HONOR ELI-NX9

HONOR 200 5G User Manual

Model: ELI-NX9

Introduction

Welcome to the HONOR 200 5G user manual. This guide provides essential information to help you set up, operate, and maintain your new smartphone. Please read this manual carefully to ensure proper use and to maximize your device's capabilities.

Image: The HONOR 200 5G smartphone, showcasing its sleek design and camera module.

What's in the Box

Upon unboxing your HONOR 200 5G, verify that all the following items are included:

Image: An illustration showing the items included in the HONOR 200 5G package.

- Phone Case (TPU Protective Case)
- SIM Tray Ejector
- Screen Protector (Factory attached to the screen)
- USB Cable
- Warranty Card
- Quick Start Guide

Note: The HONOR 200 5G does not include a power adapter in the box. Ensure optimal performance by using the provided USB cable with a compatible charger.

Initial Setup

Follow these steps to set up your HONOR 200 5G for the first time:

Inserting SIM Card

1. Locate the SIM card slot on the side of your device.
2. Use the provided SIM tray ejector tool to gently push into the small hole next to the SIM tray until it pops out.
3. Carefully pull out the SIM tray.
4. Place your Nano-SIM card(s) onto the tray with the gold contacts facing down, ensuring they are correctly aligned according to the tray's outline.
5. Gently push the SIM tray back into the slot until it is flush with the device.

Powering On

Press and hold the Power button (located on the right side of the device) for a few seconds until the HONOR logo appears on the screen. The device will then boot up.

Initial Configuration

Upon first boot, you will be guided through the initial setup wizard. Follow the on-screen prompts to:
- Select your preferred language.
- Connect to a Wi-Fi network.
- Accept the terms and conditions.
- Set up your Google account or transfer data from an old device.
- Configure security settings such as fingerprint unlock or face recognition.

Operating Your Device

Camera Features

The HONOR 200 5G is equipped with an advanced camera system designed to capture high-quality photos and videos.

