SIXWIN 1

SIXWIN Android 13 Autoradio User Manual

For Nissan Qashqai J10 (2006-2016)

1. PRODUCT OVERVIEW

This manual provides detailed instructions for the installation, operation, and maintenance of your SIXWIN Android 13 Autoradio. This unit is designed to enhance your driving experience with its 9-inch HD touchscreen, integrated Bluetooth, WiFi, USB, FM radio, and Mirror Link capabilities.

For Nissan Qashqai J10 2006-2016

Figure 1.1: Before and after installation of the SIXWIN Autoradio in a Nissan Qashqai J10 dashboard. The new unit replaces the original stereo system, providing a larger display and modern features.

2. COMPATIBILITY

This autoradio is specifically designed for **Nissan Qashqai J10 models manufactured between 2006 and 2016**. Please verify your original car's center console and CD back type before installation to ensure compatibility.

CAR MODELS Attention

Please confirm your original car center console before purchasing. Our products only support Type A and C products and do not support Type B and D products. If you are interested in purchasing Type B products, please contact customer service for consultation.

Figure 2.1: Car Model Compatibility. Ensure your vehicle's center console matches Type A or C, and the CD back matches Type C for proper installation. Type B and D are not supported.

3. PACKAGE CONTENTS

Verify that all items listed below are included in your package:

