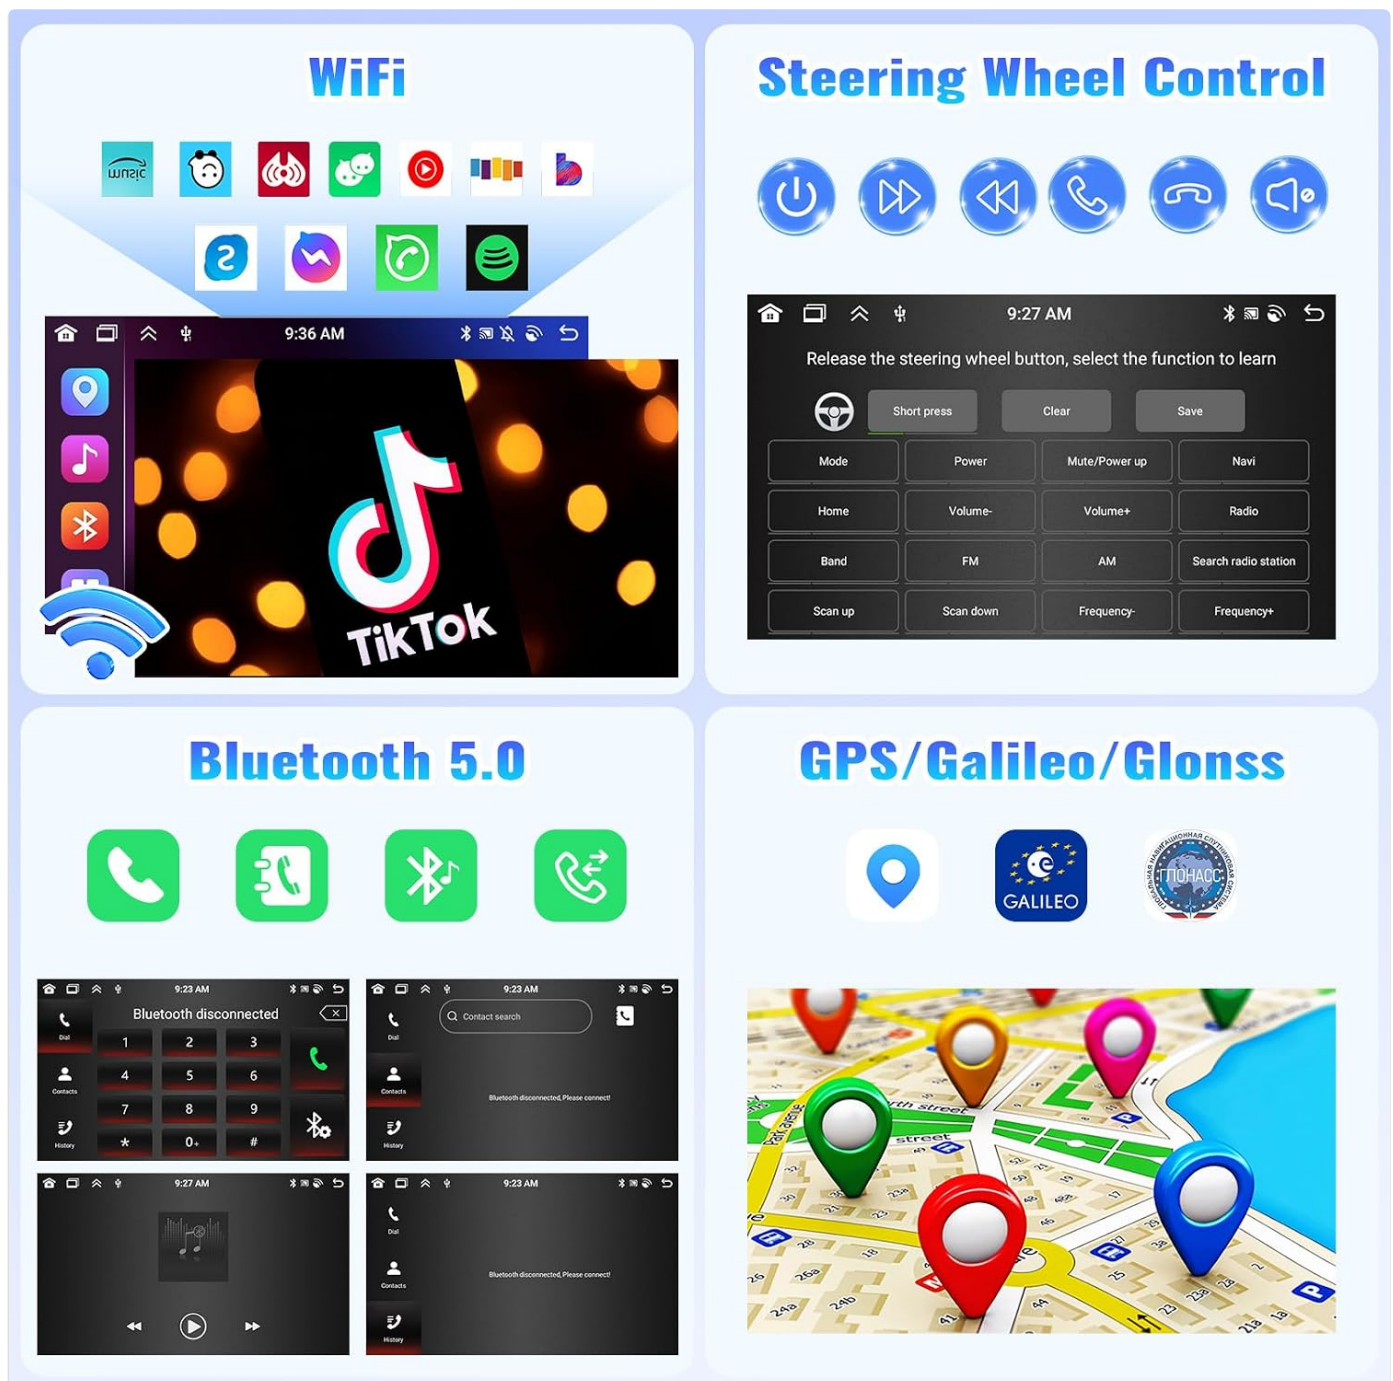

Image: A composite image showing various features: WiFi connectivity with app icons, Steering Wheel Control learning interface, Bluetooth 5.0 call and contact screens, and GPS/Galileo/Glonass navigation with map pins.

## 59 Radio Themes and Split Screen Function

Personalize your display with 59 different desktop themes. Long-press a blank space on the homepage to change themes. The split-screen function allows two applications to be displayed simultaneously. Click the rectangle at the top of the screen, select a browse page, and drag it to the left or right side.

