

Y29

User Manual: Active Noise Canceling Sleep Headphones (Model Y29)

Invisible Sleep Earbuds Wireless Bluetooth for Sleeping, Driving, Cycling

INTRODUCTION

Thank you for choosing the Generic Active Noise Canceling Sleep Headphones, Model Y29. These invisible sleep earbuds are designed to provide comfort and clarity, especially for side sleepers, with advanced noise-canceling technology and seamless Bluetooth 5.3 connectivity. This manual will guide you through the setup, operation, and maintenance of your new earbuds to ensure optimal performance and a peaceful listening experience.

WHAT'S IN THE BOX

- Invisible Sleep Earbuds
- Charging Cable
- Lanyard
- User Manual

SETUP GUIDE

1. Charging the Earbuds and Case

Before first use, fully charge your earbuds and the charging case. The charging case provides up to 30 hours of total usage time, with the earbuds offering 6 hours of continuous playback per charge.

- Connect the provided charging cable to the charging case and a USB power source.
- The digital LED display on the charging case will indicate the charging status and remaining power.
- Place the earbuds into the charging case. They will begin charging automatically.

Tiny&Portable

Small enough to fit in a pocket, easy to pick up
Enjoy the fun of music anytime, anywhere

≈3.1g

2. Pairing with Your Device

The earbuds utilize Bluetooth 5.3 technology for a stable and easy connection.

1. Open the charging case. The earbuds will automatically enter pairing mode.
2. On your smartphone, tablet, or laptop, enable Bluetooth and search for available devices.
3. Select "Y29" from the list of devices.
4. Once paired for the first time, the earbuds will automatically reconnect to your device when the case is opened for subsequent use.

Digital Power Display

With a digital LED display, it clearly shows the power of the charging box and earphones.

3. Wearing the Earbuds

These invisible sleep earbuds are designed for maximum comfort, especially for side sleepers, with a semi-in-ear style and skin-soft silicone eartips.

- Gently insert each earbud into your ear. The ultra-thin and mini design ensures they sit discreetly.
- Adjust for a snug and comfortable fit. The lightweight body (approx. 3.1g per earbud) and anti-drop design help them stay in place.
- The semi-in-ear style means they do not deeply penetrate the ear canal, reducing discomfort during extended wear or while sleeping on your side.

OPERATING INSTRUCTIONS

Touch Controls

The earbuds feature intuitive touch controls for media playback and calls.

Action	Function
Single Tap	Play/Pause, Answer/End Call
Double Tap (Left Earbud)	Previous Track
Double Tap (Right Earbud)	Next Track
Triple Tap	Activate Voice Assistant
Long Press (2 seconds)	Reject Call

Audio Features

- **Active Noise Cancellation:** These earbuds are equipped with active noise canceling technology to help reduce ambient sounds, providing a more immersive listening experience for music or a quieter environment for sleep.
- **3D Surround Sound:** Enjoy a rich and dynamic audio experience with 3D surround sound capability.
- **Clear Call Quality:** The built-in noise reduction microphone ensures clear calls, even in noisy environments.

Individual Earbud Use

Each earbud can function independently, allowing you to use one earbud while the other is charging or for specific listening preferences.

MAINTENANCE AND CARE

- **Waterproof (IPX7):** The earbuds are IPX7 professional deep waterproof, supporting use during swimming, surfing, snorkeling, and other water sports. However, ensure the charging case is dry before placing wet earbuds inside.
- **Cleaning:** Regularly clean the earbuds and charging case with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Storage:** When not in use, store the earbuds in their charging case to protect them and keep them charged.
- **Temperature:** Avoid exposing the earbuds to extreme temperatures (hot or cold) or direct sunlight for prolonged periods.

TROUBLESHOOTING

If you encounter any issues with your earbuds, please refer to the following common solutions:

Problem	Solution
Earbuds not pairing/connecting.	Ensure Bluetooth is enabled on your device. Make sure the earbuds are charged and the case is open. Forget "Y29" from your device's Bluetooth settings and try pairing again. Restart your device and the earbuds (by placing them back in the case and closing/opening).
No sound or low volume.	Check the volume levels on both your device and the earbuds. Ensure the earbuds are properly seated in your ears. Clean any debris from the earbud speakers.

Problem	Solution
Earbuds frequently stop playing.	Ensure the earbuds are fully charged. Check for interference from other wireless devices. Keep your device within the effective Bluetooth range.
Low battery reminder is too loud/disruptive.	The design has been improved for sleeping conditions and will not send low battery alerts in the middle of the night to disrupt your sleep. If you experience this, ensure your firmware is up to date (if applicable) or contact support.
Earbuds are uncomfortable for sleeping.	These earbuds are specifically designed for side sleepers with a semi-in-ear style. Ensure they are correctly positioned. If discomfort persists, verify you have the correct model or contact support.