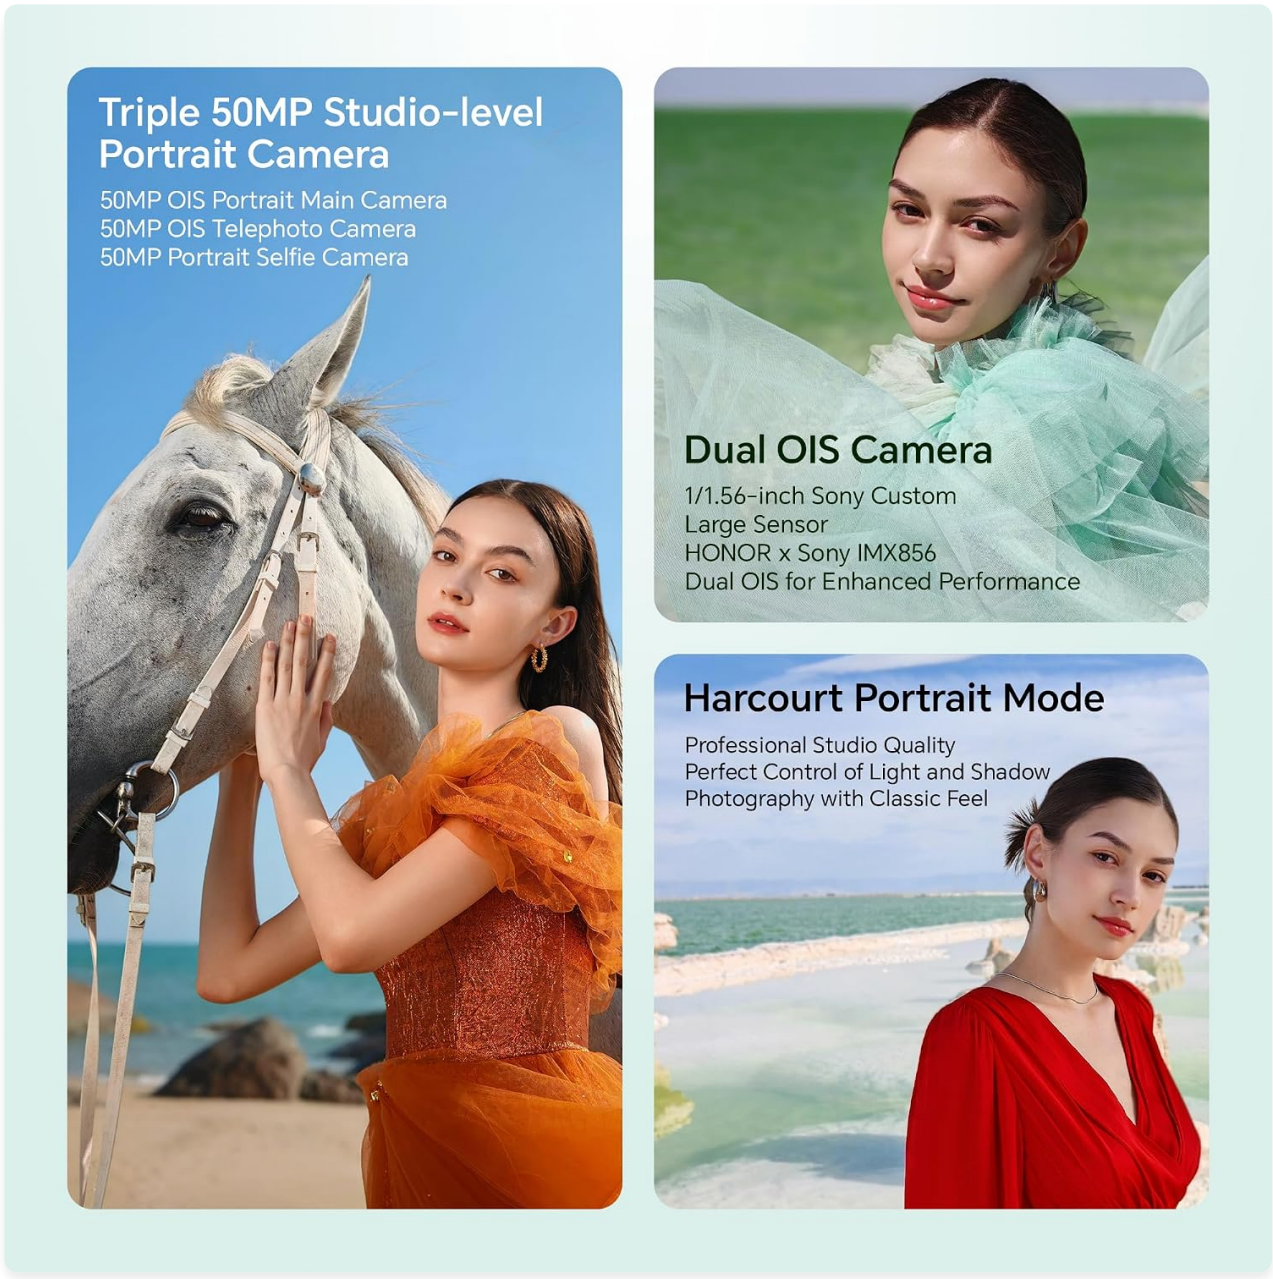

Image: Overview of the HONOR 200 5G's triple camera system and portrait capabilities.

The rear camera setup includes a 50MP OIS Wide-angle Main Camera, a 50MP OIS Telephoto Camera, and a 12MP Ultra-wide-angle Macro Camera. The front camera is a 50MP Wide-angle Selfie Camera, ensuring high-resolution captures from all angles.

Image: A visual representation detailing the specifications of each camera lens on the device.

Portrait Photography

Utilize the AI Portrait Photography modes, including the exclusive collaboration with Studio Harcourt, to achieve professional-grade portraits with enhanced depth and lighting effects.

