INSTALLATION AND FILTER REPLACEMENT

How to Replace the Filter

Follow these steps to replace the filter in your Tailulu AP100 Air Purifier:

1. Flip the air purifier upside down.
2. Rotate the bottom cover counter-clockwise to unlock it.
3. Remove the bottom cover and the used filter.
4. Remove the new filter from its plastic packaging.
5. Insert the new filter into the air purifier.
6. Place the bottom cover back onto the machine and twist it clockwise until it clicks into place.
7. Press and hold the filter reset button for 3 seconds to reset the filter indicator.

OPERATION

Operating Your Air Purifier

After installing the filter and plugging in the device, use the control panel on top of the air purifier to manage its functions.

- **Power Button:** Press to turn the unit on or off.
- **Fan Speed Settings:** Adjust the fan speed (Low, Medium, High) to suit your preference and air quality needs.
- **Timer Function:** Set the operating time for 2, 4, or 8 hours.
- **Child Lock:** Activate the child lock to prevent accidental changes to settings.
- **Night Light:** Turn the integrated night light on or off.

Room-filling Air Purity

Covers up to

MAINTENANCE

Filter Maintenance

To maintain optimal performance, it is recommended to replace the filter every 3-6 months. The actual replacement interval may vary based on usage frequency and local air quality. A filter indicator light on the control panel will illuminate when a replacement is due.

Always remove the plastic packaging from the new filter before installation.

Great Choice for Pets
