VR SHINECON SC-G05A

VR Headset Virtual Reality VR Glasses VR Helmet

MODEL: SC-G05A

Brand: VR SHINECON

Introduction

Thank you for choosing the VR SHINECON SC-G05A VR Headset. This manual provides essential information for the safe and effective use of your new virtual reality device. Please read this manual thoroughly before operation and retain it for future reference.

Safety Information

- Do not use the VR headset while driving, walking, or engaging in activities that require your full attention to your surroundings.
- Ensure adequate space around you to avoid collisions with objects or people.
- Take regular breaks to prevent eye strain, dizziness, or discomfort. If you experience any discomfort, discontinue use immediately.
- Keep the device away from direct sunlight, high temperatures, and moisture.
- This product is intended for adult use. Supervise children if they are permitted to use the device.

Package Contents

Verify that all items are present in the package:

- 1 x VR Headset for iPhone or Android Phone

Setup

1. **Insert Your Smartphone:** Open the front cover of the VR headset. Carefully place your smartphone into the designated slot, ensuring it is centered and securely held. The headset is compatible with smartphones ranging from 4.7 to 6.5 inches.

Image: Illustration of the VR headset's compatibility with various smartphone sizes.

2. **Adjust Head Straps:** Put on the VR headset. Adjust the elastic head straps (top and side straps) to achieve a comfortable and secure fit. The design is engineered for balanced pressure distribution across the head.

ENGINEERING HEADBAND

Image: The VR headset featuring its adjustable engineering headband for a comfortable fit.

- 3. Adjust Lens Focal Length and Object Distance:** Use the adjustment knobs on the top of the headset to fine-tune the focal length and object distance. This allows you to customize the viewing experience for optimal clarity and comfort, accommodating different vision needs.

Double Lens Focal Length Independent Adjustment

360 ° panorama is independently designed with double lenses in the cinema. A single lens can adjust the viewing distance of 400 degrees to find the most comfortable viewing angle for your eyes and let HD come.

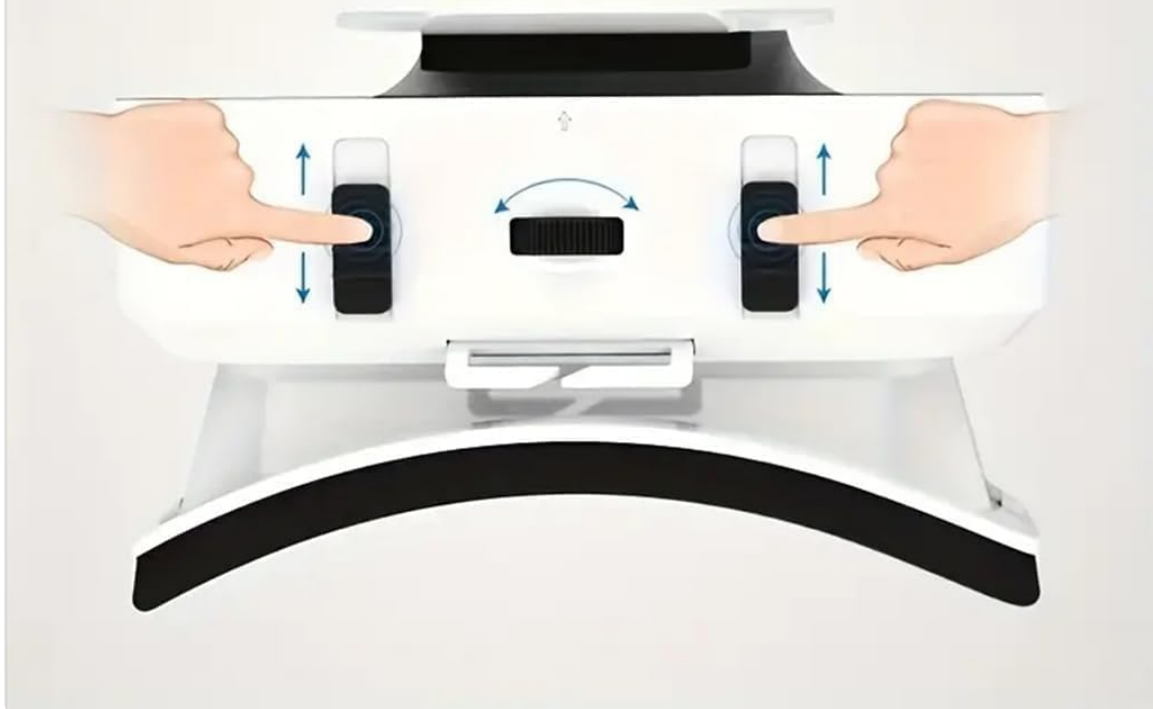

Image: A diagram illustrating the independent double lens focal length adjustment mechanism on the VR headset.

