Airzeen R7

Airzeen R7 Robot Vacuum Cleaner User Manual

Model: R7

INTRODUCTION

Thank you for choosing the Airzeen R7 Robot Vacuum Cleaner. This manual provides essential information for setting up, operating, and maintaining your new robotic vacuum to ensure optimal performance and a clean home environment. Please read this manual thoroughly before using the product and keep it for future reference.

- Charging Post x1

- Adapter x1
- Roller Brush x1
- HEPA Filter x1
- Side Brush x2
- Cleaning Knife x1
- Large Dust Box x1
- Remote Control x1
- Instruction Manual x1
- Quick Guide x1

SETUP

1. Initial Preparation

1. Remove all protective films and stickers from the robot and charging dock.
2. Install the side brushes by pressing them onto the square posts until they click into place.
3. Ensure the dust box and filter are correctly installed inside the robot.

2. Charging the Robot

Place the charging post against a wall in an open area, ensuring there are no obstacles within 1 meter (3 feet) to the sides and 2 meters (6 feet) in front. Connect the adapter to the charging post and plug it into a power outlet. Place the robot on the charging post, ensuring the charging contacts align. The indicator lights will show charging status.

Image: The Airzeen R7 robot vacuum automatically navigates back to its charging station when its battery is low or cleaning is complete, illustrating the auto-recharge function.

3. App Connection

For smart control features, download the "HonySmart" app from your mobile device's app store. Follow the in-app instructions to connect your R7 robot vacuum.

- **How to maintain R7's cleaning performance?**

We recommend regularly cleaning the brush roll, filter, and dustbin to ensure long-lasting performance and consistently efficient cleaning.

- **How to prevent the robot vacuum from getting stuck?**

Before cleaning: Remove toys, wires, and small objects from the floor to avoid tangling or blockage.

Furniture: The R7 is approximately 3 inches (7.6 cm) tall. Ensure there is enough clearance under furniture for the robot to pass through. For areas where the vacuum is prone to getting stuck, consider placing physical barriers to block access.

OPERATING INSTRUCTIONS

Cleaning Modes

The R7 offers 5 distinct cleaning modes to suit various needs. You can switch between modes using the app or the remote control.

- **Automatic Cleaning:** The robot intelligently navigates and cleans the entire area.
- **Spot Cleaning:** Focuses on a specific dirty area, cleaning in a spiral pattern.
- **Edge Cleaning:** Cleans along walls and furniture edges.
- **Timed Cleaning:** Allows you to schedule cleaning sessions.
- **Manual Cleaning:** Control the robot's movement manually via the app or remote.

Multiple Cleaning Modes

Anti-Drop and Anti-Collision Sensors

Equipped with advanced sensors, the R7 avoids falling down stairs and minimizes collisions with furniture and obstacles.

