## SAFETY INFORMATION

Adherence to the following safety guidelines is crucial for safe operation and to prevent damage to the product or injury.

- **Ventilation:** If using the storage cabinet to house a CPU tower, ensure the cabinet door is open during operation to allow for adequate ventilation and heat dissipation.
- **Stability:** For enhanced stability and to prevent tipping, especially in households with children or pets, consider anchoring the desk to a wall using appropriate hardware (not included).
- **Assembly:** Assembly requires careful attention to instructions. It is recommended to have two adults for assembly due to the weight and size of components.