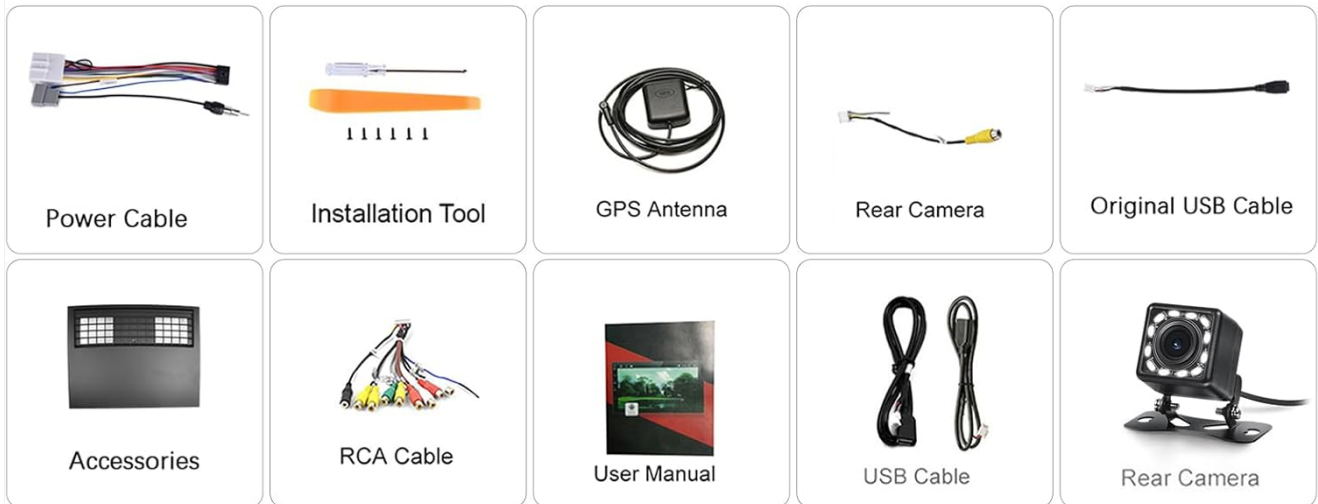

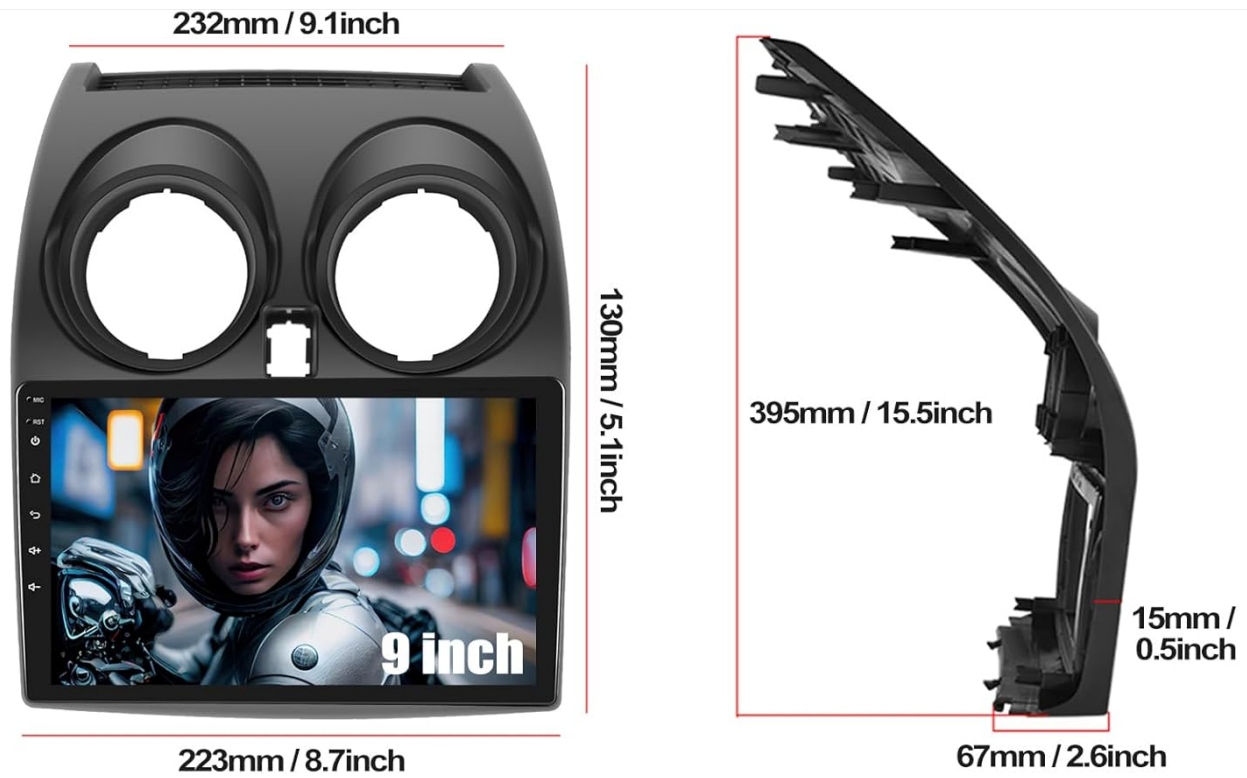

Figure 3.1: Product dimensions and included accessories. The package contains the main unit, power cable, installation tool, GPS antenna, rear camera, original USB cable, additional accessories, RCA cable, user manual, and a USB cable.

- SIXWIN Android 13 Autoradio Unit (9-inch display)
- Power Cable
- Installation Tool
- GPS Antenna
- Rear Camera
- Original USB Cable
- RCA Cable
- USB Cable
- User Manual (this document)
- Additional Accessories (as pictured)

4. SETUP AND INSTALLATION

Installation should be performed by a qualified professional. Incorrect installation may damage the unit or your vehicle. Refer to the included wiring diagrams and the installation tool for proper setup.

1. **Disconnect Battery:** Before starting, disconnect the vehicle's negative battery terminal to prevent electrical shorts.
2. **Remove Old Unit:** Carefully remove the existing car stereo from the dashboard using appropriate tools.
3. **Connect Wiring:** Connect the provided power cable, RCA cables, USB cables, GPS antenna, and rear camera cable to the corresponding ports on the new autoradio and your vehicle's wiring harness. Ensure all connections are secure.
4. **Test Connections:** Before fully mounting, temporarily reconnect the battery and power on the unit to test basic functions (power, audio, display).
5. **Mount Unit:** Securely install the autoradio into the dashboard opening.
6. **Reconnect Battery:** Reconnect the vehicle's battery terminal.

Note: For specific wiring details, consult the detailed wiring diagram provided with your unit. If your vehicle has a factory-installed reverse camera, an additional adapter may be required (not included).

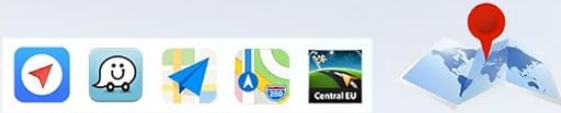

5. OPERATING INSTRUCTIONS

5.1. Built-in GPS Navigation

The unit comes with pre-installed maps for your country. It also supports other online navigation applications like Google Maps. Connect the GPS antenna for optimal signal reception.

Built-in GPS Navigation

- Support Music playback.

Figure 5.4: User interface for the 16-band equalizer, FM/RDS radio with preset stations, and Bluetooth 4.2 functions including hands-free calling and music playback.

5.8. FM/RDS Radio

The unit features an FM radio with 18 preset stations and supports RDS (Radio Data System) for displaying station information.

5.9. Built-in Bluetooth 4.2

Connect your smartphone via Bluetooth 4.2 for hands-free calling, automatic phone book loading, and wireless music playback.

6. MAINTENANCE

To ensure the longevity and optimal performance of your autoradio, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check for available software updates to ensure the system runs efficiently and has the latest features.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.

7. TROUBLESHOOTING

If you encounter issues with your autoradio, refer to the following common troubleshooting steps:

- **No Power:** Check all power connections and the vehicle's fuse box. Ensure the battery is properly connected.
- **No Sound:** Verify speaker connections, volume settings, and audio source selection.
- **Touchscreen Unresponsive:** Try restarting the unit. If the issue persists, a factory reset might be necessary (consult support).
- **GPS Signal Lost:** Ensure the GPS antenna is correctly installed and has a clear view of the sky.
- **Bluetooth Connection Issues:** Ensure Bluetooth is enabled on both the autoradio and your device. Try unpairing and re-pairing the devices.
- **System Slow/Apps Crashing:** This unit has 1GB RAM. For optimal performance, avoid running too many applications simultaneously. Consider closing background apps.

For further assistance, please contact customer support.