Image: An illustration highlighting the partnership with Studio Harcourt for enhanced portrait modes.

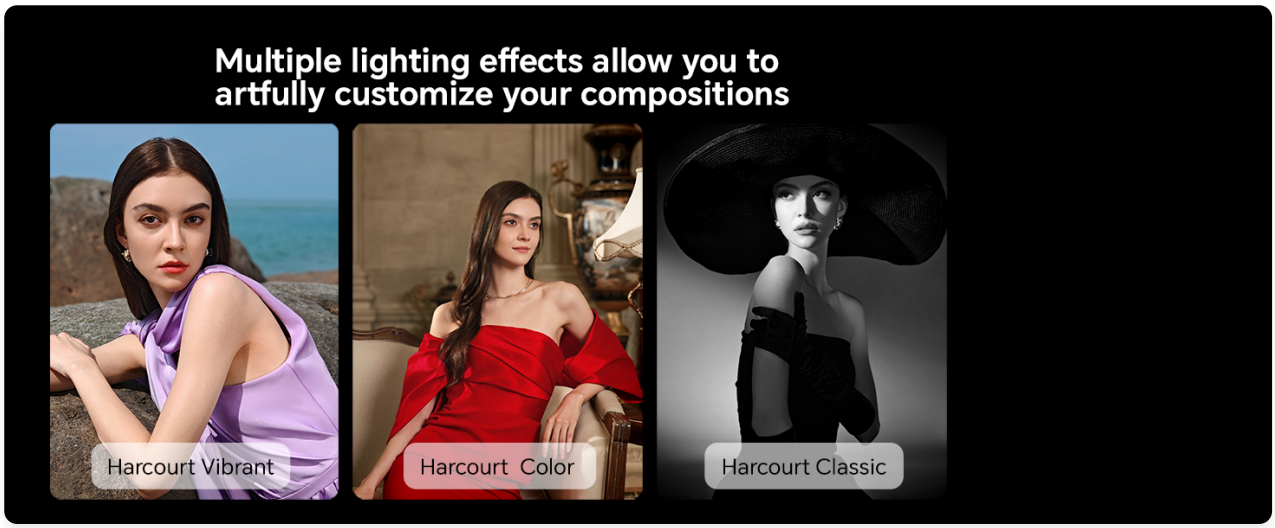

Image: Examples demonstrating the various lighting and stylistic effects available with Harcourt filters.

Zoom and Wide-angle

The 50MP telephoto lens supports up to 50x digital zoom, allowing you to capture distant subjects with clarity. The 12MP ultra-wide camera captures expansive scenes, perfect for landscapes or group photos.