# 59 UI Desktop Themes

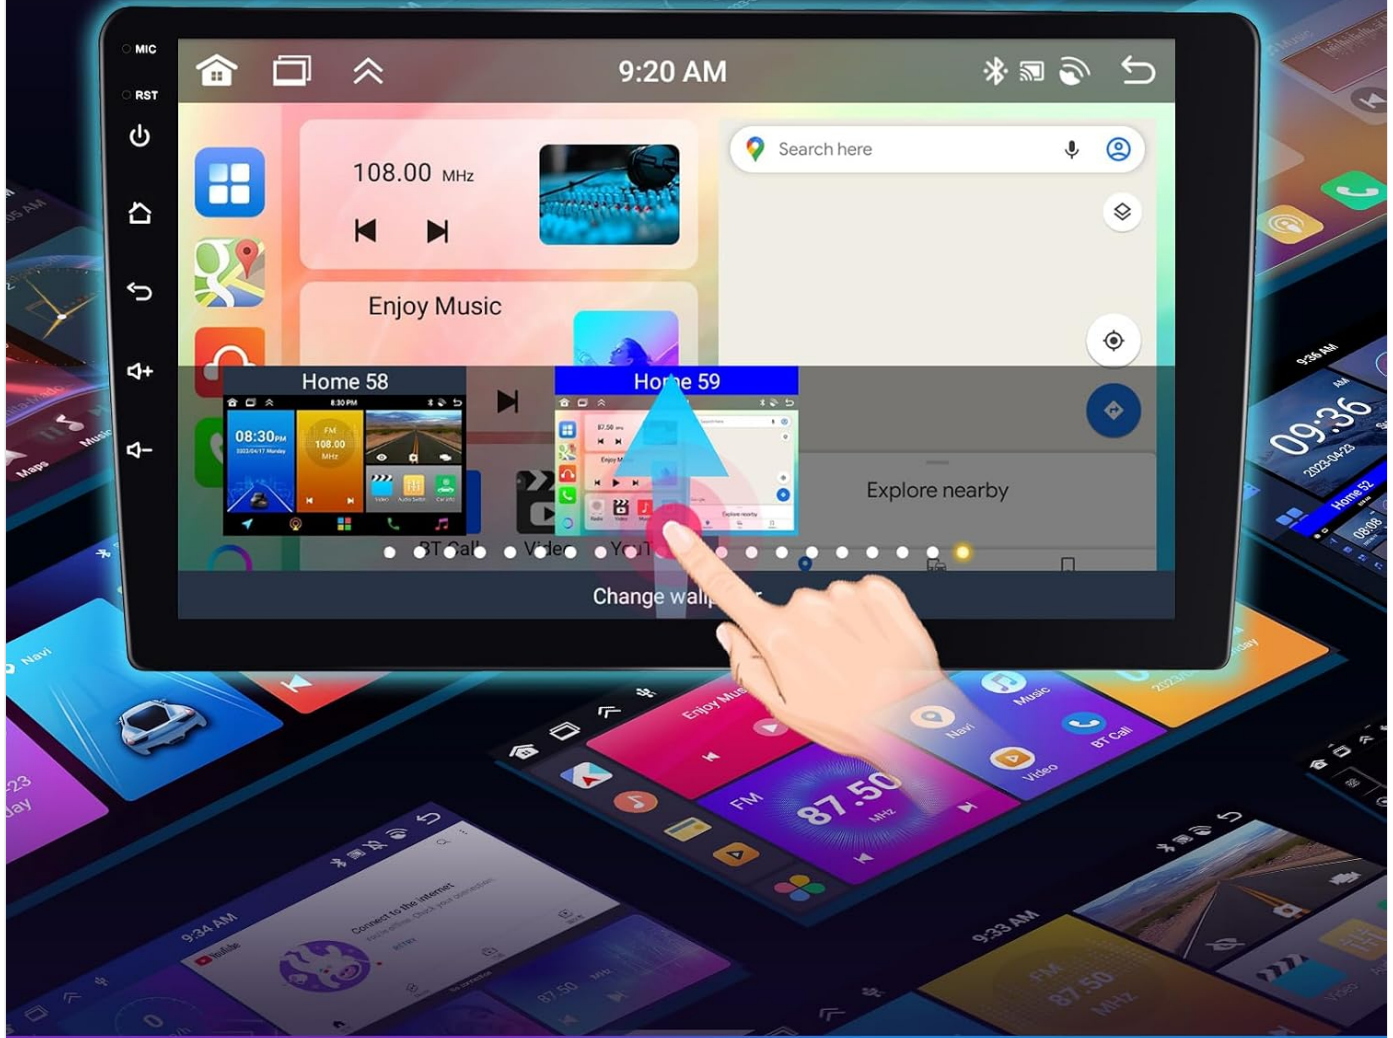

Image: A collage of various UI desktop themes available for the car stereo, demonstrating the wide range of visual customization options.

## Steering Wheel Control (SWC)

Control the car audio system using your vehicle's original steering wheel buttons for convenience and safety. Ensure to set up the steering wheel buttons in the car settings menu first.

## Global Weather Display

View real-time weather information for global cities, including temperature (Celsius and Fahrenheit), humidity, and wind conditions, when connected to the network.

## MAINTENANCE

### Cleaning

Use a soft, dry cloth to clean the screen and exterior of the unit. Avoid abrasive cleaners or solvents that may damage the surface.

## Software Updates

Periodically check for software updates to ensure optimal performance and access to new features. Updates can typically be performed via WiFi connection through the system settings.

## TROUBLESHOOTING

| Problem                                     | Possible Cause                                              | Solution                                                                                              |
|---------------------------------------------|-------------------------------------------------------------|-------------------------------------------------------------------------------------------------------|
| No power                                    | Incorrect wiring; Blown fuse                                | Check power connections; Inspect and replace fuse if necessary.                                       |
| No sound                                    | Volume too low; Mute activated; Speaker wiring issue        | Increase volume; Deactivate mute; Check speaker connections.                                          |
| CarPlay/Android Auto not connecting         | Bluetooth/WiFi off; Incorrect app selected; USB cable issue | Ensure Bluetooth/WiFi is on; Select correct app ([CPLINK]/[Android Auto]); Try a different USB cable. |
| Rear camera image unclear or not displaying | Camera connection loose; Incorrect camera settings          | Check camera wiring; Verify camera resolution in radio factory settings (AHD: 720P 25fps).            |
| GPS signal weak or inaccurate               | GPS antenna obstructed or improperly installed              | Ensure GPS antenna has a clear view of the sky and is securely connected.                             |

If problems persist, please contact customer support.
