GDLF LNG807m

GDLF Outdoor Grill Table with Sink (Model LNG807m) User Manual

Model: LNG807m | Brand: GDLF

1. INTRODUCTION

This manual provides instructions for the assembly, operation, maintenance, and troubleshooting of your GDLF Outdoor Grill Table with Sink. This unit is designed to provide a functional outdoor workspace with a built-in sink, prep area, and storage for grilling and outdoor cooking activities.

Image 1.1: GDLF Outdoor Grill Table with Sink, featuring a stainless steel sink, countertop, and cabinet storage.

2. SAFETY INFORMATION

- **Assembly:** Ensure all parts are correctly assembled and fasteners are tightened securely before use.
- **Placement:** Position the grill table on a stable, level surface. Uneven surfaces can affect stability and door alignment.
- **Weather Protection:** While metal finishes are treated, for extended product lifespan, it is recommended to place the unit under a porch or shelter during heavy rain or extreme weather conditions.
- **Water Connection:** When connecting the sink to a water source, ensure all connections are watertight to prevent leaks. An adapter may be required for standard garden hoses.
- **Weight Capacity:** Do not overload the work surfaces or storage compartments.
- **Children and Pets:** Keep children and pets away from the unit during assembly and operation.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly. Refer to the assembly instructions for a detailed parts list. Typical components include:

- Main frame components
- Stainless steel sink basin
- Faucet
- Water hose (3/4" ends)
- Drain kit (strainer, drain, washers, drainage pipe)
- Stainless steel countertop sections
- Foldable work platform
- Cabinet doors and handles
- Internal shelves
- Paper towel holder
- Spice rack
- Casters (wheels)
- Assembly hardware (screws, nuts, etc.)

MULTI-FUNCTIONAL

4. SETUP AND ASSEMBLY

Assembly is required for this product. Follow the detailed instructions provided in the packaging. The process typically takes a few hours. Ensure you have a Phillips screwdriver available, as the included tool may be basic.