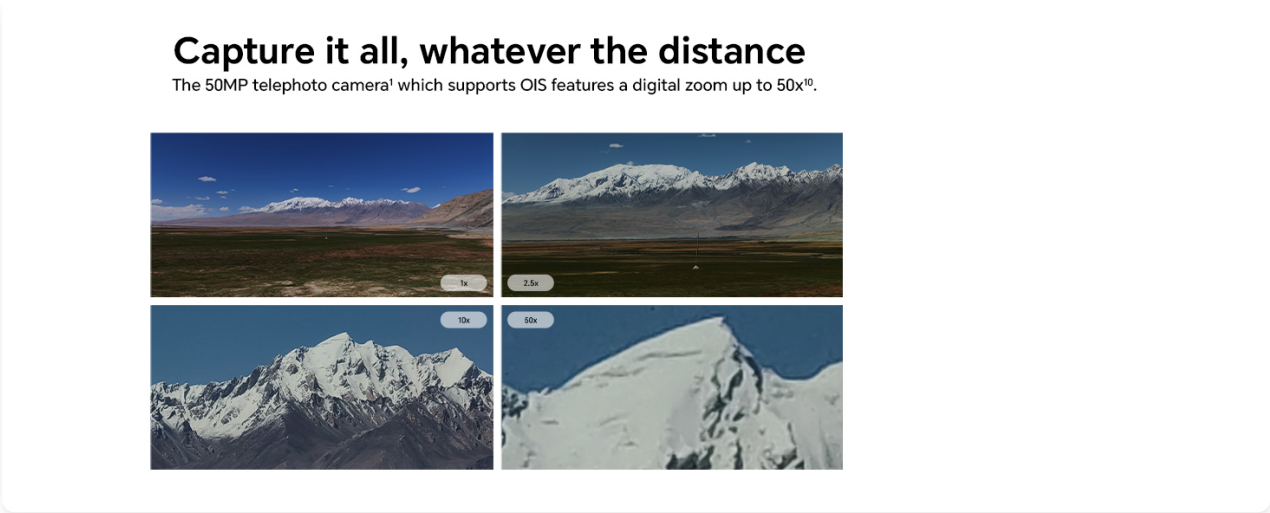

Image: A visual comparison showing the camera's zoom capabilities from 1x to 50x.

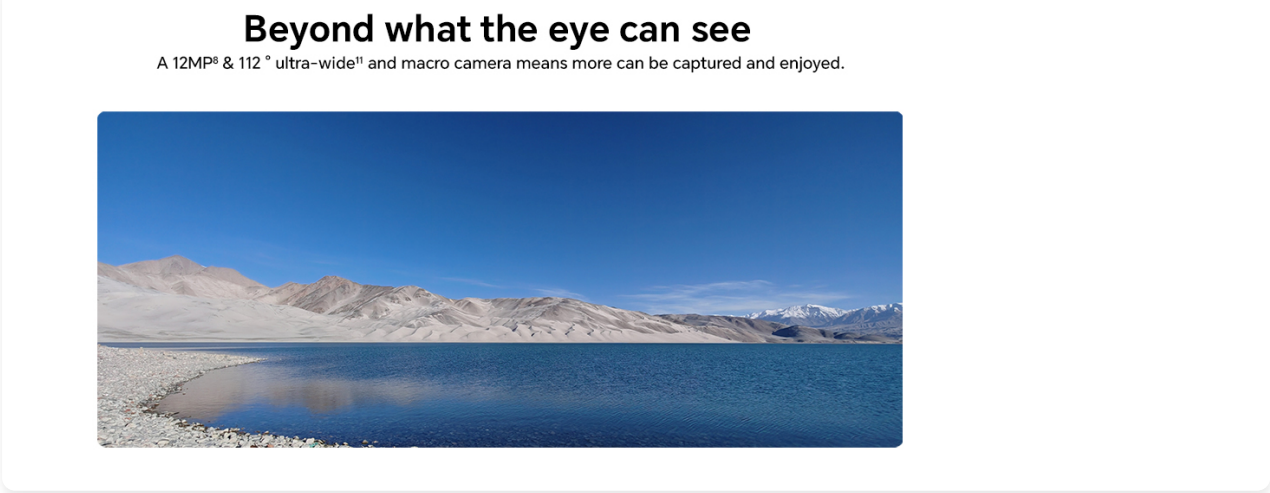

Image: An example photo demonstrating the wide field of view captured by the ultra-wide camera.

Video Recording

Record high-quality 4K videos with both the front and rear cameras. Dual OIS (Optical Image Stabilization) and EIS (Electronic Image Stabilization) work together to ensure stable and smooth footage, even when moving.

Display and Eye Comfort

The HONOR 200 5G features a vibrant 6.7-inch Quad-Curved AMOLED display with a 120Hz refresh rate and a resolution of 2664x1200 pixels, providing a smooth and immersive visual experience.

Image: A graphic highlighting the display's features including eye comfort and high refresh rate.

The display incorporates advanced eye comfort technologies, including 3840Hz PWM Dimming, which significantly reduces screen flicker and eye strain, especially in low-light conditions. This feature is TÜV Rheinland Flicker-free certified.

