

Niccy 24x32 Inch

Niccy Irregular LED Bathroom Mirror (24x32 Inch) User Manual

Model: 24"L x 32"W

1. INTRODUCTION

Thank you for choosing the Niccy Irregular LED Bathroom Mirror. This manual provides essential information for the safe installation, operation, and maintenance of your new mirror. Please read it thoroughly before use and retain it for future reference.

5MM High-Resolution Copper-Free Silver Mirror

- No Ghosting
- No Distortion
- 1:1 HD Reflection
- Add an Authentic Touch of Luxury

Image 1.1: The Niccy Irregular LED Mirror is suitable for various spaces including living rooms, bathrooms, hotels, and bedrooms.

2. SAFETY INFORMATION

WARNING:

This product is safe for bathroom use but should not be used as the main lighting source. Always ensure proper bathroom lighting is installed separately. Caution should be taken when handling and mounting the mirror to prevent accidents.

The mirror is equipped with a high-quality explosion-proof film to prevent fragments from splashing in case of accidental rupture, enhancing safety for household members.

Support Plug-in or Wall Switch

Image 2.1: The Niccy mirror features a 5MM HD shatter-proof design, ensuring safety by preventing glass fragments from scattering upon impact.

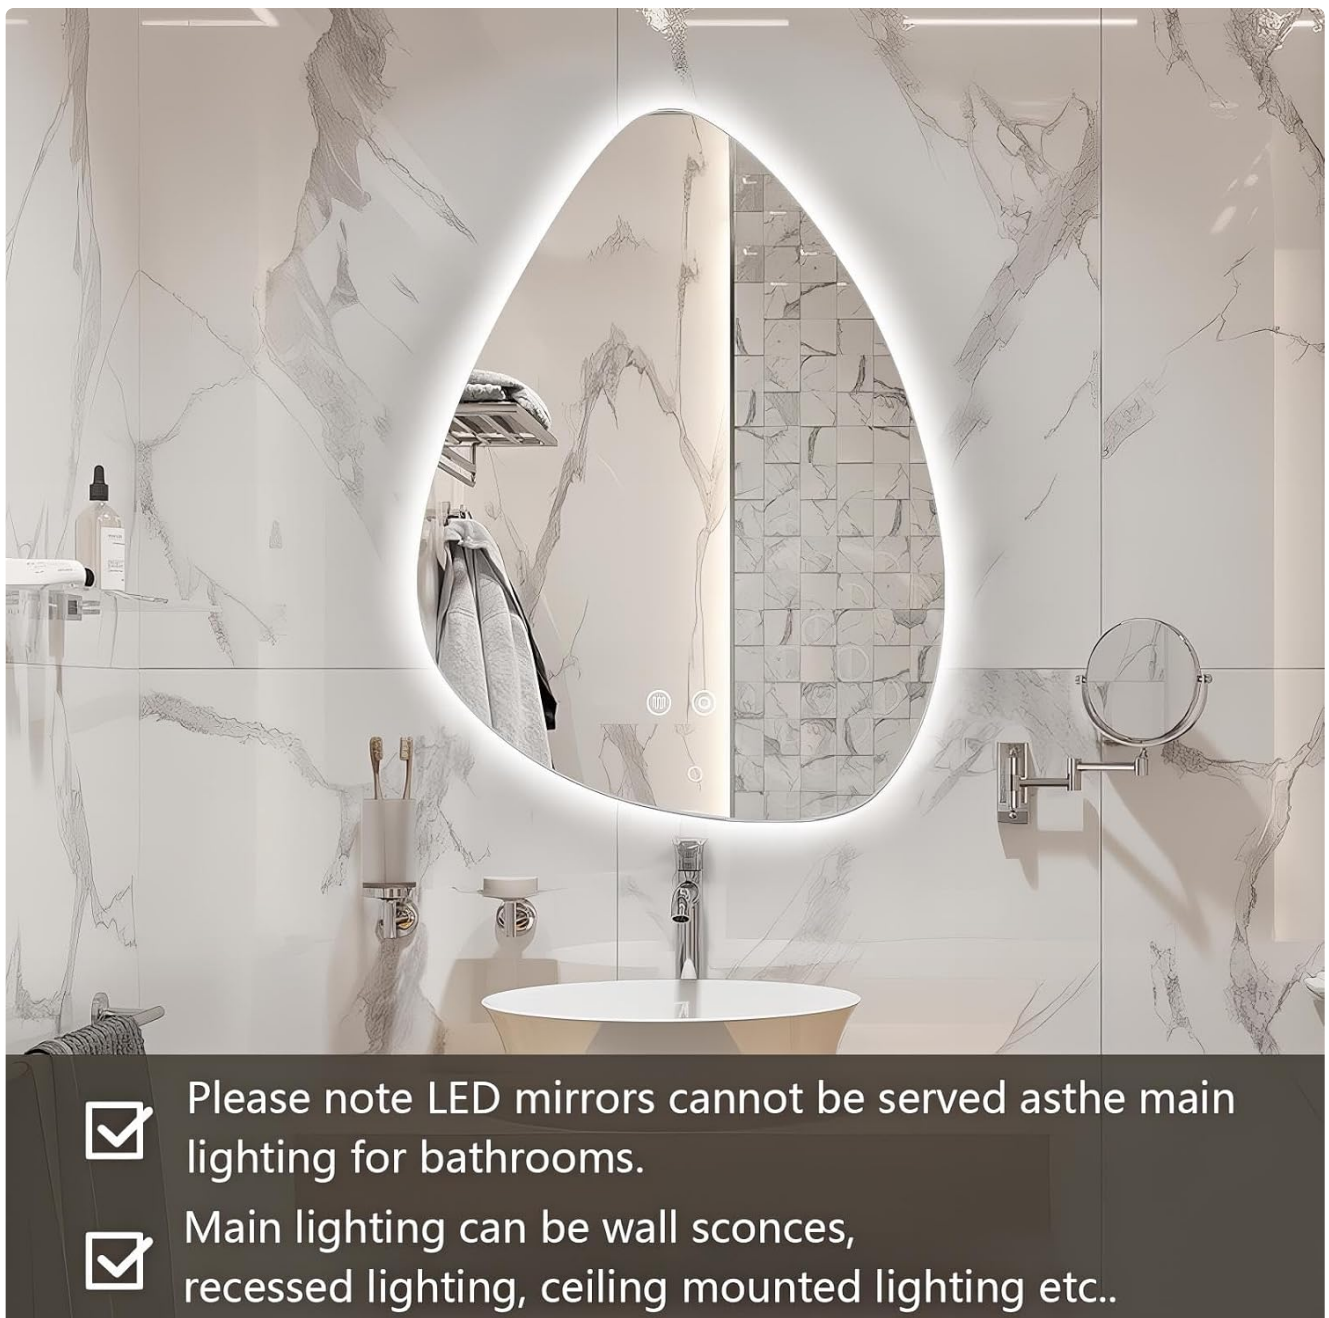