4. **Download VR Content:** Before using the headset, download VR-compatible applications or content from your smartphone's app store (e.g., Google Play Store for Android, Apple App Store for iOS). Search for "VR player," "360 video," or "VR games."

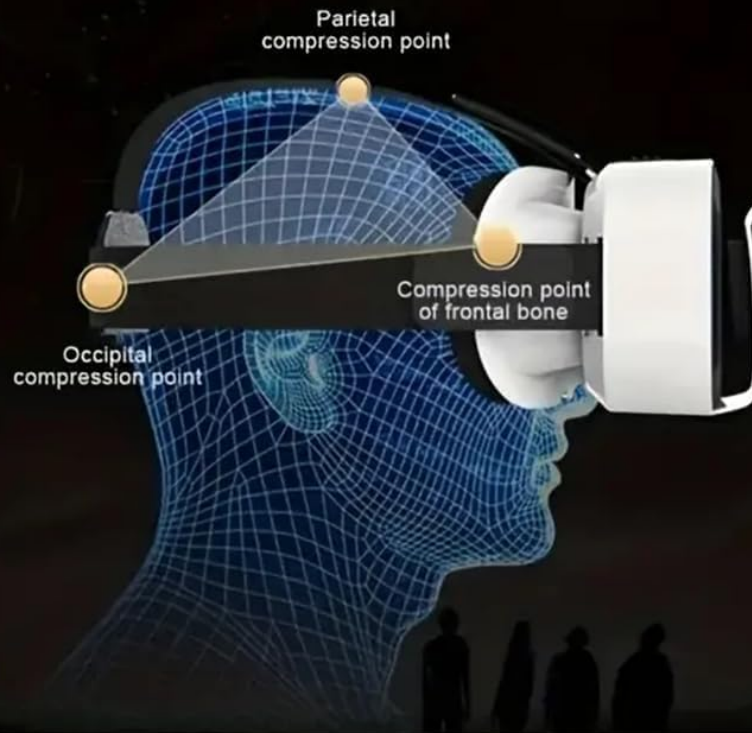

Operating

1. Launch your chosen VR application or content on your smartphone.
2. Insert your smartphone into the headset as described in the Setup section.
3. Put on the headset and adjust the straps for comfort.
4. Adjust the lens focus and object distance until the image is clear and comfortable for your eyes.
5. Enjoy your immersive virtual reality experience.

Humanized Engineering Design

Human engineering design

High density and abrasion resistance, reduce skin friction during film viewing, and make it more comfortable to breathe and watch film

Image: A diagram highlighting the humanized engineering design of the VR headset, focusing on pressure points for comfort.

Maintenance

- **Cleaning Lenses:** Use a soft, dry microfiber cloth specifically designed for optical lenses to gently wipe the headset lenses. Do not use abrasive cloths, paper towels, or chemical cleaners, as these can scratch or damage the lenses.
- **Cleaning Exterior:** Wipe the exterior of the headset with a soft, slightly damp cloth. Avoid getting moisture into any openings.
- **Storage:** Store the VR headset in a cool, dry place away from direct sunlight and dust. Use the original packaging or a protective case if available.
- **Heat Dissipation:** The headset features a multi-directional ventilation design to aid in heat dissipation from the smartphone during use. Ensure these vents are not obstructed.

Heat Dissipation And Ventilation Design

0-400 degree vision adjustment

The keys are free, without jamming, and the multi-directional ventilation design accelerates the heat dissipation of the mobile phone and reduces the burden of the mobile phone

Troubleshooting

Problem	Possible Cause	Solution
Image is blurry or out of focus.	Incorrect lens adjustment; smartphone not centered.	Adjust the focal length and object distance knobs until the image is clear. Ensure your smartphone is perfectly centered within the headset's tray.
Smartphone does not fit or is loose.	Smartphone size is outside the compatible range.	Verify your smartphone's screen size is between 4.7 and 6.5 inches. Ensure it is properly secured in the phone holder.
Discomfort during use (e.g., pressure on face, head).	Head straps are too tight or improperly adjusted.	Loosen and readjust the head straps to distribute weight evenly and reduce pressure points. Take frequent breaks.
Head strap broke or feels cheap.	Manufacturing defect or excessive force applied.	Contact customer support for assistance if within warranty. Handle the straps with care during adjustment.