Night Display.

Performance

Powered by the Snapdragon 7 Gen 3 processor, the HONOR 200 5G delivers robust and efficient performance, ensuring smooth multitasking, responsive app usage, and an enhanced gaming experience.

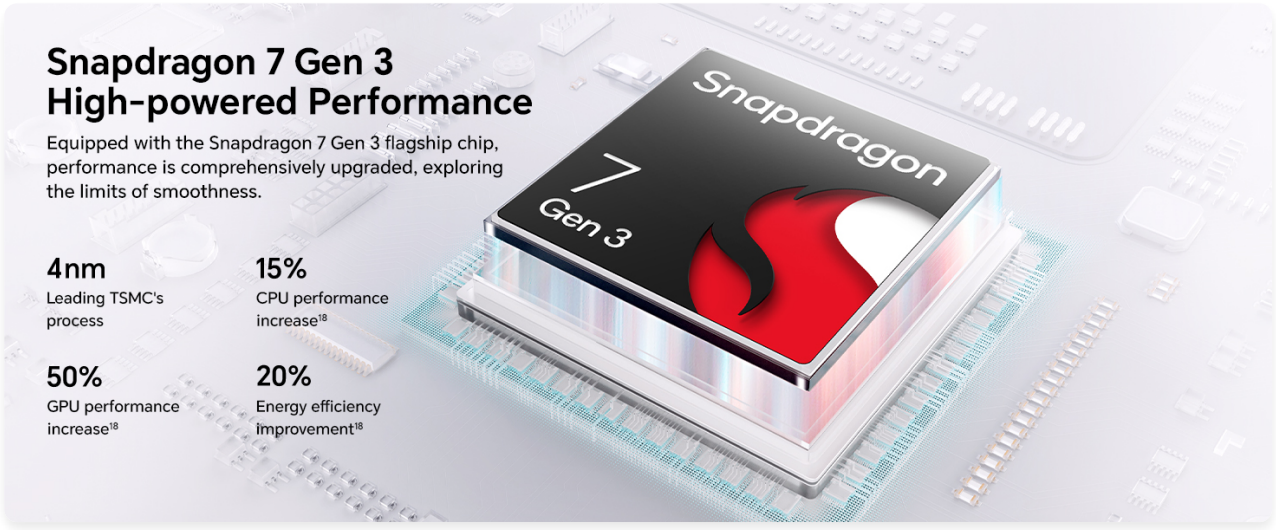

Image: A graphic illustrating the Snapdragon 7 Gen 3 processor and its performance improvements.

Cooling System

The All-range Cooling System 2.0 is integrated to efficiently dissipate heat, maintaining optimal performance even during demanding tasks like gaming or prolonged video recording.

Image: A diagram showing the components and heat dissipation area of the All-range Cooling System 2.0.

Battery and Charging

The HONOR 200 5G is equipped with a large 5200mAh 2nd Gen Silicon-Carbon battery, providing extended usage time throughout your day.

Image: An illustration emphasizing the 5200mAh battery capacity.

The device supports 100W Wired HONOR SuperCharge, allowing for rapid charging to quickly power up your device when needed. For optimal charging, use the original wired SuperCharger and charging cable.