Image 2.2: LED mirrors are designed for ambient or task lighting and should not be the sole light source in a bathroom. Complementary lighting such as wall sconces or recessed lights is recommended.

3. PRODUCT FEATURES

- **Elegant Irregular Design:** Breaks from traditional shapes, offering a unique aesthetic with gentle curves to enhance any space.
- **Adjustable Lighting:** Features 3 color temperatures (3000K Warm, 4500K Natural, 6000K Cool) and 10%-100% stepless dimming.
- **Smart Anti-Fog Function:** Keeps the mirror clear, eliminating the need for manual wiping.
- **High-Definition Reflection:** Utilizes 4mm copper-free silver mirror for realistic, distortion-free imaging.
- **Memory Function:** Automatically retains the last lighting settings.
- **Durable & Safe:** IP65 waterproof rating, explosion-proof film, and LED lights with a lifespan of 50,000 hours.

Long service life

Image 3.1: The 5MM copper-free high-resolution silver mirror provides realistic, 1:1 HD reflections without ghosting or distortion.

Image 3.2: High Color Rendering Index (CRI > 90) ensures natural and accurate color representation, crucial for makeup and skincare routines.

Image 3.3: The mirror features advanced craftsmanship with high-density LED strips (230 LEDs/M) around the inner rim, providing super bright illumination and a long lifespan of over 50,000 hours.

