5.1 Assembly Steps

1. **Unpack and Identify Parts:** Lay out all components on a clean, soft surface to prevent scratches. Compare them with the parts list in the assembly instructions.
2. **Assemble Cabinet Frame:** Follow the step-by-step diagrams to connect the side panels, top, and bottom panels. Ensure all connections are secure.
3. **Install Shelves and Back Panel:** Insert the fixed and adjustable shelves as indicated. Attach the back panel to stabilize the structure.

5.2 Wall Mounting

Crucial: The cabinet must be securely mounted to a sturdy wall to prevent tipping.

1. **Choose Location:** Select a suitable wall location, ensuring it can support the cabinet's weight (approx. 12.4 kg) plus contents. Avoid areas with electrical wires or plumbing.
2. **Mark Drilling Points:** Hold the assembled cabinet against the wall at the desired height and mark the positions for the wall mounting brackets/holes. Use a spirit level to ensure it is straight.
3. **Drill Holes:** Drill holes at the marked positions using an appropriate drill bit for your wall type (e.g., masonry, drywall).
4. **Insert Wall Plugs:** Insert the correct wall plugs (dowels) into the drilled holes.
5. **Mount Cabinet:** Carefully lift the cabinet and align the mounting holes with the wall plugs. Secure the cabinet to the wall using the provided screws. Ensure all screws are tightened firmly.

7. MAINTENANCE

To ensure the longevity and appearance of your Vicco Fynn Wall Cabinet, follow these simple maintenance guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. For stubborn stains, use a mild, non-abrasive cleaner. Avoid harsh chemicals or abrasive materials that can damage the melamine coating.
- **Drying:** Always dry the cabinet thoroughly after cleaning to prevent moisture damage.
- **Inspection:** Periodically check all screws and fittings to ensure they remain tight. Retighten if necessary.
- **Avoid Overloading:** Do not place excessively heavy items in the cabinet to prevent structural damage or tipping.

8. TROUBLESHOOTING

If you encounter any issues with your Vicco Fynn Wall Cabinet, refer to the following common solutions:

Problem	Possible Cause	Solution
Cabinet feels wobbly or unstable	Loose wall anchors or assembly screws.	Ensure wall anchors are appropriate for your wall type and securely installed. Tighten all assembly screws.
Doors do not close properly or are misaligned	Hinges are loose or require adjustment.	Tighten hinge screws. Adjust hinge settings (usually via screws on the hinge body) to align the doors.
Scratches or minor surface damage	Accidental impact or abrasive cleaning.	For minor scratches, furniture repair pens or touch-up kits designed for melamine surfaces may be used. Avoid abrasive cleaners.