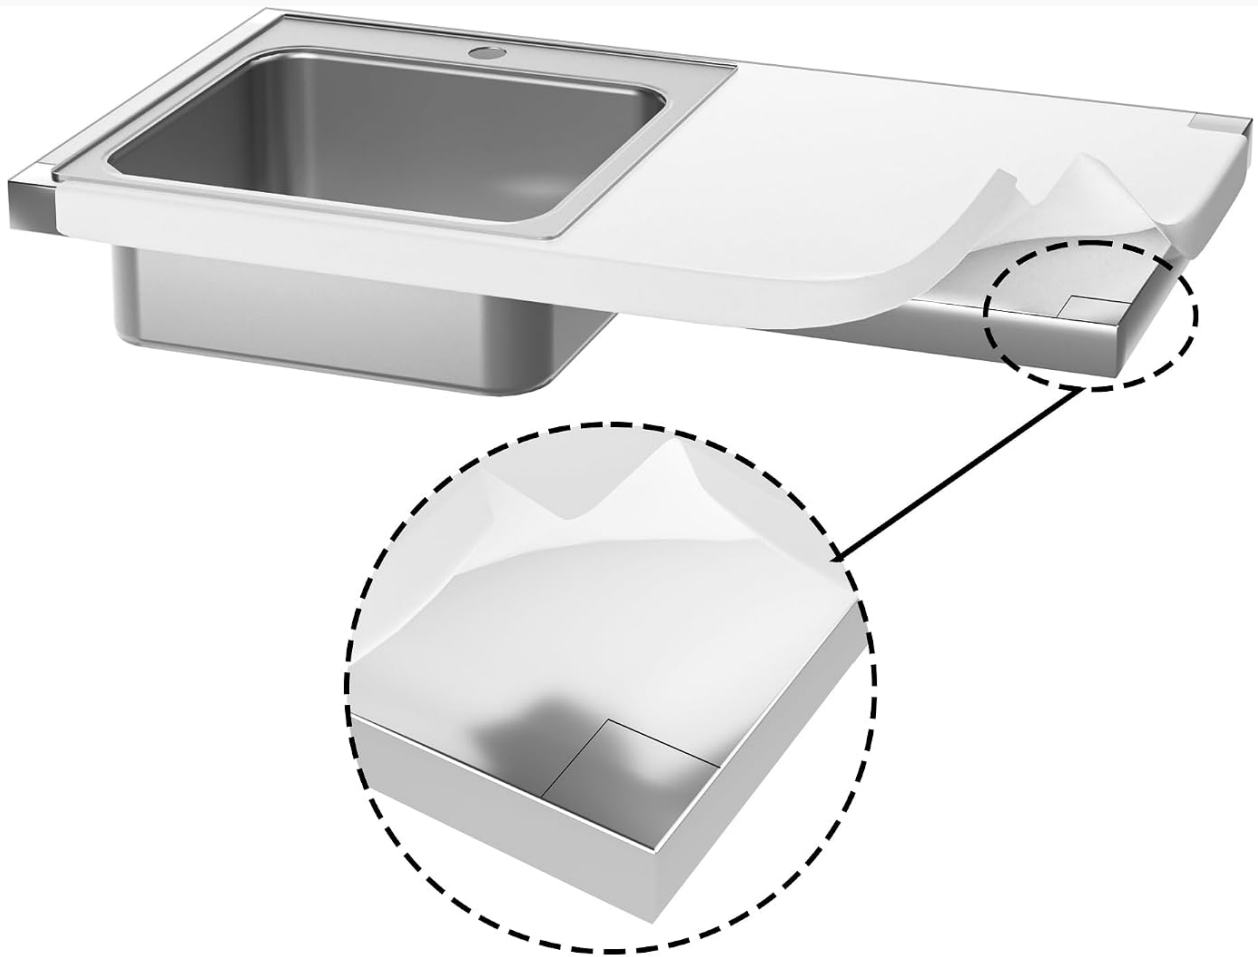

4.1. Preparation

- Unpack all components and verify against the parts list.
- Clear a spacious, level area for assembly.
- Keep the packaging box nearby; it can be used as a stand during initial assembly to keep parts off the ground.

4.2. Removing Protective Film

Carefully remove the protective vinyl film from the stainless steel countertop sections. Note that some black marks may remain after removal, especially where the film extends under the sink rim. These marks can be gently wiped away with a

damp cloth.

Friendly Remind:

Upon removal of the protective stainless steel film, there might be some black marks left behind as shown. These can be gently wiped away with a damp cloth.

Image 4.1: Illustration of protective film removal from the countertop and potential residue.

4.3. Sink and Drain Assembly

Assemble the sink drain components as illustrated. Ensure all rubber washers are correctly seated and tightened to prevent leaks.

Image 4.2: Exploded view of the sink drain kit components, including water storage cover, strainer, drain, washers, and drainage pipe.

4.4. Water Supply Connection

Connect the provided water hose to the faucet. The 3/4" ends of the hose are designed to connect to a water supply source. An adapter may be necessary to connect to a standard garden hose or outdoor spigot.

Image 4.3: Components for water connection: faucet, water hose, drain kit, and drain line.

4.5. Final Assembly and Leveling

Once the main structure is assembled, ensure the unit is placed on a level surface. This is crucial for the proper alignment and closing of the cabinet doors.

5. OPERATING INSTRUCTIONS

5.1. Using the Sink

The integrated stainless steel sink (16.1" x 14.2" x 5.9") allows for convenient washing of food items, utensils, or hands directly at your outdoor cooking station. Ensure the drain hose is directed into a suitable collection bucket or drainage system.

5.2. Work Surface and Foldable Platform

The main work surface provides ample space for food preparation. An additional detachable, foldable work platform can be extended to increase your prep area as needed. The overall dimensions are 57" x 21.65", with the primary work surface (excluding the sink area) measuring 33" x 21.65".

Image 5.1: The grill table in use, demonstrating the extended work surface and internal storage.

Image 5.2: The grill table providing a convenient prep and wash station adjacent to an outdoor grill.

5.3. Storage and Organization

The enclosed storage area, complete with internal shelves, a paper towel holder, and a spice rack, allows for organized storage of grilling tools, ingredients, and accessories.

5.4. Mobility

The unit is equipped with four swivel casters for easy movement. Lock the casters when the table is in its desired position to ensure stability.

6. MAINTENANCE AND CARE

- **Cleaning:** Clean stainless steel surfaces with a mild detergent and a soft cloth. Avoid abrasive cleaners or scouring pads that can scratch the finish.
- **Weather Protection:** As noted in the safety section, store the unit under cover during prolonged periods of heavy rain or extreme weather to protect the metal components and extend product life.

- **Fastener Check:** Periodically inspect all screws and fasteners and re-tighten as necessary, especially after exposure to temperature fluctuations.
- **Drainage:** Ensure the sink drain is clear of debris to maintain proper water flow.

7. TROUBLESHOOTING

- **Cabinet Doors Do Not Shut Properly:** Ensure the grill table is placed on a completely level surface. Adjust the unit's position or use shims if necessary to achieve a level base.
- **Water Supply Connection Issues:** If the provided hose does not connect directly to your outdoor spigot, an adapter (not included) may be required to bridge the 3/4" NPT hose end to your specific water source.
- **Black Marks on Countertop After Film Removal:** These are typically residue from the protective film. Gently wipe them away with a damp cloth.
- **Wobbly Unit:** Check that all assembly screws are securely tightened. Ensure casters are locked when the unit is stationary.

8. SPECIFICATIONS

Feature	Detail
Model Number	LNG807m
Product Dimensions (Overall)	57" W x 21.65" D x 35.6" H
Work Surface Dimensions (excluding sink)	33" W x 21.65" D
Sink Dimensions	16.1" W x 14.2" D x 5.9" H
Materials	Metal frame, 18/8 Stainless Steel sink, Stainless Steel countertop
Color	Black
Item Weight	80 pounds
Number of Shelves	1 (internal)
Wheels	4 Swivel Casters
Assembly Required	Yes