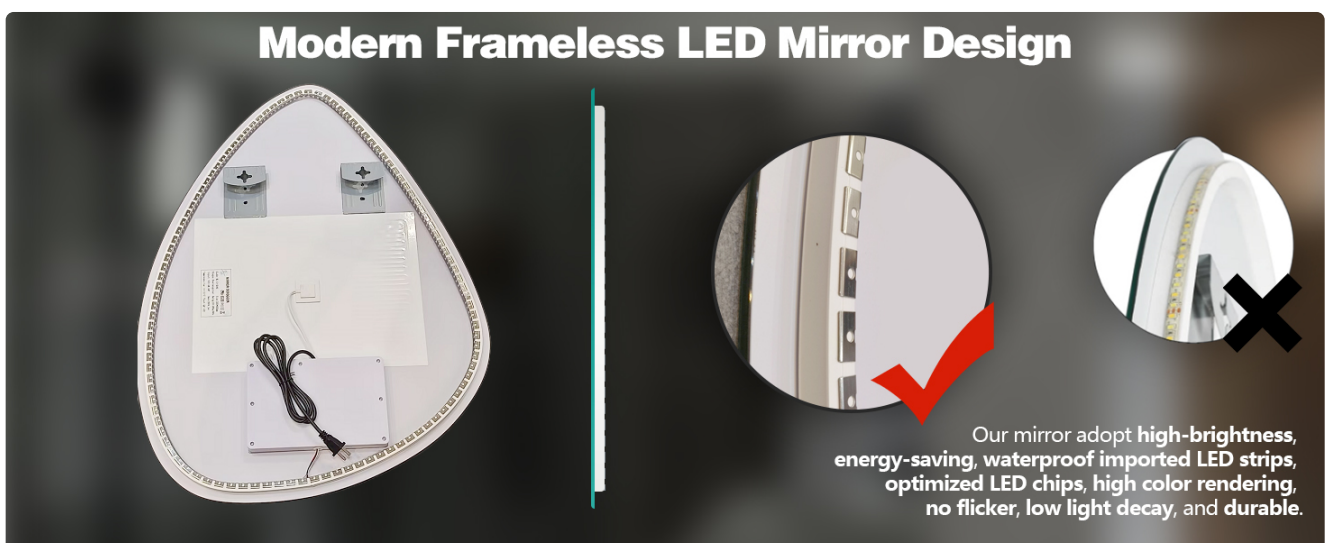

Image 3.4: The modern frameless design incorporates high-brightness, energy-saving, and waterproof imported LED strips for optimal performance and durability.

4. PACKAGE CONTENTS

- Niccy Irregular LED Bathroom Mirror Unit
- Mounting Hardware (Expansion Bolts & Screws)

5. SETUP & INSTALLATION

5.1 Mounting the Mirror

The mirror is designed for wall mounting and includes two hanging holes for secure installation. Use the provided expansion bolts and screws suitable for your wall type.

Image 5.1: The mirror measures 24 inches in length and 32 inches in width. Installation requires expansion bolts and screws, utilizing two designated hanging holes.

5.2 Electrical Connection

Your mirror supports two connection methods: plug-in or hardwire to a wall switch.

- **Option 1: Plug-in:** Connect the mirror's power cord directly to a standard electrical outlet.

- **Option 2: Hardwire:** For a seamless look, the mirror can be hardwired to a wall switch. This installation should be performed by a qualified electrician to ensure safety and compliance with local electrical codes.