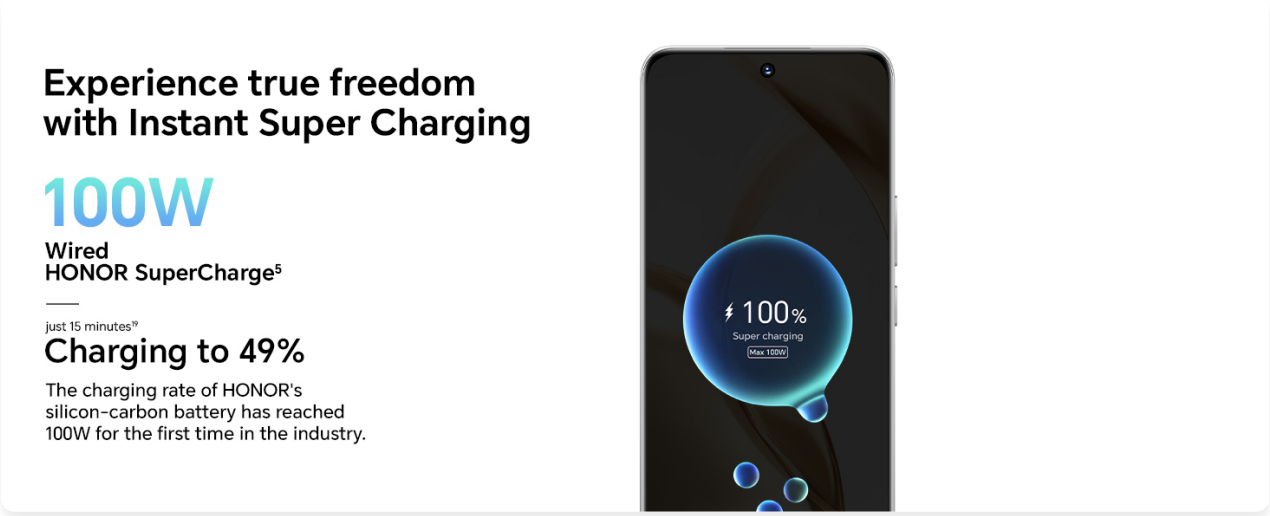

Image: A visual demonstrating the fast charging capability of the 100W HONOR SuperCharge.

MagicOS 9.0 Features

The HONOR 200 5G runs on MagicOS 9.0, based on Android 15, offering a user-friendly interface and a suite of intelligent features designed to enhance your mobile experience.

Image: The MagicOS 9 logo, representing the device's operating system.

Magic Portal

Magic Portal allows for quick and intuitive access to information and functions. Simply tap and glide to target your purpose with simplified operation, reducing the need to switch between apps.

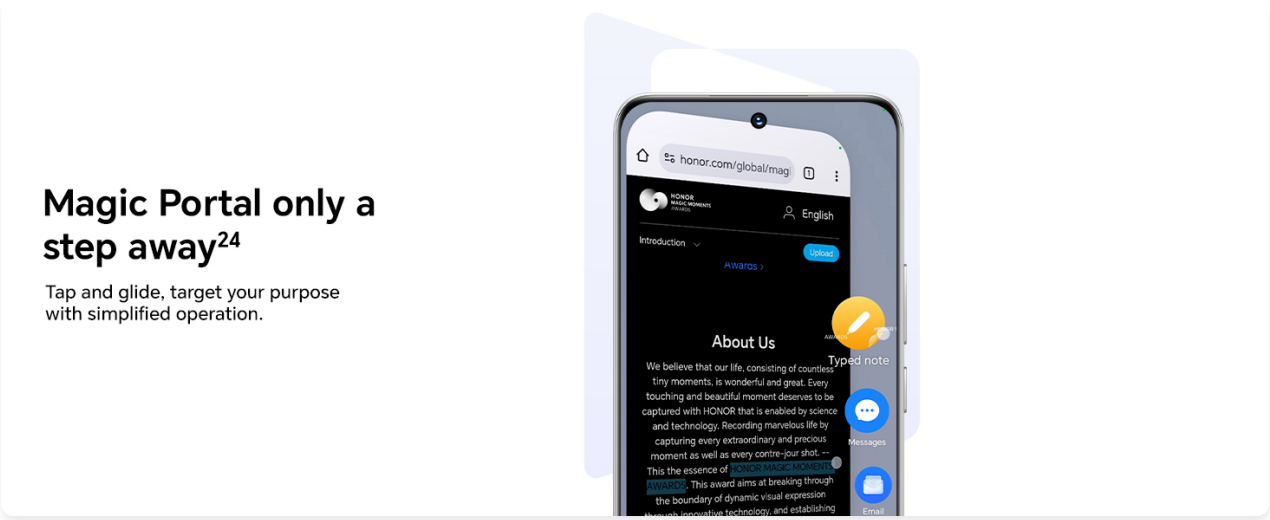

Image: A visual showing how Magic Portal simplifies app interaction and information access.

