6. MAINTENANCE AND CARE

Proper maintenance will extend the life and appearance of your patio bar set.

- **Cleaning:** Wipe all surfaces with a dry cloth. For stubborn dirt, use a mild soap solution and a soft cloth, then rinse thoroughly and dry. Avoid harsh chemicals or abrasive cleaners.
- **Canopy Care:** The polyester fabric canopy is sun-proof and water-resistant. Clean with a soft brush and mild soap solution if needed. Ensure it is completely dry before storing to prevent mildew.
- **Frame Care:** The powder-coated metal frame is designed for outdoor use. Inspect periodically for any signs of rust or damage. Touch up any scratches with appropriate outdoor paint to prevent rust.
- **Glass Tabletop:** Clean the tempered glass tabletop with a glass cleaner and a soft cloth.
- **Winter Storage:** In harsh weather conditions or during winter, it is recommended to disassemble and store the set indoors or cover it with a protective outdoor furniture cover to prolong its lifespan.

7. TROUBLESHOOTING

If you encounter any issues with your patio bar set, refer to the following common troubleshooting tips:

- **Gazebo Instability:** Ensure all frame bolts are securely tightened. Verify that the ground stakes are firmly anchored into the ground. If on a hard surface, consider using sandbags or weights on the legs for added stability.
- **Canopy Sagging/Pooling Water:** Check that the canopy is stretched taut and properly secured to the frame. The double-tier design is intended for ventilation; ensure it is not obstructed. Clear any debris from the canopy.
- **Difficulty Assembling:** Double-check the instruction manual and parts list. Ensure you are using the correct hardware for each step. Do not force parts together. If a part seems ill-fitting, re-examine the orientation.