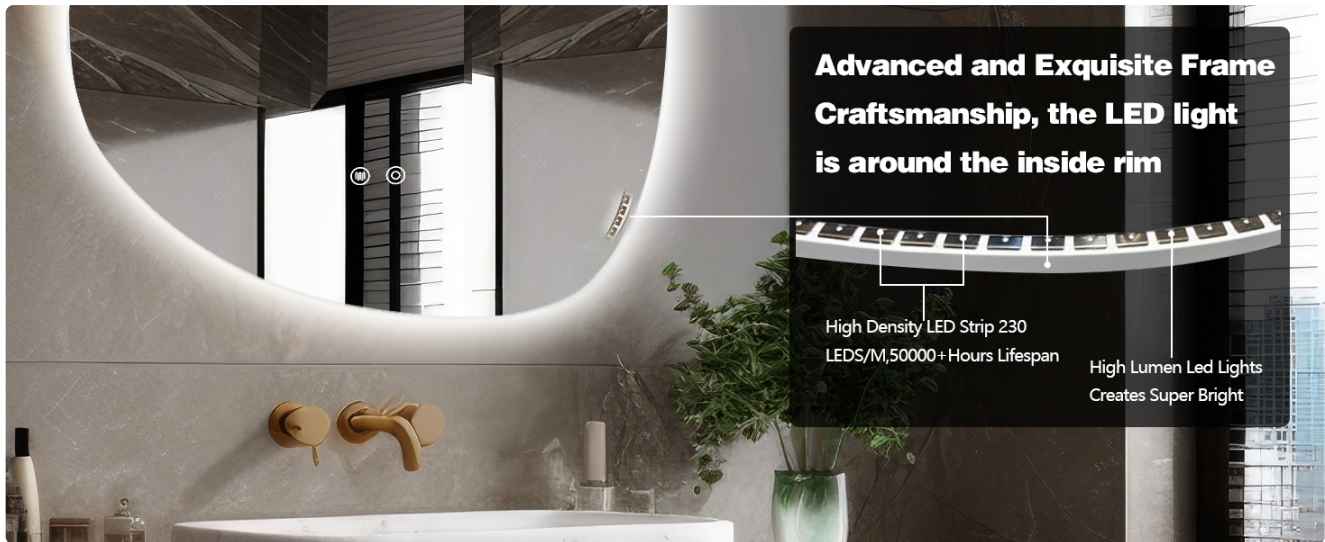

Image 5.2: Choose between connecting the mirror to an outlet (Option 1) or hardwiring it to a wall switch (Option 2) for power.

6. OPERATING INSTRUCTIONS

The mirror features intuitive touch controls integrated into its surface.

6.1 Power On/Off

Tap the power icon on the mirror surface to turn the LED lights on or off.

6.2 Adjusting Color Temperature

Short press the color temperature icon to cycle through the three available lighting modes: 6000K Cool Light, 4500K Natural Light, and 3000K Warm Light. The mirror will remember your last setting.

Image 6.1: Short press the touch control to switch between 6000K Cool Light, 4500K Natural Light, and 3000K Warm Light, suitable for various activities like daily makeup, outdoor light makeup, or heavy party makeup.

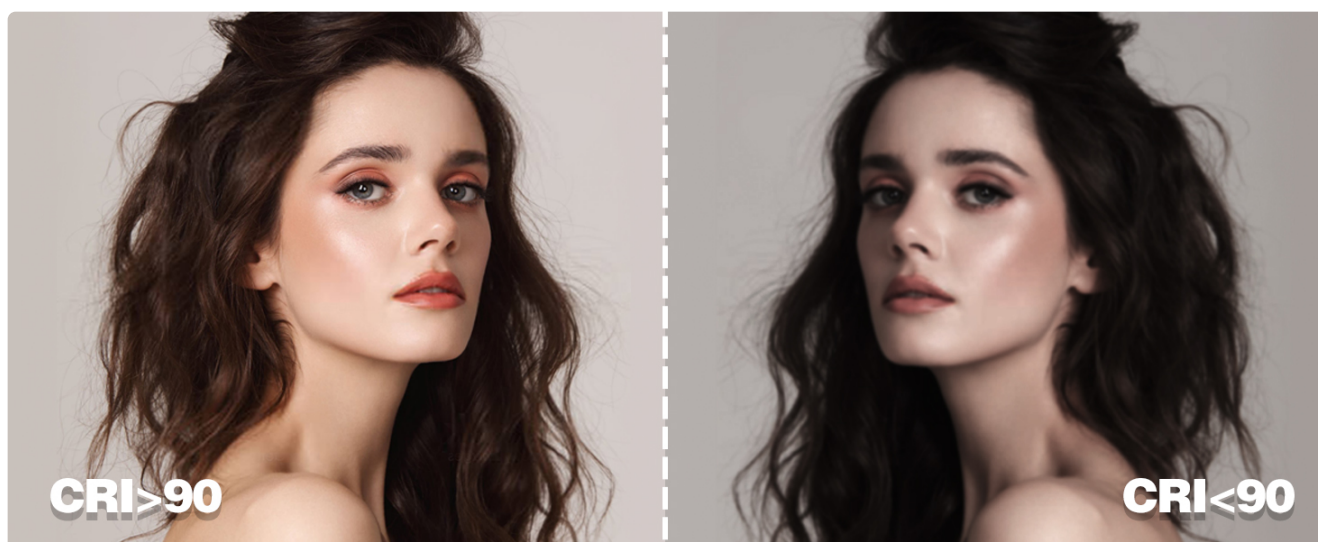

Image 6.2: A short press on the designated touch button allows for easy adjustment of the mirror's color temperature, offering 3 distinct modes (3000K/4500K/6000K).

6.3 Adjusting Brightness (Dimming)

Long press the brightness icon to adjust the light intensity from 10% to 100%. Release when the desired brightness is achieved. The mirror will remember your last setting.

Image 6.3: Long press the dimming touch control to smoothly adjust the brightness from 10% to 100%.

