Mirightone daybed frame

Mirightone Twin Size Daybed with Storage Drawers and Shelves Instruction Manual

Model: daybed frame

1. Introduction

Thank you for choosing the Mirightone Twin Size Daybed. This daybed is designed to provide a comfortable sleeping area with integrated storage solutions, including drawers and shelves. This manual provides detailed instructions for assembly, operation, maintenance, and troubleshooting to ensure safe and proper use of your new furniture.

Please read this manual thoroughly before assembly and retain it for future reference.

2. Safety Information

To prevent injury and damage to the product, please adhere to the following safety guidelines:

- **Adult Assembly Required:** This product contains small parts and requires adult assembly. Keep children away during assembly.
- **Weight Limit:** The daybed is designed to support a maximum weight of 300 lbs. Do not exceed this limit.
- **Proper Use:** Use the daybed only for its intended purpose as a sleeping and storage unit. Do not stand or jump on the bed.
- **Secure All Fasteners:** Ensure all screws, bolts, and other fasteners are securely tightened before use. Periodically check and re-tighten as necessary.
- **Placement:** Place the daybed on a flat, stable surface. Avoid placing it near windows where cords or blinds could pose a strangulation hazard to children.
- **Ventilation:** Ensure adequate ventilation around the bed, especially if placed in a corner.

3. Package Contents

Your Mirightone Twin Size Daybed will arrive in two separate boxes. Please verify that all components and hardware are present before beginning assembly. If any parts are missing or damaged, contact customer service immediately.

Included Components:

- Twin Daybed Frame (various wooden panels and supports)
- L-Shaped Headboard components
- Storage Drawers (4 units)
- Shelving units
- Wooden Slats (10 units)
- All necessary tools and hardware for assembly
- Instruction Manual (this document)

4. Assembly Instructions

Assembly typically requires two adults. Please follow the steps carefully. It is recommended to assemble the daybed in the room where it will be used.

Tools Required:

- Included Allen Wrench
- Phillips Head Screwdriver (not included, optional)

Assembly Steps:

1. **Unpack and Identify Parts:** Carefully unpack all components from both boxes. Lay them out on a soft, clean surface to prevent scratches. Refer to the parts list in your included manual to identify each piece.
2. **Assemble the Main Frame:** Begin by connecting the side rails to the headboard and footboard sections using the provided bolts and nuts. Ensure all connections are snug but do not overtighten initially.
3. **Install L-Shaped Headboard:** Attach the L-shaped headboard panels to the main frame as indicated in your specific manual diagrams.
4. **Construct Storage Units:** Assemble the four storage drawers and the shelving units according to the instructions. Ensure drawer slides are correctly oriented for smooth operation.
5. **Integrate Storage:** Slide the assembled drawers and shelving units into their designated positions beneath the daybed frame.
6. **Install Bed Slats:** Place the wooden slats across the bed frame, ensuring they are evenly spaced and secured with the provided fasteners. These slats provide mattress support and eliminate the need for a box spring.
7. **Final Tightening:** Once all components are in place, go back and securely tighten all bolts and screws. Do not overtighten to avoid stripping the wood.

Image: Fully assembled Mirightone Twin Size Daybed in white, showcasing the integrated storage drawers and side shelves. A mattress is placed on top, and the drawers are partially open, revealing their capacity.

Image: A detailed view highlighting the three functioning shelves on one side of the daybed and the four pull-out drawers on the other, demonstrating the integrated storage capabilities.

5. Operating Instructions

The Mirightone Twin Size Daybed is designed for straightforward use.

Using the Storage Drawers:

- The four drawers are equipped with smooth sliders for easy opening and closing.
- To open, gently pull the integrated handle cutout on the drawer front.
- To close, push the drawer back until it is flush with the bed frame.
- Avoid overloading drawers to ensure smooth operation and prevent damage to the sliders.

Using the Shelves:

- The open shelves provide convenient access to items.
- Place items securely on the shelves to prevent them from falling.
- Do not place excessively heavy items on the shelves.

6. Maintenance

Regular maintenance will help prolong the life and appearance of your daybed.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the painted finish.
- **Dusting:** Regularly dust the bed frame and shelves with a dry, soft cloth.
- **Fastener Checks:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten as needed to maintain stability.
- **Drawer Slides:** If drawers become stiff, a small amount of silicone-based lubricant can be applied to the slides.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause the wood finish to fade or crack.

7. Troubleshooting

If you encounter any issues with your daybed, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Bed feels wobbly or unstable	Loose fasteners	Check and tighten all bolts and screws. Ensure the bed is on a level surface.
Drawers do not slide smoothly	Overloaded drawer, misaligned slides, or debris in track	Reduce drawer contents. Check if slides are properly aligned and free of obstructions. Apply silicone lubricant if needed.
Squeaking noises	Loose connections or friction between wood parts	Tighten all fasteners. If squeaking persists, identify the source and apply a small amount of wax or lubricant to the contact points.
Missing parts after delivery	Packaging error or lost during transit	Contact Mirightone customer service with your order details.

If the problem persists or is not listed here, please contact customer service for assistance.

8. Specifications

Feature	Detail
Brand	Mirightone
Model Number	daybed frame
Size	Twin
Product Dimensions (L x W x H)	77.8" x 42.4" x 34.3"