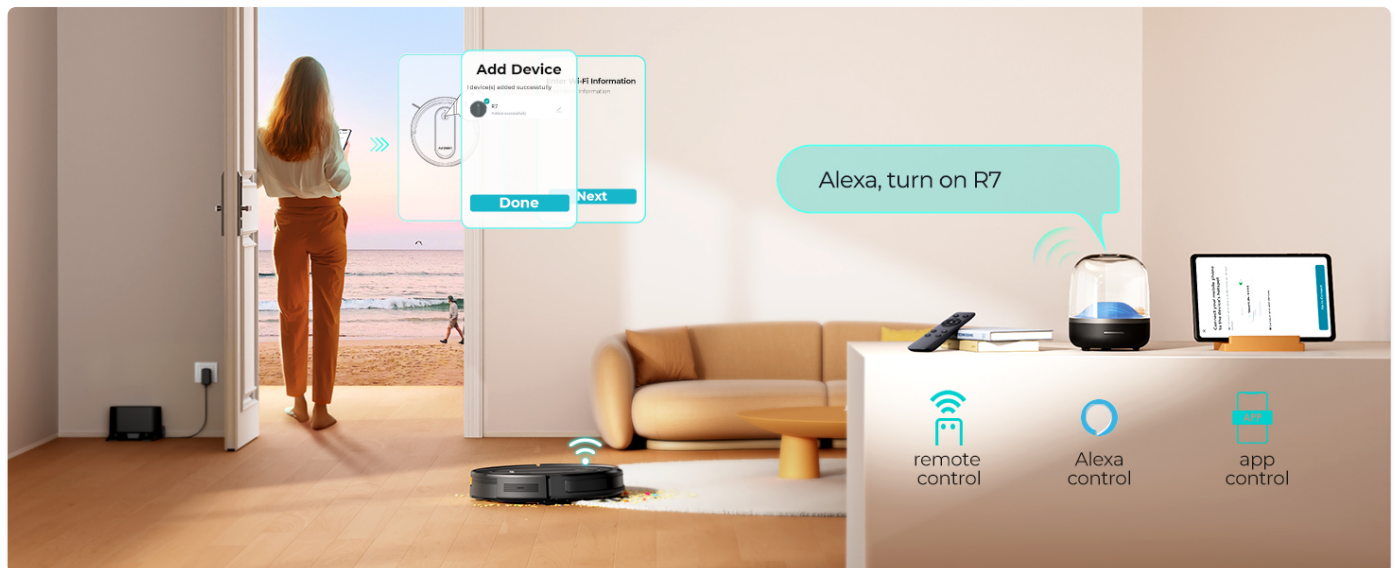

Image: Two panels showing the robot's anti-drop feature preventing it from falling down stairs and its anti-collision feature allowing it to navigate around furniture.

Slim Body Design

With a height of only 3.07 inches (7.8 cm), the R7 can easily clean under most furniture, beds, and hard-to-reach areas.

Image: The Airzeen R7 robot vacuum cleaning effectively under a sofa, highlighting its slim 7.8cm (3.07 inch) body design that allows access to low-clearance areas.

MAINTENANCE

Dust Box and Filter

The R7 features a large 600ml dust box, reducing the frequency of emptying. Regularly clean the dust box and HEPA filter to maintain optimal suction performance.

Extra Large 600ML Dust Box

Holds up to 200m² of dust and equipped with high-efficiency HEAP filter to freshen the air.

Image: The Airzeen R7 robot vacuum with its 600ml oversized dust box removed, showing the internal filter, emphasizing its capacity and high-efficiency HEPA filter.

General Cleaning

- **Brush Roll:** Remove hair and debris from the main brush roll regularly using the cleaning knife provided.

- **Side Brushes:** Check for tangled hair or debris and clean as needed. Replace if worn.
- **Sensors:** Wipe the anti-drop and anti-collision sensors with a clean, dry cloth to ensure proper function.
- **Charging Contacts:** Clean the charging contacts on both the robot and the charging dock periodically.

TROUBLESHOOTING

How to maintain R7's cleaning performance?

We recommend regularly cleaning the brush roll, filter, and dustbin to ensure long-lasting performance and consistently efficient cleaning.

How to prevent the robot vacuum from getting stuck?

- **Before cleaning:** Remove toys, wires, and small objects from the floor to avoid tangling or blockage.
- **Furniture:** The R7 is approximately 3 inches (7.6 cm) tall. Ensure there is enough clearance under furniture for the robot to pass through. For areas where the vacuum is prone to getting stuck, consider placing physical barriers to block access.

SPECIFICATIONS

Feature	Detail
Brand	Airzeen
Model Name	R7
Suction Power	Up to 3000Pa
Dust Box Capacity	600 Milliliters
Product Dimensions	12"L x 12"W x 3"H (approx. 30.5cm L x 30.5cm W x 7.6cm H)
Item Weight	4.38 pounds (approx. 1.99 kg)
Battery Life	120 minutes
Control Method	App, Remote, Touch, Voice (Alexa/Google Assistant)
Filter Type	Sponge (HEPA)
Special Feature	Anti-Fall, Carpet Booster