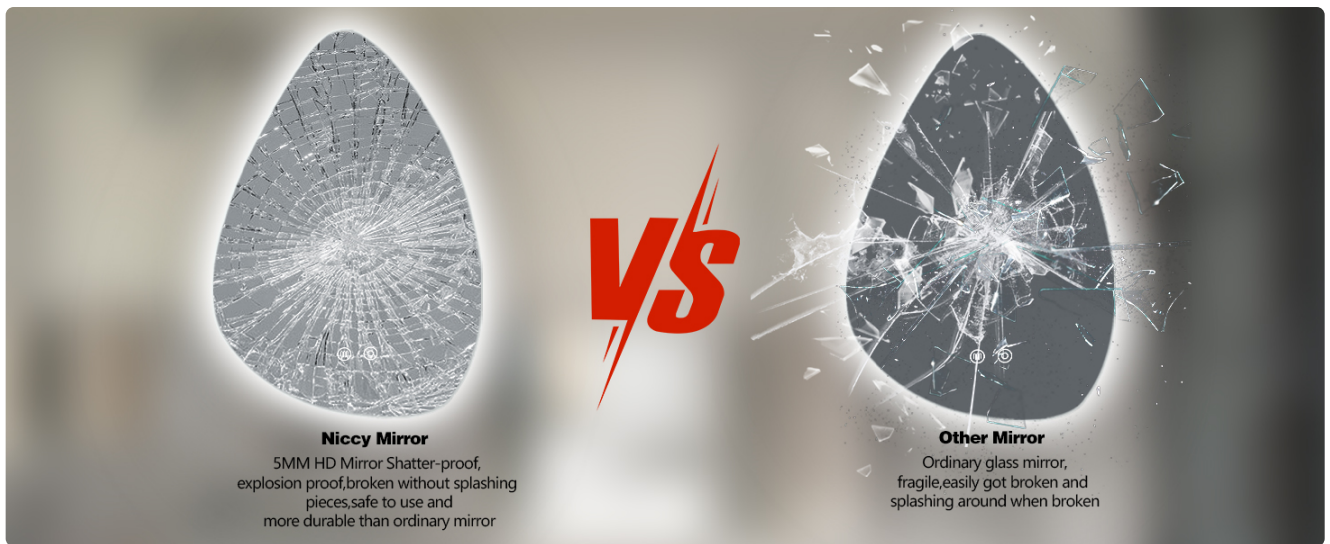

Image 6.4: The mirror's brightness can be adjusted from 10% to 100% by a long press on the touch sensor, providing customizable illumination.

6.4 Anti-Fog Function

Tap the anti-fog icon to activate or deactivate the defogging function. This feature helps maintain a clear mirror surface in humid conditions.