Magic Capsule

Magic Capsule is an efficiency companion that provides key information at a glance, allowing you to stay focused while receiving important updates or notifications.

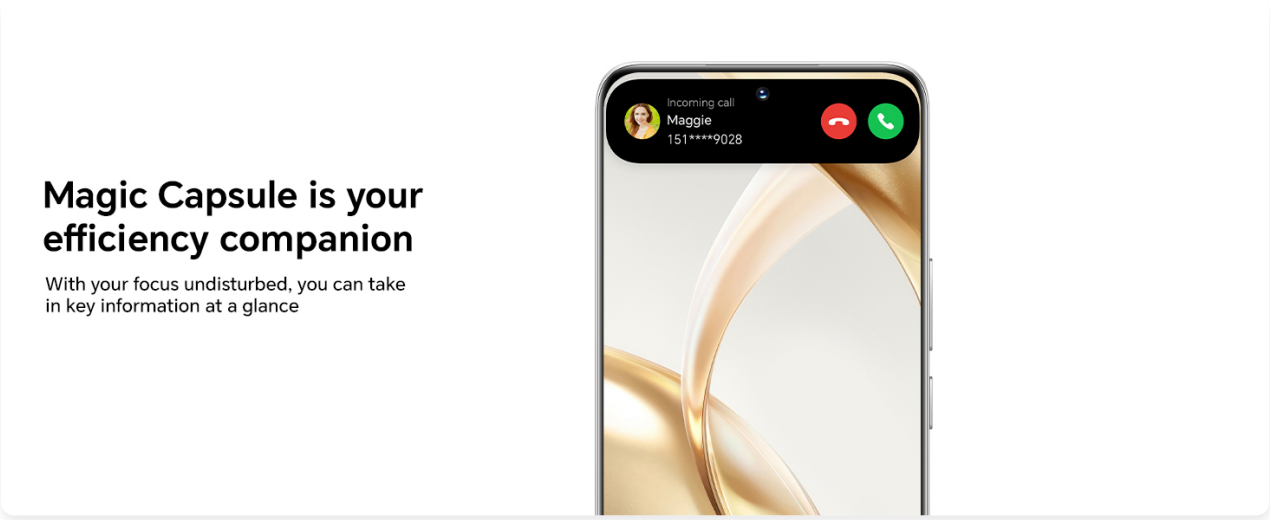

Image: A demonstration of Magic Capsule displaying incoming call information without interrupting the user's current activity.

Personalized Lock Screen & Always On Display

Customize your lock screen to reflect your personality with various themes and layouts. The Full-screen Always On Display allows you to view notifications, time, and other essential information without unlocking your device.

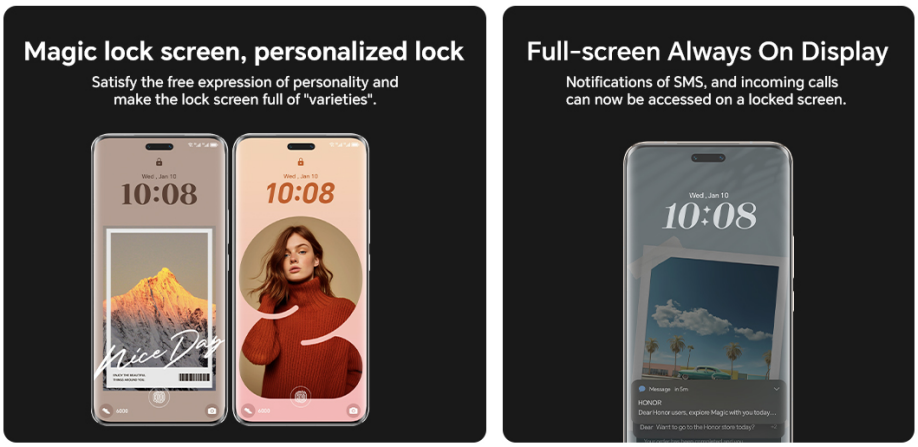

Image: Examples of customizable lock screens and the Always On Display feature.

