2. PACKAGE CONTENTS

Each package of BXCMYDR Rainbow Color Pull Bows contains the following items:

- **12 Pieces** of 6-inch pull bows in assorted rainbow colors.
- Colors include: Red, Orange, Yellow, Apple Green, Green, Navy Blue, Sky Blue, Purple, Plum Purple, Light Pink, Rose Pink, and White.
- Each unpulled ribbon measures approximately 55 inches (139 cm) in length and 2 inches (5 cm) in width.

3. HOW TO USE (ASSEMBLY INSTRUCTIONS)

Follow these steps to transform the flat ribbon into a beautiful pull bow. Handle with care to avoid damage.

1. **Step 1: Prepare the Ribbon.** Take out one flat Aurora Bow ribbon. Locate the two thin ribbons that are covered by the wider ribbons at one end of the flat ribbon.
2. **Step 2: Pull to Form the Bow.** Hold the two thin ribbons firmly with one hand. With your other hand, gently push the outside wide ribbons upwards towards the hand holding the thin ribbons. Continue pulling until the bow fully forms.
3. **Step 3: Secure the Bow.** Once the bow is fully formed, tie a knot with the two thin ribbons at the base of the bow. This will prevent the bow from loosening.

4. **Step 4: Arrange and Decorate.** Gently adjust the loops of the bow to achieve the desired shape and fullness. The bow is now ready to be attached to your gift, bouquet, or basket.

5. CARE AND MAINTENANCE

To ensure the longevity and appearance of your pull bows, please observe the following care guidelines:

- **Storage:** Store unpulled ribbons flat in a cool, dry place away from direct sunlight to prevent fading and creasing.
- **Handling:** When pulling the bows, apply gentle and consistent pressure. Avoid excessive force, which can tear the ribbon or deform the bow.
- **Cleaning:** These bows are not designed for cleaning. If they become soiled, gentle spot cleaning with a damp cloth may be attempted, but it is not recommended as it may affect the material's integrity or sheen.
- **Environmental Factors:** Keep bows away from open flames, extreme heat, and prolonged exposure to moisture to prevent damage.

6. TROUBLESHOOTING

If you encounter any issues while using your pull bows, refer to the following common problems and solutions:

- **Bow does not form correctly or looks uneven:**
 - Ensure you are holding the two thin ribbons firmly and pulling the wide ribbons upwards evenly.
 - Verify that the thin ribbons are not twisted or tangled before pulling.
 - Refer back to Section 3, "How to Use," and carefully follow each step.
- **Ribbon tears during pulling:**
 - This usually indicates too much strength was applied. Use gentle, steady pressure.
 - Ensure there are no sharp objects or rough surfaces that could snag the ribbon during the pulling process.
- **Bow comes undone after forming:**
 - Make sure to tie a secure knot with the two thin ribbons at the base of the bow immediately after it is fully formed. This knot is crucial for maintaining the bow's shape.

7. WARRANTY AND SUPPORT

BXCMYDR pull bows are designed for quality and ease of use. As these are decorative items, a specific manufacturer's warranty beyond standard return policies is typically not provided. For any product-related inquiries, concerns, or support, please refer to the retailer's customer service where the product was purchased. Please retain your proof of purchase for any potential return or exchange processes.