Anti-Fog Function

Tap to turn on/off defogger

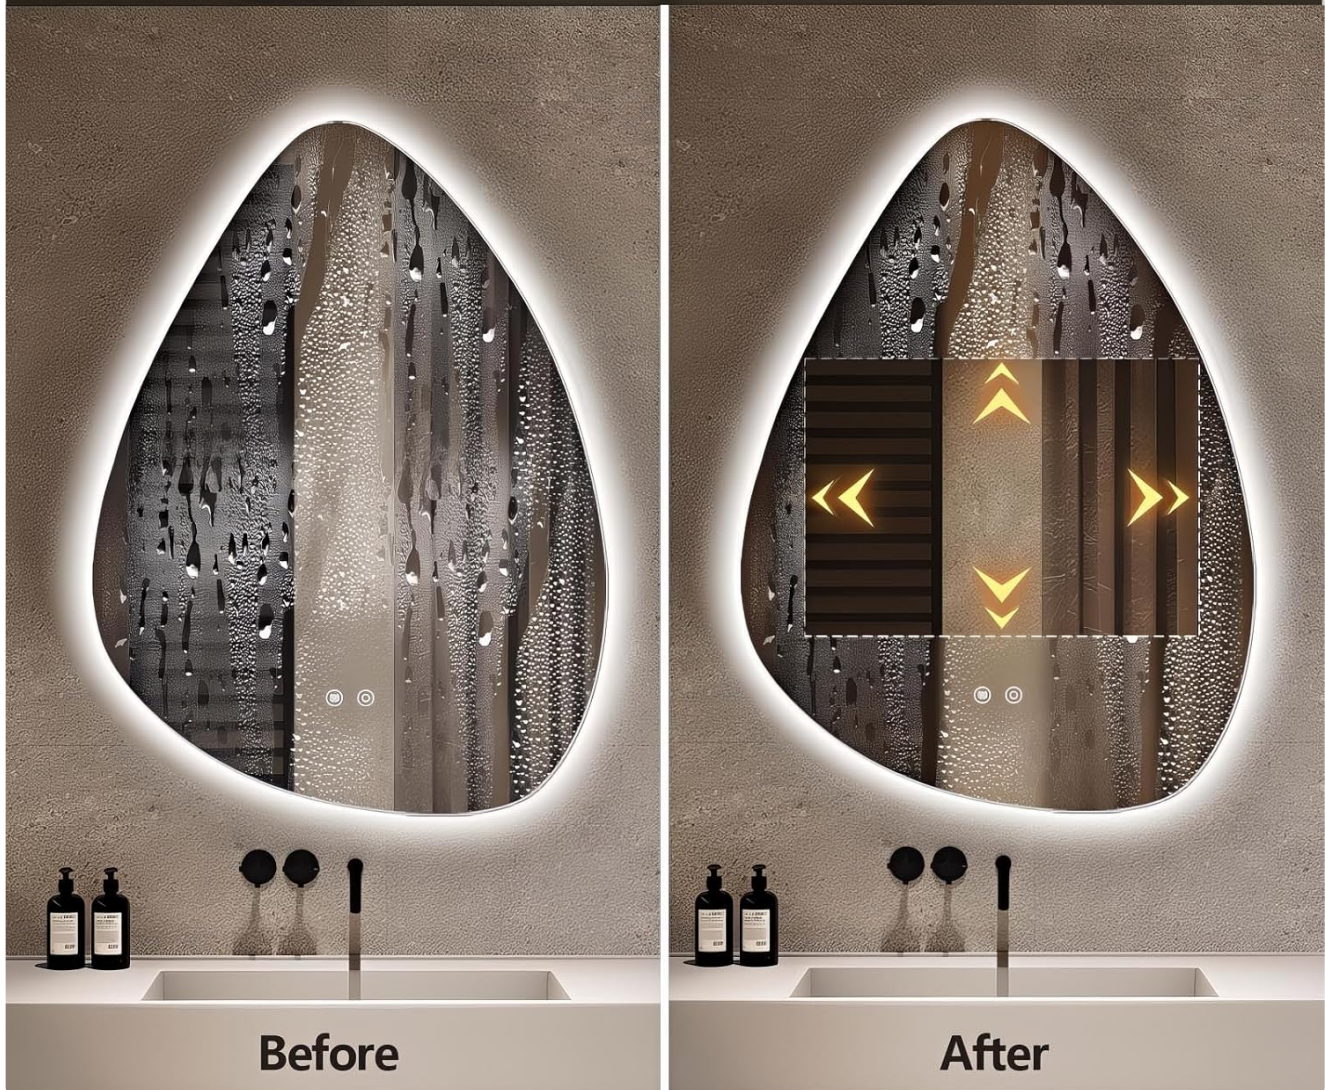

Image 6.5: The anti-fog function can be activated with a tap, quickly clearing condensation from the mirror surface for a clear view.

Video 6.1: This video demonstrates the key features of the Niccy Irregular LED Bathroom Mirror, including its high-definition reflection, anti-fog capability, and adjustable color temperature and brightness settings.

7. MAINTENANCE

To ensure the longevity and optimal performance of your mirror, follow these maintenance guidelines:

- **Cleaning:** Use a soft, damp cloth with a mild glass cleaner. Avoid abrasive cleaners or harsh chemicals that could damage the mirror surface or LED components.
- **Water Exposure:** While the mirror has an IP65 waterproof rating, avoid direct high-pressure water spray on the electrical components.
- **Inspection:** Periodically check the wiring and mounting hardware for any signs of wear or loosening.

Waterproof IP65

Not just any other IP44 or IP54

CRI>95

Image 7.1: The mirror's IP65 waterproof rating ensures protection against water splashes, making it suitable for bathroom environments.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
LED lights do not turn on.	No power supply; loose connection; faulty LED driver.	Check power outlet/switch. Ensure all connections are secure. Contact customer support if the issue persists.
Anti-fog function not working.	Function not activated; electrical issue.	Tap the anti-fog icon to activate. Check power supply.
Lights flicker or dim unexpectedly.	Unstable power supply; faulty LED component.	Ensure stable power. Contact customer support.
Mirror is distorted.	Manufacturing defect.	Contact customer support for assistance.