AI Features

AI technology provides increased possibilities for artistic creation and daily convenience. Features include optimizing images for different lighting situations, organizing photos and videos into highlights, and creating instant movies.

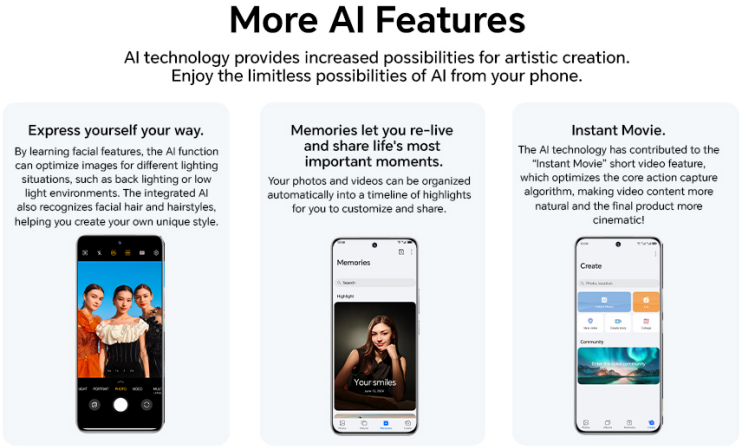

Image: A visual showcasing various AI features like image optimization, memory organization, and instant movie creation.

Maintenance and Care

To ensure the longevity and optimal performance of your HONOR 200 5G, follow these guidelines:

- **Cleaning:** Regularly clean your device using a soft, dry, lint-free cloth. Avoid using harsh chemicals or abrasive materials.
- **Temperature:** Avoid exposing the phone to extreme temperatures (very hot or very cold) or direct sunlight for prolonged periods, as this can affect battery life and internal components.
- **Screen Protection:** While the device comes with a factory-attached screen protector, consider using additional screen protection like a tempered glass protector for enhanced durability.
- **Accessories:** Use only HONOR-approved chargers, cables, and accessories. Using third-party accessories may void your warranty or cause damage to the device.

- **Water Resistance:** This device is not water-resistant. Avoid exposing it to water or excessive moisture.

Troubleshooting

This section addresses common issues you might encounter with your HONOR 200 5G. If the problem persists after trying these solutions, please contact customer support.

Device Not Powering On

Solution: Ensure the battery is charged. Connect the phone to a charger for at least 10 minutes before attempting to power on again. If it still doesn't turn on, try holding the Power button for 10-15 seconds to force a restart.

Screen Unresponsive

Solution: Perform a forced restart by holding the Power button for approximately 10 seconds until the device reboots. If the screen remains unresponsive, it may indicate a hardware issue requiring professional service.

Network Connectivity Issues

Solution:
1. Check if your SIM card is properly inserted in the tray.
2. Try toggling Airplane Mode on and off from the Quick Settings panel.
3. Restart your device.
4. Go to Settings > Mobile network > Network mode and ensure the correct network type (e.g., 5G/4G/3G auto) is selected.
5. If issues persist, contact your network service provider.

Battery Draining Quickly

Solution:
1. Close background applications that are not in use.
2. Reduce screen brightness or enable adaptive brightness.
3. Disable features like Wi-Fi, Bluetooth, or GPS when not needed.
4. Review battery usage in Settings > Battery to identify power-consuming apps and restrict their background activity.
5. Ensure your device's software is up to date.
