

## **DG08M**

# **Generic DG08M Bone Conduction BT Headset User Manual**

Model: DG08M

## **PRODUCT OVERVIEW**

---

The Generic DG08M is a bone conduction Bluetooth headset designed for sports and active use. It transmits sound through bone vibrations, bypassing the eardrum, which allows users to remain aware of their surroundings. This headset features Bluetooth 5.0 for stable connectivity and an IPX6 waterproof rating, making it suitable for various environments.

Figure 1: Front view of the DG08M Bone Conduction BT Headset.

## Key Features:

- Bone Conduction Technology: Delivers sound through cheekbones, keeping ears open.
- Bluetooth 5.0: Ensures stable connection and low power consumption.
- IPX6 Waterproof: Resistant to sweat and rain.
- Lightweight Design: Weighs approximately 29g for comfortable wear.
- Long Battery Life: Up to 6 hours music playback, 10 days standby.

## PACKAGE CONTENTS

---

Verify that all items are present in the package:

- 1 x Bone Conduction Headphone (DG08M)
- 1 x Charging Cable (not explicitly listed but implied for a BT device)
- 1 x User Manual (this document)

## SETUP

---

## 1. Charging the Headset

Before first use, fully charge the headset. Connect the charging cable to the charging port on the headset and plug the other end into a USB power source (e.g., computer USB port or wall adapter). The LED indicator will show charging status.

Figure 2: Side view of the headset, highlighting the charging contacts.

## 2. Powering On/Off

- **Power On:** Press and hold the Power button for approximately 3 seconds until the LED indicator flashes.
- **Power Off:** Press and hold the Power button for approximately 5 seconds until the LED indicator turns off.

## 3. Bluetooth Pairing

To connect the headset to your device (smartphone, tablet, etc.):

1. Ensure the headset is powered off.
2. Press and hold the Power button for about 5-7 seconds until the LED indicator flashes red and blue alternately, indicating pairing mode.
3. On your device, enable Bluetooth and search for available devices.
4. Select "DG08M" (or similar name) from the list of found devices.
5. Once paired, the LED indicator on the headset will flash blue slowly.

## OPERATING INSTRUCTIONS

---

### Music Playback

- **Play/Pause:** Press the Multi-function button once.
- **Next Track:** Double-press the Multi-function button.
- **Previous Track:** Triple-press the Multi-function button.

### Call Management

- **Answer Call:** Press the Multi-function button once.
- **End Call:** Press the Multi-function button once during a call.
- **Reject Call:** Press and hold the Multi-function button for 2 seconds.
- **Voice Assistant:** Press and hold the Multi-function button for 2 seconds (when not on a call).

## Volume Control

- **Volume Up:** Press the Volume Up (+) button.
- **Volume Down:** Press the Volume Down (-) button.

## MAINTENANCE

---

### Cleaning

Wipe the headset with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners. Ensure the charging port is dry before charging.

### Storage

Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. Avoid placing heavy objects on the headset.

### Water Resistance (IPX6)

The DG08M headset is IPX6 rated, meaning it is protected against high-pressure water jets from any direction. It is suitable for use during workouts and in light rain. **Do not submerge the headset in water.**

Enjoy your sports

# IPX6 Waterproof Design No Worries About Rainwater or Sweat

## TROUBLESHOOTING

- **No Power:**

Ensure the headset is fully charged. Connect it to a power source and check the charging indicator.

- **Cannot Pair with Device:**

Make sure the headset is in pairing mode (LED flashing red and blue). Turn off and on Bluetooth on your device. Try restarting both the headset and your device. Ensure the headset is not already connected to another device.

- **No Sound:**

Check the volume levels on both the headset and your connected device. Ensure the headset is properly paired and connected. Try playing audio from a different application or source.

- **Poor Sound Quality:**

Ensure there are no obstructions between the headset and your device. Move closer to your device to reduce interference. Check for any physical damage to the headset.
