Your Ahilmrn Magic Forest DIY Dollhouse Miniature Kit includes the following components:

- Furniture components
- Wood boards for structural assembly
- Detailed instruction manual
- LED light components
- Dust cover
- Music box mechanism
- Tweezers
- Screwdriver

Note: Glue and batteries are not included and must be prepared separately.

SETUP AND ASSEMBLY

The assembly process for the Magic Forest dollhouse kit involves several steps, including polishing, gluing, and modeling. This process typically takes 4-6 hours to complete, depending on individual experience.

Before You Begin

- Unpack all components and verify against the parts list in the included detailed instruction manual.
- Ensure you have a clean, well-lit workspace.
- Gather necessary additional tools: appropriate glue for wood and miniature components, and batteries for the LED lights.

Assembly Steps (General)

1. **Review Instructions:** Carefully read the entire detailed instruction manual provided with your kit before starting.
2. **Component Preparation:** Identify and separate all wooden boards and smaller components. Some parts may require light sanding or polishing for a smooth finish.
3. **Structural Assembly:** Begin by assembling the main structure of the dollhouse according to the step-by-step diagrams in the manual. Use glue as indicated.
4. **Furniture and Accessory Assembly:** Assemble the miniature furniture and decorative accessories. Pay close attention to detail for these smaller pieces.
5. **Electrical Installation:** Install the LED light components. Follow the wiring diagrams carefully to ensure correct placement and functionality.
6. **Music Box Integration:** Integrate the music box mechanism into its designated location.
7. **Final Details:** Add any remaining decorative elements, figures, or landscaping features to complete the scene.
8. **Dust Cover Placement:** Once assembly is complete, place the dust cover over the dollhouse to protect it.

OPERATING INSTRUCTIONS

LED Lighting

The dollhouse is equipped with LED lights to illuminate the miniature scenes. Once batteries are installed (not included), the lights can be activated. Refer to the detailed instruction manual for the specific location of the battery compartment and the switch.

Music Box

The integrated music box provides an auditory element to your miniature world. Locate the winding mechanism, typically on the side or base of the dollhouse, and gently turn it to activate the music.

MAINTENANCE AND CARE

- **Cleaning:** Use a soft, dry cloth or a small brush to gently remove dust from the dollhouse and its components. Avoid using liquid cleaners, which may damage the materials.
- **Dust Cover:** Always use the provided dust cover when the dollhouse is not being actively viewed or used. This protects the delicate components from dust accumulation and environmental factors.
- **Battery Replacement:** If the LED lights dim or stop working, replace the batteries. Ensure correct polarity when inserting new batteries.
- **Storage:** Store the dollhouse in a stable, dry environment away from direct sunlight and extreme temperatures to prevent material degradation.

TROUBLESHOOTING

If you encounter any difficulties during the assembly process or with the functionality of your Ahilmrn Magic Forest DIY Dollhouse Miniature Kit, please refer to the following:

- **Missing or Damaged Parts:** Double-check the package contents against the parts list in your instruction manual. If any parts are missing or damaged, contact customer support.
- **Assembly Difficulties:** Review the detailed instruction manual carefully. Ensure all steps are followed in sequence and that components are oriented correctly. The use of tweezers (included) can assist with small parts.
- **LED Lights Not Working:**
 - Verify that batteries are correctly installed with the proper polarity.
 - Ensure the battery compartment is securely closed.
 - Check if the switch is in the "ON" position.
 - Confirm that the wiring connections are secure as per the manual.
- **Music Box Not Playing:**
 - Ensure the music box mechanism is fully wound.

- Check for any obstructions preventing the mechanism from operating.
